

The Waynesburg Republican. WAYNESBURG, PENNA. Wednesday, Dec. 18, '67.

We published our outside the result of the municipal election in Pittsburgh, held a week ago last Tuesday. Various comments have been elicited by the election of Blackmore, who is a well, that's more than we know—a Democrat at times.

1st. Because it is the only privilege the poor people have to reap any benefit. Instead of a benefit to the poor it is an annoyance. The rich use it most, to disfigure the ground for brick-making purposes, or making it a stock field, place what property the poor have at the mercy of their swine, cattle, etc.

2d. I object to using poor men's privileges to pay rich men's debts. They own more land now than they will improve. According to the apportionment of taxes in our borough it is patent to every tax-payer that approximately the poor man pays the most.

3rd. If the town don't suit them they can buy a piece of land and build a town to suit their own fancy. This means that the community would get along much better without the rich men, which we very much doubt.

4th. The testator was an honest man and intended the commons to benefit the poor instead of the rich 20 per cent. of the present age. Mr. Slater may have been an honest man, but he certainly was imbued with a generous spirit, but how he could determine which would be benefited most, the rich or the poor, by leaving these grounds open, is a mystery to us.

And the Washington Advocate, the Labor Reform organ, declares "the assertion that the result of our municipal election last Tuesday was a Democratic victory," is a willful and flagrant falsehood! If the successful candidates for Mayor and Treasurer had run as "Democratic" candidates, they would have been defeated by an overwhelming majority!

To all of which the Post replies by assuring them that neither party weighed in against the Democratic ballot. The question then, was it a Democratic, Labor Reform, or Johnsonian victory? Or a success of the people over political "rings"?

The National Republican Executive Committee met at Washington on the 11th inst., and fixed the time of Wednesday, May 20, 1868, place Chicago, for the holding of the Convention for the purpose of nominating candidates for the offices of President and Vice President of the United States.

Reston was playing to slim audiences at Pittsburgh, last week. SEWARD has been negotiating for the Island of Cuba at \$150,000,000 in gold! Congress will clap a stopper on it.

THE PRESIDENT will veto the law granting negroes equal rights in the District of Columbia, to-day. A. M. GIBSON, Esq., has associated himself with F. S. Rook, Esq., in the management of the Uniontown Genies of Liberty.

MR. LAWRENCE'S vote was against the measure of stopping contraction which will, of course, meet the views of some of his constituents, others not. THE recent heavy snow storms seem to have extended over a wide reach of country, impeding travel by rail and water, and putting a general quietus on business.

THE Convention of Manufacturers, to be held at Cleveland on the 18th inst., promises to be one of the largest and most important meetings of the kind ever held in this country. RECENT rises in the rivers have not been sufficient to allow the coal boats to run out, and as a consequence, coal is still quoted at fabulous prices at Cincinnati and below.

THE General Conference on the Roman question has been abandoned, the leading European Governments having finally declined to take part in it. On the 13th inst., the Senate passed a bill securing to the families of deceased soldiers the bounties to which the soldiers if living would be entitled.

A BATTLE of some magnitude was fought recently in South America between Paraguayans and Brazilians. The latter were defeated with the loss of 5,500 in killed, wounded and prisoners. Quite a tempest in a teapot. They have earthquakes at St. Thomas at the rate of 47 in 24 hours; or about one every 30 minutes; and in St. John, recently, they had 114 in 8 days. For these desirable residences we believe Mr. Seward wants us to pay \$7,500,000 in gold.

THE Republicans of Armstrong and Juniata counties, Pa., in convention assembled declared their preference for Grant for President and Andrew G. Curtin, for Vice-President. So it goes. ALLEGHENY CITY has a skating rink. It differs from a park in being covered. The building covers a space of two hundred by one hundred and ten feet, with a skating surface of seventeen thousand square feet.

A WESTERN paper says a party of adventurers in Montana, not long since, stumbled upon an Indian catamount and abstracted therefrom treasure to the amount of \$100,000 in gold ornaments. This will not prevent search for ore. THE first line west, on the P. C. R. R., was thrown from the track near Harrisburg, on Saturday last. The mail car was fired and a large amount of postal matter burned. But a few slight injuries were sustained by passengers.

