

WILSON APPEALS FROM SICK BED FOR HARMONY

SENDS LETTER TO HEADS OF GROUPS IN INDUSTRIAL CONFAB FOR AGREEMENT

COUNTRY'S SERIOUS INDUSTRIAL NEEDS PROMPTS PRESIDENT TO IGNORE ADVICE OF PHYSICIANS AND WRITES ADMONITION TO LEADERS AT CONFERENCE TO GET TOGETHER ON BIG PROBLEMS

WASHINGTON, Oct. 21 (United Press)—The President today drafted a letter to the Industrial Conference Secretary Lane chairman of the Conference said he probably would read it at this afternoon's meeting. The nature of the letter was not stated in advance, but it was expected to be an admonition to conferees to get together in the face of the country's serious industrial situation.

The letter was dictated by President Wilson from his bed. It was written on the theory, Lane said, that there was danger of certain members in the conference withdrawing. Personally Lane said, he didn't believe there was any real danger of this and hoped it wouldn't be necessary to read the President's letter.

President Is Improving

WASHINGTON, Oct. 21 (United Press)—President Wilson didn't sleep so well last night, but his condition was improved this morning, according to a bulletin issued at eleven thirty today. The President insisted on writing letter to Secretary Lane regarding the threatened disruption of the Industrial Conference. His physicians advised against it, but were compelled to yield, both because of Mr. Wilson's wishes and pressure brought to bear by high officials of the Government for him to take action.

SEEKS LIFE FROM DEAD.

Vafonoff Wants Their Glands Saved for Giving Youth to Others.

PARIS, Oct. 21—Dr. Serge Voronoff, who has been conducting experiments for postponing old age by grafting interstitial glands, states in an article in Le Journal today that the internal secretions of glands such as the thyroid and supra-renal continue alive for three hours after the death of the body.

Therefore he advocates that bodies of young and healthy persons killed in accidents should be rushed to special hospitals, where patients are suffering from curable maladies. He says that the glands for grafting could be grouped and put in cold storage where they could be kept indefinitely.

"Unfortunately," writes Dr. Voronoff, "prejudices and awe now prevents this. Our secular customs require that our perishable bodies be consigned to the earth, where they are slowly and uselessly consumed."

LETTER COMES IN 62 YEARS.

Asked Help for a "Boy" Who is Now 76 Years Old.

PARIS, Oct. 21—They are clearing the letter dumps in France, with the result that what is believed to be a record for slow delivery has come to light.

A letter from Meysac to Clermont Ferrand, a distance of less than 100 miles, has taken sixty-two years in delivery. The letter solicited assistance for the son of parents in humble circumstances, a boy who gave great promise at school. The "boy" is now 76 years old.

COMMISSION IS NOT READY FOR EXPO DECISION

JACKSONVILLE AND PENSACOLA WILL BE VISITED BEFORE A DECISION IS REACHED—TALLAHASSEE SCENE OF GREATEST DEMONSTRATION IN ITS HISTORY.

TALLAHASSEE, Oct. 21—(Special)

Tallahassee has returned to its normal peace and quiet today after the greatest activity ever witnessed before on its streets as a result of the visiting delegations from Pensacola and Jacksonville, vying with each other in making a demonstration for the securing of the award for site of the Centennial Purchase Exposition.

There was no hearing before the commission yesterday, a consequently, no decision has yet been reached as to where the exposition will be held. The commission decided, on account of the lack of a full attendance, to postpone a hearing, but to visit both of the cities contesting for the location.

The members of the commission present were Chairman W. B. Brorein, of Tampa; W. A. MacWilliams, of St. Augustine; J. J. Logan, of Jacksonville and J. B. Jones of Pensacola. Mr. Logan was appointed to succeed C. M. Cooper of Jacksonville, resigned, and J. M. Burguières of West Palm Beach, who was appointed to succeed George W. Allen of Key West, resigned, was not present at the meeting. It was on this account that the hearing was postponed.

John S. Beard of Pensacola, brought out the fact that the meeting was adjourned in Jacksonville with the understanding that a full commission would be resented at the Tallahassee meeting, and that unless the commission could be made full by the election of another member, in the place of Burguières, Pensacola would be unwilling to present her claims for the centennial.

It was acknowledged by Chairman Brorein that a telegram had been received from Mr. Burguières, stating his inability to be present and also offering his resignation in case it was found to be necessary to complete the hearing.

