GOVERNMENT GOSSIP.

OFFICIAL AND UNOFFICIAL IN AND ABOUT THE DEPARTMENTS.

Appointments to-day—Miss Cleveland's Deputy for New York Judge Durham Defers His Decision—Mr. Vilas Wants Advice—General and Personal Mention.

The President made the following appointments to-day: WILLIAM T. CARRINGTON, as collector of customs for the district of Teche, Louisiana.

Postmasters: James H. Dobbins, at Bellfonte, Centre County, Pa.; W. A. Lewis, at Exart, Osceola County, Mich.; E. Brown, at Gulfport, Harrison County, Ala.; T. W. Ivory, at Glenwood, Mills County, Iowa; Henry C. Stark, at Hyde Park, Norfolk County, Mass.; George F. Kimball, at Vergennes, Addison County, Vermont; Augustus Owen, at Canton, Bradford County, Pa.; G. A. Wilder, at Greenville, Pickaway County, Ohio; Lyman W. Redding, at Rutland, Rutland County, Vermont.

Patent Office Librarian. The Commissioner of Patents has appointed L. D. Sale of Michigan to be librarian of the Patent Office, vice Mr. Weston Flint, who has been reduced to 2000 clerk. The salary of librarian is \$2,000.

Mr. Vilas Wants Advice. A form of a letter has been prepared by the Postmaster-General, which is being sent to all Democratic Congressmen, inviting them to recommend persons for postoffices, and notifying them of the expiration of the present incumbents' term. The Congressmen are asked to advise the Postmaster-General in the best manner of filling the vacancies.

No Decision by Judge Durham. Comptroller Durham will not act upon the District Commissioner's requisition for \$300,000 until after General Grant's successor has been appointed. When that occurs in the personnel of the board of Commissioners, all moneys in their custody have to be covered into the Treasury and new books opened. For this reason he proposes to delay action until the board reorganizes.

Medals For Heroism. The President has presented gold watches to Captain John and Mate Leary of the British ship Broadford for rescuing the crew of the American schooner Mary E. Long; gold medals to Captain Comfort Clements and Mr. Edward Wynman for rescuing the crew of the American schooner Sarah Louise, and a gold medal to Aime Anstaps, chief of the Desquaint tribe of Indians, for services to the wrecked American ship Malleville.

Court-Martial Sentences Reversed. In the cases of Paymaster Edward Bellows and Passed Midshipman James E. Cann and Beah Frazer, who were court-martialed on the Pacific fleet by order of Rear-Admiral Uphur, and given severe sentences of death, the Secretary of the Navy has decided to remit the sentences imposed, although he states his disapproval of the course of the courts in some respects. In these cases, Admiral Uphur ordered purchases to be made from specified firms, when supplies could be purchased at lower prices from others, and that the contracts were made at prices which were charged against Admiral Uphur at the Treasury Department.

The Unemployed Cruisers. By the term of the contracts signed July 23 and 24, 1883, by Mr. John Roach and Wm. E. Chandler, the Secretary of the Navy, the three steel cruisers, the Chicago, Boston, and Atlanta were to have been completed in eighteen months from the date of the contracts. The time thus allowed for completing the vessels expired on the 23d and 24th of last January, nearly five months ago, and the cruisers have not been finished in Mr. Roach's yard at Chester. It is thought, however, that Mr. Roach may not be entirely to blame for this delay, and it is suggested that the Secretary of the Navy, before taking official action in the matter, will institute an investigation with the view of learning just how far Mr. Roach is to be held responsible and how far he has been legitimately delayed by the Navy Department, and that upon the result of this investigation the Secretary's action will depend.

Minor and Personal. Rev. G. W. Bryant of Nashville will probably decline the Librarian mission. Henry B. Ryder, consul at Copenhagen, will be retained under the present Administration. Joseph O. Hawley, a clerk of class three in the Postoffice Department, has resigned on account of ill-health.

Louis E. Bedell, a postal clerk of Station E, New York city, has been arrested by postoffice inspectors for stealing ordinary letters.

