GOVERNMENT GOSSIP.

An Immense Crowd of Visitors at the White House.

TO-DAY'S APPOINTMENTS.

A District Democrat Seizes a Brazilian Consularship.

NAVY-YARD ACCOUNTS.

The Civil Service Commission--Mr. Coon and His Successor--General and Personal.

The President to-day appointed:

Edmund B. Briggs of the District of Columbia, to be United States Consul at Santos, Brazil.

John Dinkins of Mississippi, to be Marshal of the Southern District of Mississippi.

The Consul to Santos--Mr. Edmund B. Briggs, who was to-day appointed Consul at Santos, Brazil, is a lawyer here, having his office in the White House building. He was born in New York in 1855, and was educated at Seton Hall College, N. J. He resided with his mother here in New York, and returned for a permanent residence two years ago.

Mr. Coon and His Successor--Assistant Secretary Coon has returned from New York. His resignation takes effect when his successor is appointed, but he has no idea who his successor will be. The rumor is that Mr. Coon will be succeeded by Mr. C. W. Smith, who is now in the city.

The Duty on Java Sacks--Assistant Secretary Fairchild has decided to issue an order restoring the old rebate of 90 per cent. of the duty on Java sacks, which is now 100 per cent. The order is taken in the light of an argument recently made before the Treasury Department by the Millers' Association, which is a body of millers after return 50 per cent. of the duty on Java sacks.

Crow's at the White House--The order issued yesterday stating that the President will receive no office-seeking visitors during the month of November has already had a pronounced effect. The news and waiting rooms of the Executive Mansion have never been more densely crowded than they were to-day. The office-seekers in the city are evidently upon the verge of the last stages of an interview.

Fourth Class Postmasters--Among about a hundred fourth class postmasters appointed to-day were the following: Maryland--S. C. Crown, Hancock, Washington County; Luther Peterson, Clear Spring, Washington County; F. H. Graham, New Germany, Garrett County; R. H. Hill, Carroll County; J. A. Bunting, Frederick County; William Hoff, Mount Winans, Baltimore County; William Fulton, Annapolis, District of Columbia; Virginia--V. Snow, Leesville, Campbell County.

The Vandalla--The Vandalla, which has been under repair for some time at the Portsmouth (N. H.) Navy-Yard, has been discovered to have very leaky boilers, and as soon as possible the vessel will go to Norfolk to have them patched up. The vessel is nearly ready to leave for Norfolk to put in new boilers, but by patching with the overhauling and general repairs now being made, it is thought she will be ready to start on her cruise before going to "rotten row."

Navy-Yard Accounts--By Inspector John H. Stevenson, who has for a number of months been engaged in examining the condition of the accounts at the various navy-yards and stations on the Atlantic coast, it has been ascertained that the accounts at the Norfolk Navy-Yard are in a very satisfactory condition, which is nearly ready to be reported to the Secretary of the Navy.

Timber-Cutting on Land Grants--The Secretary of the Interior has given another turn to the Northern Pacific timber grant. In addition to the recent decision prohibiting this company or any one else from cutting timber for commercial purposes from unsurveyed Government land, it is now proposed to keep the road from cutting from its granted timber lands until the grant is settled. An order will be issued at once, forbidding the company to cut timber on its lands, except when there is a clear necessity for road-building purposes, until patents have been issued for the lands in question.

Prominent New York Voters--It is stated at the White House that the President has been advised by the Secretary of the Democratic State ticket, and that he will return direct to Washington, arriving here Wednesday evening or Thursday morning. He will probably make the journey alone, Secretary Manning, who votes in Albany, will probably leave here Saturday night, and Secretary Whitney, who votes in New York City, will probably leave on Monday. Private Secretary Lamont will also leave Monday morning for his home in Cortland County.

The President vs. the Office-Seekers--An Executive order has been issued stating that owing to the pressure of public business the President will, after November 1, decline to grant interviews to those seeking public positions or their advisers. On Mondays, Wednesdays and Fridays during that month, from 10 to 11 o'clock in the morning, he will receive such other persons as call on him in public business, and on the same days, at 1:30 in the afternoon, he will meet those who merely desire to pay their respects. On all other days and times during that month he will receive only Cabinet officers and heads of Departments.

To Complete the Cruiser--The assignments of John Roach held a conference yesterday afternoon with Secretary Whitney and the Naval Advisory Board with reference to the completion of the new cruisers. The vessels are to be completed by the Navy Department at the contractor's yard and by his workmen, and the meeting to-day was to make arrangements for going on with the work. The Secretary called for a report on the progress of the work, and the organization of the yards where the work is to be done, the compensation of the workmen, etc. This report will be made in a few days, and the work will be resumed on Monday. The work will probably then be given.