Mr. Beard stated that Pensacola had no objection whatever to Mr. Burguières except his absence, and suggested that as middle Florida had no representative on the commission, the matter would easily adjust itself if the commission accept the offer of Mr. Burguières and appointed another member, and pointed out the fact that if the new member appointed from Tallahassee, the hearing could be continued to the satisfaction of all. Mr. Beard was upheld in his statements by R. Pope Reese and J. B. Perkins, also from Pensacola.

Jacksonville Agrees. Jacksonville, represented by Fred M. Vail, T. C. Imeson and Mayor John W. Martin, expressed willingness to proceed with the hearing, and to accept the proposition outlined by Chairman Brorein, that if the arguments were heard at this meeting, no decision would be determined by the commission until each delegation had

REMAINS OF HESSIAN CAMP UNEARTHED IN NEW YORK

Workmen excavating at Broadway and One Hundred and Sixty-ninth street, New York, unearthed what is said to be the flooring and fireplace of a hut of a camp occupied by the Hessians during the Revolutionary war. The photograph shows children searching the excavation for relics.

RESERVATIONS TO TREATY ARE BEING DRAFTED

FOREIGN RELATIONS COMMITTEE PREPARING TEXT OF RESOLUTIONS AS THEY WILL APPEAR IN RESOLUTION OF RATIFICATION, ACTION OF PACT TO MOVE SWIFTLY.

WASHINGTON, Oct. 21 (United Press)—Members of the Senate foreign relations committee today were drafting reservations to the Peace Treaty as they will appear in the resolution of ratification. With the formal reading of the treaty completed action on the pact is expected to move swiftly. The Johnson amendment to equalize the voting powers in the League Nations was before the Senate today, but no action is expected before tomorrow or Thursday, as a number of speeches of the reservations, including one on Shantung. This reservation would declare the United States reserve freedom of action with respect to disputes between Japan and China over Shantung.

APPEALS TO MINERS.

Wilson Asks For Compromise Between Two Factions.

WASHINGTON, Oct. 21—(United Press)—Plea for compromise to avert a coal strike November first was made by Secretary of labor Wilson to the operators and miners who met here today. Mr. Wilson urged the delegates to show a conciliatory spirit, declaring a coal strike would badly hamper the nation. Mr. Wilson said he hoped to bring about a reopening of negotiations between the two factions.

full opportunity to lay all facts and claims before the absent member of the commission, Mr. Burguières.

The matter was discussed pro and con for thirty minutes, when the commission took a recess, returning with the announcement that they had decided to hold a meeting in Pensacola Saturday, October 25, at which time that city would be given an opportunity to be heard and to present its full claims to consideration for the location of the centennial, and that a similar meeting for a similar purpose would be held in Jacksonville in the following Monday, October 27.

Chairman Brorein made this announcement and assured the two delegations that a full commission would be present on both occasions, and the decision would be withheld until after such meetings.

WILSON LEARNS OF CONDITIONS THROUGH WIFE

SENATOR HITCHCOCK ALSO WRITES PRESIDENT A LETTER, PRESENTING OPTIMISTIC VIEW OF PROGRESS ON TREATY—LANSTING TO PRESIDE AT CABINET MEETING.

WASHINGTON, Oct. 21—(United Press)—President Wilson, has been informed of the treaty situation in the Senate through a letter from Senator Hitchcock, it was learned at the Whitehouse today. President Wilson has been told of other matters, such as the threatened miner's strike and the deadlock in the Industrial Conference, by secretary Tumulty. Information is also conveyed to the President directly by Mrs. Wilson and Dr. Grayson it was stated. Senator Hitchcock, in his letter, makes an optimistic report, it was learned. This greatly cheered Mr. Wilson Secretary Lansing will preside at today's cabinet meeting, which will consider principally the impending Miners' strike, which is causing grave concern in administration circles, as well as throughout the country.

RUSSIAN FORCE ENTER CAPITAL BY NOON TODAY

STOCKHOLM, Oct. 21—(United Press)—General Yudenitch, Commander of the Russian anti-Bolshevik forces investing Petrograd told Nelson Morris, American minister to Sweden, he expected to enter the city some time before noon today. Yudenitch made his statement in requesting Morris to ask the United States to aid the starving population of the city.

LATE PERSONALS

Miss Anna Chenault, of Hastings, is the guest of Miss Dorothy Merriam.

Miss Birdie Reed, of Green Cove Springs, arrived this evening and will be the guest of friends for a few days this week.

Mr. and Mrs. Harold Bailey, of San Mateo, were visitors here this morning.

Fred Cochrane left for a short business trip last night.

GERMAN OPERA WILL NOT BE SHOWN IN N. Y.