O. D. Hallan of Kentucky has been appointed law clerk in the First Comptroller's office through civil-service examination.

The Postmaster-General has appointed William P. Wall postmaster at Meherin, Lunenburg County, Va., vice Mrs. W. O. Price, removed.

Arthur B. Wood, formerly chief of the Consular Bureau, Department of State, has been transferred from Belfast, Ireland, to Dundee, Scotland.

The Secretary of the Interior to-day received further complaints from cattlemen in Kansas that the cattle trails were still closed and asking for relief.

Secretary Whitney left for New York this afternoon. He will accompany the Fortification Board on their tour to the torpedo stations and principal harbors.

The Canadian authorities have signified their willingness to hold the British defaulting Idaho postmaster, until the extradition papers arrive, which will be in a few days.

Ex-Postkeeper of the House of Representatives Charles W. Field has been appointed superintendent of the Hot Springs of Arkansas at a salary of \$2,500 by Secretary Lamar.

Mr. George Green, formerly a Navy Department clerk, and said to have been the first person removed for "offensive puritanism," was killed by lightning at Niagara yesterday.

Assistant Secretary Fairchild heard arguments to-day as to whether ornamental tiles should be classified as earthenware at a duty of 60 per cent, or as paving tiles at 20 per cent.

The Secretary of the Navy has placed the Dispatch at the disposal of the Fortifications Board to visit the various harbors and coast defenses. They will be visited by Hook, Willitt's Point and Newport.

Professor Kimball, the new Director of the Mint, has planned a reorganization of the mints and assay offices with a view to the reduction of force and improvement of the service, and will make a personal tour of inspection.

Secretary Whitney has received a letter from John Roach, stating that he desires a full interchange of views with the Secretary concerning the present status of the Dolphin case, and that he will be in Washington in a day or two for that purpose.

Ten sets of plans and specifications for the new cruisers have been submitted to Secretary Whitney. The Union Iron Works of San Francisco, Admiral Porter Naval Constructors Mintony and Hickborn, and the Naval Bureau of Construction, have submitted plans, Secretary

Whitney will appoint a board to pass upon the designs.

Congressman Randall returned from New York to Philadelphia Wednesday night and the Democrats are expecting that something will be done with regard to the next three days in regard to changes in the Collector of the Port, Surveyor, Naval Officer and Marshal.

Mr. J. Ambler Smith of this city has been suspended from practice before the War Department, pending an inquiry into the meaning of the words "Desertion mark quickly removed," which he alleged this firm sent out on their business cards.

Maurice F. Holahan, who has been appointed chief of division in the office of the Commissioner of Customs, has represented the Twelfth Assembly District several times in the New York Assembly, and for years the Tammany politician of that district. By profession Mr. Holahan is a journalist.

An effort is on foot to secure the removal of James Logan, a younger brother of the Senator, from his position as postmaster at Murrefsboro, Ill., on a charge that he exhibited campaign portraits of Blaine and Logan in the postoffice, Major General Secretary of the National Political Campaign Committee of the State, is an applicant for the position.

A branch of investigation relating to certain ornithological specimens collected by Commissioner Colman as a part of Professor Riley's division, and has designated Dr. G. H. Meriam, a well-known ornithologist, secretary of the American Ornithologists' Union, a special agent to take charge of this part of the work. Professor Meriam will make Washington his headquarters after October 12.

DISCUSSING DISTRICT MATTERS.

The President has a Long Interview With Colonel Berret.

Although the President was supposed to be inaccessible to callers to-day, Colonel James G. Berret was an early morning visitor and had a long interview. At its conclusion he said the President had discussed matters under consideration, but that he would not be able to make any statement as to their conversation.

It is reported that the President told Colonel Berret this morning that he would accept the nomination of the Republican for the District of Columbia promptly to-morrow. It is generally believed that Mr. Henry A. Willard is the man.