A MAN named Owen McGovern was murdered at Pittsburgh, some nights ago, by James Monteth. McGovern had been drinking hard, and struck Monteth several times. Monteth then stabbed McGovern in the neck, killing him almost instantly. Monteth did not attempt to escape.

SEVEN days more will bring the famed Christmas day, the era of egg-nogg, plum pudding and good cheer. THE ESCAPE OF TOM WHITTAKER. He visits Pittsburgh to Hunt Up \$5,000 Bail—William Arnold Refuses to Join Him in Jail Breaking—How it Occurs.

We have to announce the escape from the Washington county jail of Thomas Whittaker charged with robbing Miss Nancy Sproull at the time her brother, David Sproull, was murdered, in Cecil township, and Benjamin F. Clawson, who was tried last week for stealing cows, but about whose case the jury failed to agree. The Washington Reporter says: They were occupying separate cells in the female department, and Whittaker, by means of a saw which he somehow got possession of, succeeded in cutting off one of the iron bars constituting part of his cell, and having got out, by aid of one slat of his bedstead—a stout piece of oak—broke the lock of the door of the cell in which Clawson was confined and let him out also. From the area outside of the cells they gained easy access to the skylight, by means of the scaffolding used for plastering, which had not yet been taken down. Knocking out one of the lights of glass they got out upon the roof, whence they made their descent to the ground by a ladder which had been left standing outside.

The following is a verbatim copy of a note addressed by Whittaker to his Honor, the President Judge, and left in his cell. DEAR SIR—I have gone to Pittsburgh to hunt up six thousand bail; if I do not find it I will be back in time for next court. Respectfully yours, THOMAS WHITTAKER.

There was also picked up in the same cell the following note addressed to Whittaker by Arnold, who had evidently been solicited by the former to make his escape at the same time: DECEMBER 3. No, Tom, I will not go. I know it is as easy as you say it is. I can get out here anytime I want to in two hours. If you are going to go, I don't want you to break my lock off, for by I won't go, and there is no use asking me any more. If I was afraid of a trial I would go, but I am innocent, and I will be discharged honorably when I am tried. I would advise you to stay, for the people will think that you are guilty if you go. Of course if I am awaked at the time you leave, I will not interfere with your operations. I am not a man of that kind; I will pimp for no man.

As already stated, it is evident that this was written to Whittaker in response to his solicitations that Arnold should join him in his escape. Since the above we learn that Whittaker was re-captured in Pittsburgh and returned to his old quarters. EIGHTFUL RAILROAD ACCIDENT. A Train Backed into a Trestle—Fifteen Men Instantly Killed.

MONTEPELIER, December 11.—One of the most fearful accidents known in the annals of Vermont transpired to-day at Harlow Bridge, near Northfield, on the Vermont Central Railroad. The bridge was burned Sunday morning, and during the week about one hundred men were engaged in rearing trestle work for temporary use. Most of the employes having dined to-day at Northfield, were returning to work, about one and a half miles from that town, in a passenger car, which was being backed up to the works. By some inconceivable forgetfulness, the engineer proceeded with them at a rapid rate, and did not check his speed until too late, and the whole car, with its freight of from seventy to one hundred men, was backed off the abutment into the river below, a distance of sixty feet, the tender to the engine following. Fifteen men were killed instantly, three or four have since died, and more than a many others injured, many seriously, some it is feared fatally.

FALL RIVER MASS., December 15.—The American Print Works at Fall River, was destroyed by fire this morning, with all the printing machines and a large stock of calicos. Five hundred hands are thrown out of employment. The loss will amount to a million and a half of dollars. It was the finest structure of the kind in the country. Its loss will probably occasion the stoppage of many cotton mills, and is a great blow to the industry of Fall River. Insurance not ascertained.

THE President's communication giving his reasons for Secretary Stanton's removal has been sent to the Government printing office. Mr. Stanton's friends are fearful of the result, and are willing to promise that he will immediately resign if the Senate will reinstate him. As matters stand the Senate cannot reinstate Mr. Stanton without making an issue with General Grant, as the former says the latter took the place against his (Stanton's) wish.

CONGRESS will adjourn on the 20th of December to the 8th of January, in order to give members a chance to go home for the holidays. SCOTT WEAVER, aged nineteen years, of Huston township, Blair county Pa., a few days ago husked one hundred and four bushels of corn in one day.

