The Machine in question is simple, compact, durable and beautiful. It is quiet, light running and capable of performing a range and variety of work never before attempted upon a single Machine—using either Silk, Fwist, Linen or totaten Thread, and sewing with equal facility the very finest and coursest materials, and any thing between the two extremes, in the most beautiful and substantial manner. New designs of the unique, useful and popular folding tops and cabinet cases peculiar to the Machines manufactured by this Company have been prepared for enclosing the new Machines. These are gotten up in every variety of wood, such as Black Wahnut, Mahogany, Rosewood, and the like, and from the plainest to the most claborate pattern and finish—the Machines henselves being more of less highly ormanented, to correspond with the Tables or Cabinets for which they are intended.

A few reasons why SINGER'S latest improved SEWING MACHINES are the best for Family and General Purposes.