The President has presented gold watches to Captain John and Mate Leary of the British ship Broadford for rescuing the crew of the American schooner Mary E. Long; gold medals to Captain Comfort Clements and Mr. Edward Wynman for rescuing the crew of the American schooner Sarah Louise, and a gold medal to Aime Anstaps, chief of the Desquaint tribe of Indians, for services to the wrecked American ship Malleville.

What is the news about a new District Commissioner? asked a Currier reporter of the President to-day. "I hear only the rumors in the air," replied the chief, "but I will give you my idea of the kind of person I would like to see appointed to the office." "The Currier would be glad to have your views," replied the reporter.

Well, Frank B. Conner, our very excellent postmaster, has been appointed District Commissioner. He is old enough in experience to fully comprehend its duties, and young enough in years to energetically discharge them in the most judicious manner—and that is the sort of man we want," remarked the citizen with emphasis. "And so he is recorded."

The Currier was then asked if he had any other suggestions. He replied that a number of prominent citizens to reappoint General West as District Commissioner. At the White House it is not supposed that the Currier has made any personal effort in this direction.

"NO IDLERS WANTED."

How the President Disposed of One Application for Office.

The Herald's Washington correspondent says that a Senator and three representatives have been urging the President to appoint a friend of theirs to office. Finally the President told them that he had about concluded to do so, and asked where he should address the gentleman in case he wanted to see him.

"I will be here," he replied, "he is here. He has been here since the 4th of March. You can see him at once."

"Gentlemen," said the President, "that settles your matter for me. If he has any business at home he must have neglected it, and a man who will neglect his own business will neglect the Government's. If he is not here, that is worse. He doesn't want idlers in the public service."

MR. STEVENSON'S POLICY.

Postmaster-General Stevenson said this morning that the statement published "that he intended to make a tour of the States" is not true, and was never uttered by him.

"We are very busy here," he said, "in filling vacancies, and have removed some persons from office in all cases. I am in sympathy with the policy of the President and Postmaster-General, and I will conform to it."

Mrs. Lizzie Fenobin was found dead in bed at Mrs. Baird's boarding house, No. 715 Twelfth street, this morning. She died suddenly during the night. A package of presents was found in her room when the police were called. Her husband, who lives at 1200 G street, was taken care of. The coroner has been notified.

OUR SUMMER OPERA.

The Leading Attraction of the "Can't-Get-Away Club."

The summer opera, though it has been a decided success, and has afforded pleasant entertainment for hosts of our citizens and visitors. The house has been well patronized since the summer season set in, and the character of the light operas given have met with the approval of the three-going public. The audiences include many of the winter opera-goers, and are composed of as

THE DUDE ROW AT ALBANY'S.

Intelligent and well-dressed patrons as can be found in our theatres during the height of the winter season. It affords a pleasant attraction for our stay-at-home during the warm weather, and as a social gathering of an evening, friends and acquaintances avail themselves of the occasion for pleasant intercourse and chat about the follies and gossip of the day. The Washington dudes are well represented every evening by numerous specimens of spider-leg, elongated, degenerate anatomy, adorned in fresh store clothes, with a cane and occasional eye-glass, their pimply-headed craniums nearly submerged by high-standing collars. Their cheek is spotted, their attire, and they make themselves conspicuous to the public gaze at every opportunity. Our artist presents a row of them which he sketched on the night of the 15th inst. It is true to nature.

THE VIRGINIA REPUBLICANS.

John S. Wise Receives the Nomination For Governor.

Richmond, July 16.—It was nearly 3:30 o'clock this morning before the Republican State Convention concluded its labors. Shortly after midnight resolutions of sympathy with General Grant in his affliction were unanimously adopted and ordered to be telegraphed to him.

The nomination of candidates was then proceeded with, and occurred at midnight and a half. The roll of counties was called at 2 o'clock, and at its conclusion, 2:45 a. m., Mr. John S. Wise had received over 450 votes. Before the result was announced the name of General Blair was withdrawn, and at the latter's request, the nomination of Mr. Wise was made unanimous and immediate enthusiasm.