RIOTING FOLLOWED EFFORTS TO PRESENT IT IN GOTHAM—HYLAN ADVISED STATE OF WAR EXISTS UNTIL PEACE TREATY IS RATIFIED.

NEW YORK, Oct. 21—(United Press)—Backed by an opinion by Corporation Counsel Burr that a state of war exists until the treaty is ratified Mayor Hylan today issued orders to prevent further performances of German opera in New York.

This action on the part of Mayor Hylan followed riotous scenes last night when an effort was made to produce a German opera in a theater on Lexington avenue. Several hundred service men stormed the place and there were many bruised bodies as a result of a charge of mounted police to clear away the disturbers.

HYDROPLANES THRILL PALATKA RESIDENTS

Two giant hydroplanes, traveling from the navy yard at Pensacola to New York were in Palatka this morning, one arriving last night and the other late this morning.

The first machine to arrive was in charge of Ensign B. L. Chase and Hewitt with Mechanics W. D. Mettall and D. C. Schrimsker. Before alighting on the St. Johns river near the club house it circled the city and the roar of its engines drew the populace into the street.

After the big machine had alighted it was tied up at the dock and when the party went to leave this morning water hyacinths had drifted around it so that it was necessary to tow it out.

The second machine, which left Pensacola a short time after the first, the H. 16, arrived this morning and proceeded on its way to New York. Both machines are provided with pontoons and can only land on water. They are provided, also with 800 horse power engines, and attain a speed of about 80 miles an hour.

Mrs. J. P. Wall, of Putnam Hall was a shopper in the city today.

E. E. White, returned home this morning from St. Augustine, where he has been spending several days.

Mrs. M. A. Murphy, of Orange Mills, is in Palatka on business today.

Mrs. Williams and Mrs. Finley were visitors from St. Augustine today.

\$10,000,000 IS BEHIND A SUGAR FIRM IN STATE

UNITED STATES CANE SUGAR CORPORATION HAS BEEN ORGANIZED—WILL HAVE TEN SUGAR MILLS LOCATED WEST OF MIAMI IN EVERGLADES SECTION OF STATE.

NEW YORK, Oct. 21—(Special)—

In the October number of the Farm and Live Stock Record appeared an editorial from advance sheets of Sugar, the leading journal of the sugar industry, which set forth particulars of a projected corporation with \$10,000,000 capital, divided into 100,000 shares to be known as the United States Cane Sugar Corporation. Its object was announced to be to take over the "A. W. Hopkins tract," or the "Chevalier tract," as it is variously known, lying due west of Miami and containing 200,000 acres including enough cane land to support at least ten large mills, which would mean, eventually, a population of nearly 100,000 persons in that section. This tract it was proposed to plant with cane to erect upon it a large sugar mill which should be ready to begin grinding in the winter of 1921-22; besides a railroad and other necessary constructions.

Rapid progress has been made during the past two weeks in the organization of the United States Cane Sugar Corporation.

At the meeting of the directors of the corporation the following were elected for the first year:

President, Theodore R. V. Keller, managing editor of sugar, New York.

Vice president J. F. Jaudon, president of Chevelier Corporation and president of Tamiami railroad, Miami, Fla.

Second vice president and general manager, (not yet appointed) negotiations with two well known sugar men now pending.

Secretary, George F. Cook, secretary and treasurer of Chevelier, Corporation of Miami, Fla.

Treasurer, William F. Bullard, head of the New York Good Government Bureau

Assistant treasurer, Herman Mann, business man of New York city

Directors: The officers and, in addition, Judge D. A. McDougal, of Oklahoma City, Okla., S. R. Ginsburg, and several representatives from banking houses.

Chief engineer, Samuel Rowland Ginsburg, formerly general superintendent of Central Romana, San Domingo.

Plans Extension.

The work of the company, as at present outlined, will comprise the building of a railroad from Miami to and through the Chevelier tract to the West Coast; the construction of a deep water harbor on the West Coast, for future use; the erection of a lumber mill and removal of more than 500 million feet of timber; the erection of a sugar mill capable of grinding more than 2,000 tons of cane per twenty-four hours at the start, and capable of increasing this capacity for subsequent grinding seasons; the immediate grading of 500 acres of cane land and the planting of seed cane; the construction of the town of Chevelier in the Western section of the tract; the completion of the Tamiami Trail through the property, to form a junction with the section already constructed southward from Fort Myers, the installation of a complete drainage system for the entire area of land lying between Miami and the West Coast, south of a line drawn through Cape Romano on the West Coast and Fulford on the East Coast.
