CLEMSON TIGERS

Florida Has No Trouble
In Disposing of Old-
Time Enemy

(By Associated Press)
Jacksonville, Dec. 2.—Florida mixed well the two major football factors—strength and intelligence—in smothering Clemson college, 47 to 14, here today. Florida's game was a repertoire of shifting tactics. From hard line plunging, in which the power of its backfield scattered the Clemson defense, the Gators turned to spectacular aerial passes. In the latter department the Carolinians had their most effective weapon. The shining pair, Torrance and Captain Emanuel, worked in this direction for their two touchdowns.
Pluck characterized the play of the Carolinians and they have been in the pinch of combat. For they were badly handled in the matter of football. It took more than one of the sturdy Clemson blockers to stop the Florida runners. The whistle frequently found "Art" Newton, Florida's star, on his feet with four or five of the Carolinians clinging around him and the others smothered under the Florida poundage. Yet no one of them went out from injury.
Florida's scoring was apparently at will. Running the ball almost the length of the field with a forward pass here and there, seemed to be all in the day's work for them.
Newton and Pomeroy provided the thrills from the Florida side, while Barchan, always good, entered the class of stars today.

**Library Has Gift
Two Choice Books
From Switzerland**

Of the gifts received by the library during the past month two have a rather interesting history. These little volumes, "The Love Saint" and "European Backgrounds," by Clare Benedict, were sent to the library from Switzerland, where the donors, Miss Benedict and her mother, are making their home. Mrs. Benedict is the sister of Constance Fenimore Woolson and a grandniece of James Fenimore Cooper. Miss Woolson, it will be remembered, wrote many stories about Florida, and her sister expresses a great affection for this state. Only a few weeks ago "Horace Chase," a novel by Miss Woolson, was given to the library by a patron, special interest attaching to this book because of the mention several times of the name "Palatka." Miss Benedict's stories, however, do not have a connection with the works of famous relatives to make them popular with those readers who like unusual short stories.

**PUBLIC LIBRARY IS
GAINING POPULARITY**

During November there were 1,337 visitors to the library; 1,543 books and 265 magazines were circulated. In November, 1921, there were 1,285 visitors; 1,267 books and 154 magazines were circulated.
These figures prove there is a genuine appreciation of the institution. The pleasing extension of the business transacted in the book and magazine departments indicates a greater love for literature, while the added number of callers redounds to the universal courtesy of the librarian in charge.

WEEK OF PRAYER

A week of intercessory prayer has been called by some of the leading ministers of the Florida Methodist conference, and the date has been arranged as commencing Sunday, December 3, and closing on the following Sunday evening. The intercessions are for a gracious revival at the approaching session in Tampa and throughout the state.

**MEMORIAL SERVICE
BY B. P. O. E. FOR
SILENT BROTHERS**

Local Elks Pay Tribute
According to Annual
Custom

Lodge No. 1232, Benevolent and Protective Order of Elks, will today commemorate the annual memorial to the departed brothers of the fraternity, in a ceremony most impressive, as is the custom over the entire world where the twelve hundred lodges are scattered.

The ceremonial observance will take place at the Elks club promptly at 1:30 o'clock this afternoon, and the public is invited to be in attendance. Each year the list of the missing brothers is extended—and each year the roll call is answered by a lesser number; and although the lodges flourish and thrive the names of the older members are never allowed to be forgotten.

The ceremony will be in charge of Exalted Ruler Frank J. Fearnside, Jr.

IN COUNTY COURT

Mary Thompkins, colored, was before the court on Friday, having been arrested by the sheriff's office on the charge of having hooch in her possession. It was not Mary's first appearance before the bar of justice, and she was given a fine of \$25 and costs, with an alternative of six months in jail. Mary selected the six months—desiring to recuperate from a very strenuous life.

**HARDEE OFFERS REWARD FOR
SLAYER OF POLICE CHIEF**

(By Associated Press)
Tallahassee, Dec. 2.—Governor Hardee today authorized in behalf of the state a reward of \$200 for the arrest and conviction of the party or parties who Wednesday night assassinated Chief of Police H. A. Revels, of Lake City.

**CHRISTMAS STAMP
SALE COMMENCED
OVER ALL AMERICA**

Proceeds Aid Tubercular
Patients Through the
State Bodies

The sale of the Christmas stamps issued by the National Tuberculosis association is now under way, the quota for Florida sales having been set at fifty thousand dollars. Every district has been organized, and each city has its head-to-look after the sales and see that various dealers are provided with this means of securing a large sum of money for a great cause with but little effort.

At the head of the sales in Palatka and in charge of Putnam county is Miss Mary Mulholland, who is placing these stamps with various merchants about the city and county. It is her desire to see that Putnam county shall not fall behind in the great issue, which aids so much in the amelioration of the dread disease.

The death rate from tuberculosis in the United States registration area has been cut from over 200 per 100,000 in 1900 to about 100 per 100,000 in 1921. Since 1904, the year in which an educational campaign to prevent and stamp out this disease was started by the National Tuberculosis association, the death rate has been cut in half. Had the 1904 death rate prevailed America would have lost 80,000 more persons in 1921.

In 1915, prior to organization, the annual death rate from tuberculosis in Florida, according to the reports of the state board of health, was 153 per 100,000. In 1921 the death rate had been reduced to 95 per 100,000. When it is considered that there were no sanatoria during this period to assist in reducing this death toll, it must inevitably be concluded the program of education and disease prevention is paying great dividends. If education can so rapidly show its effect on a generation of adults, what cannot be expected of the next generation who are children of the modern health crusade of today?

**SEEKING REMOVAL
OF ATTORNEY WHO
WAS UNCONCERNED**

Tulsa County Prosecutor
Reported Careless in
Speech

(By Associated Press)
Tulsa, Okla., Dec. 2.—Clifford W. King, assistant state attorney general, on behalf of the state, late today filed a petition in district court seeking the removal from office of W. F. Seaver, county attorney of Tulsa county.

King's petition accuses Seaver of official misconduct and neglect and refusal to enforce the prohibition and other criminal statutes of the state. Particularly, did the petition cite the statement credited to Seaver to the effect that "so far as I am concerned liquor can flow down the streets of the city of Tulsa," and during the remainder of his term of office he would not attempt to enforce such laws.

**Senator Couzens
Receives Praise
From Henry Ford**

(By Associated Press)
Detroit, Dec. 2.—Mayor James Couzens, of Detroit, who next week will take the seat in the United States senate relinquished by Truman H. Newberry, is "the best man who could have been picked for the job," in the opinion of Henry Ford, former employer of Mr. Couzens. The seat to be taken by the Detroit mayor is the one sought four years ago by Mr. Ford, who was defeated at the polls by Mr. Newberry.
"Couzens is just the type of man needed in the senate, not only by Michigan, but by the whole country," the auto manufacturer said in a statement tonight.