Mr. Wise was immediately brought to the front and briefly acknowledged the honor bestowed upon him. He looked upon the position for which he had been named as one of solemn duty as well as one of great responsibility, and he with his wife were going into the fight to win. H. C. Wood of Scott was nominated for lieutenant-governor, and General F. W. Blair for Attorney-General.

THE MORMONS DEFIANT.

The Federal Soldiers Preparing for an Outbreak on the 24th.

OMAHA, Neb., July 16.—General Howard, who has just returned from Salt Lake City, where he spent the fourth of July, says that there is great bad feeling there between the Gentiles and Mormons over the insult offered to the American flag by the latter on the Fourth. Serious trouble is anticipated on the 24th, which is a great day among the Mormons.

The troops that were to leave Forts Douglas and Hays on the 24th, the Cheyennes have been retained at their posts. Should the Mormons attempt to put the flag at half mast as was done on the Fourth, there will undoubtedly be fighting, as the soldiers are very indignant. The bitterness of feeling is much greater than the public is aware of as the half of the troops are now on the march, and in anticipation of an outbreak occurring at any day the War Department has made preparations for it.

The Mormons in Salt Lake are all armed. On the Fourth of July they gave evidences of this by freely flourishing revolvers in the faces of Gentiles and defying and insulting them. Backed by the many thousands who will be in Salt Lake on anniversary day, they do not doubt will be inclined to be more defiant and insulting than before, and will invite and challenge a conflict.

Amateur Journalists in Session.

Boston, July 16.—This morning the Amateur Press Association elected the remainder of the officers as follows: Recording secretary, Miss Grace Smith of Boston; corresponding secretary, J. H. J. Munroe of New Glasgow, N. S.; official editor, B. F. Emery of Newburgh, N. Y.; executive judges, H. E. Legler of Milwaukee, a member of Harvard, and F. C. Wicks of Worcester, Mass.

Great interest was manifested in the session of the seat of the new secretary, and after a heated discussion the Secretary was instructed to cast the ballot of the association for San Francisco, Cal.

A Good Word for Kelley.

New York, July 16.—Archbishop Gibbons of Baltimore in a letter to J. D. Kelley, brother of the Minister to Austria, says: "I have no official organ, and do not hold myself responsible for editorials which have appeared reflecting on your brother. I have always esteemed him. During my residence in Richmond he was always prominently identified with the cause of charity and religion, and I cherish his memory now since he has endured so much for conscience and principle's sake."

General Grant's Condition.

Mr. McGrew, N. Y., July 16.—General Grant was much annoyed last evening by an elderly man, who persisted in holding him while he sat on the piazza and talking to him. The General had to excuse himself. He was wakened last night until about 12 o'clock, but after that he slept very well. His pulse, when Dr. Shibly made his early visit, was 72, and of good volume. Obtrusion like that of last evening, in which the offender is that of a military clerk from New York, is what is most feared.

The English Scauds Equalled.

Pittsfield, Mass., July 16.—In the station-house here this morning a 12-year-old girl, who had been found sleeping on a bench in the park, was put on trial. She had been in the city for some time, and had been identified by a house of ill-repute, and compelled her when only 8 years old to submit to improper advances. The entire family, she said, were well of similar conduct, even to her 5-year-old sister. The girl's story created great excitement, and investigation has proved it to be true.

ALFONSO'S CROWN.

THE SPANISH THRONE IN DANGER OF BEING OVERTHROWN.

Discovery of a Widespread Conspiracy to Establish a Republic.—The Leader Sentenced to the Shot-English Emigrants to the Congo—General Foreign News.

MADRID, July 16.—A widespread conspiracy, in which the ex-insurgents recently expelled from Badajoz figure as the leaders, has been unearthed by the police. Its ramifications extend throughout the northeastern provinces of Aragon and Catalonia. The insurgents established headquarters near the city of Manresa, from whence manifestoes of a revolutionary character were issued, and through agents in various villages and towns of the north of Spain, a large force was formed, sworn to