TRIBUTE OF RESPECT. WAYNESBURG, Pa., Dec. 12, 1867. To the Officers and Members of Hoshikins Lodge, No. 52, L. O. of G. of this town and brethren. The undersigned, a committee appointed to draft resolutions expressive of the feelings of this Lodge on the death of our esteemed brother, HAY JONES, make the following report:

Resolved, That in this dispensation of an All-wise Providence, we recognize another lesson of wisdom, teaching us of the mortality of things here below. Resolved, That we deeply sympathize with the sorrow and grief of the bereaved family, and we extend the tear of grief with them in this their great affliction. Resolved, That a copy of the foregoing preamble and resolutions be read by the officers, and be tested by the Seal of the Lodge, be presented to the brethren, and when read, be received and approved by the brethren, and that the same be placed in the Lodge room to be read on the usual badge for the space of thirty days.

Resolved, That in accordance with the ancient usages and customs of our beloved Order, and in respect to the memory of our deceased brother and brother, the members of the Order in the Lodge room be clothed in mourning, and that the brethren wear the usual badge for the space of thirty days. All of which are respectfully submitted in F. L. G. T. H. K. ASHBRELL, Com. THOS. L. PORTER, Sec. W. H. HAYS.

New Advertisements. THE TRIBUNE FOR 1868. PROSPECTUS. The year 1868 will long be remembered for its settlement of the boundary question between the States of Ohio and Indiana. The War of the Rebellion being closed, we have now to decide whether the fundamental idea which impelled and justified the Revolution should dominate over our whole country, molding her institutions and shaping her destiny. It is true that God has not created all men, but only all White men, in His own image, and made them equal in political and civil rights, that in a world-wide calamity that Grand old Republic, because they are a Black, should be excluded from the jury-box and expelled from the ballot-box. There is an old saying that "the white man is the head of the American nation, and the Black man is the tail." The Black man is the tail of the American nation, and the White man is the head. DR. WHITTLESY. DR. F. WHITTLESY, Physician for Chronic Diseases, has a permanent office in Washington, Pennsylvania, where he has been engaged for nearly twelve years in the successful treatment of all DISEASES OF A CHRONIC NATURE. The Doctor might present a volume of certificates, complimentary notices, &c., but we need not satisfy our readers with the public in a trial of his skill. Dr. W. devotes exclusive attention to Chronic Affections, and his practice has been uniformly successful, effecting cures in many cases that have baffled all other systems of treatment.

DR. WHITTLESY. Paralysis, Rheumatism, Bronchitis, Catarrh, Leucorrhoea, Diseases of the Spine, Stomach, Heart, Liver, Bowels, Kidneys, Lungs, Female Diseases, General Debility, &c. &c. Are all promptly and permanently cured by the Doctor's system of treatment. During the past few years, the Doctor has registered hundreds of cures to which he will be pleased to give the references who may call upon him. He invites all afflicted with any form of Chronic disease and having failed to obtain relief, to try his medicines.

GIVE HIS MEDICINES A TRIAL. His principal agents are selected entirely from the Vegetable Kingdom, and there are so combined as to equalize the vital forces of the body and thereby restore to perfect health. The Doctor has been especially successful in the treatment of all FEMALE DISEASES. Women by the score fall victims to malpractices peculiar to their sex, many of whom might be saved from lives of wretchedness and premature graves by applying in time to Dr. W. The remedies employed in the practice of Dr. W. are manufactured exclusively by him from his own Medical Laboratory and are always pure in quality and specific in effect. Dr. W. diagnoses disease by means of the Urine, the only infallible test of disease, never failing to discover its nature, locality and curability, thus enabling him to employ a RATIONAL, SCIENTIFIC AND CURATIVE TREATMENT.

OF THE ABSOLUTE CERTAINTY of his mode of diagnosis, from the urine alone he will tell accurately all that can be known of any disease. In the examination of this secretion, he employs optical, chemical and microscopic tests, no case being presented in which one of these tests is deficient in its accuracy. The Doctor does not claim to be a "cure-all," nor yet the right arm of the Almighty stretched forth to save the world from scientific dissolution, but he does profess from scientific acquirements, YEARS OF EXPERIENCE, devoted exclusively to the treatment of chronic diseases, with his infallible tests of disease, to be able to see and permanently cure all those cases which are not already beyond the reach of remedies.