A Descendant of Pulaski Dismissed--The New York Herald's Washington special says that Mrs. Jaroeka, a grand niece of Pulaski, the Polish patriot, who fought under Washington, has been dismissed from the position of clerk in the War Department. She was appointed by President Arthur at the suggestion of ex-Governor Curtin, when she was Minister to Russia. She was banished to Siberia by Russia in 1863 for talking part in the Polish insurrection, but through Minister Curtin's efforts she was released and returned to America. Though appointed under a Republican Administration she claims to be a Democrat and to have contributed to the Union cause. No reason was assigned for her dismissal. She is penniless, and the Herald comments severely upon this treatment of a descendant of Pulaski, who was a general, and who helped to secure the grant of land made by Congress after the Revolution in recognition of services to America.

EX-JUDGE VINCENT.

The Late Chief-Justice of New Mexico at Welcker's.

FOLATE BUT REIGNENT.

Evidently Not Worried by the Charges Brought Against Him.

Judge Wm. A. Vincent, who was recently removed from the Chief-Justiceship of the Supreme Court of New Mexico, arrived here this morning and is stopping at Welcker's. A Carric representative called on the gentleman this forenoon with a view of hearing what of himself he has occupied so much of the public mind in the last few days in defense of himself. The ex-judge was smoking a cigar, and though he had come two thousand miles, did not seem to be in the least worried or annoyed. He pleasantly but firmly declined to discuss his case; giving as his reason that he considered it disagreeable to have his name mentioned in connection with the charges brought against him, and that he had no time to devote to the matter.

"I have not been interviewed," Judge Vincent said, "although several alleged interviews were attempted. I have been talked with by several newspaper men on the subject, except to say that I had nothing to say, and that I was not in the city. I had a long interview with the Herald, but I have talked to no reporters concerning my case."

Judge Vincent in appearance is very different from the personal description given him by a friend of the Herald. He is a very small man, in figure, wearing a full beard, and having, such modest blue eyes, that he could not be taken for a man of his position. This description has caused him considerable merriment, as well as his thoughtful and somewhat somber expression.

In appearance he is as different from the foregoing description as a feather from a pine tree. He is tall and slender, his figure being straight and his shoulders broad and manly. With the exception of his hair, which is a light brown color, his face is cleanly shaven. His features are good, his countenance friendly and his expression that of a man of fine intellect, and the last person in the world to be taken up with the idea of a man of his position being charged with the commission of a fraudulent transaction.

The Cabinet has decided upon the form of a resolution to be passed by the officers representing the Government in the survey of the boundary line between the United States and Mexico.

First Assistant Secretary is informed that a woman in Indian County, Texas, recently gave birth to five boys, to whom she has given the names of Cleveland, Henry, Clark, Manning and Chewchew, respectively.

Mr. Curry, the newly-appointed Minister to Spain, and his wife, were entertained at dinner last night by his professor, General John W. Foster. Among the other guests were Secretary Bayard, Chief Justice Waite, and Spanish Minister, Sr. Canalejo.

The Chief of Commissioners of Alabama Claims, which will expire by limitation December 31, is making rapid progress with the Indian claims, and it is expected that the cases of the court will be ready to be reported to the court by the end of the year of 1885, who during his life-time was granted both a land warrant and a pension. Commissioner Hinch has decided that it will be his duty to require the evidence to re-establish the fact of service, and that the widow's claim for pension be allowed.

One hundred men out of the five hundred employed in the Steam Engineering Department of the New York Navy-Yard have been ordered to the yard for further work. The two ships, Tennessee and Tallapoosa, have been fitted, and are almost ready for sea. The former will make a steam trial trip tomorrow.

The commission of the House of Representatives appointed to report upon the petition of the Government to secure a stoppage of the manufacture of arms, has adopted the following resolution: That the committee be and they are authorized to make a report to the House of Representatives on or before the 1st day of November next.

General John Gibbon, commanding the Department of the Columbia, left Vancouver Barracks, Washington Territory, October 26, for Fort Stevens, Md., to take command of the First Infantry, Second Infantry, and the Cavalry.

"BOB" COOK ASSAULTED.

Yale's Veteran Oarsman Nearly Killed.

Philadelphia, Oct. 28.--Robert J. Cook, treasurer of the Press Company (Hunt), was this morning brutally assaulted by Stephen MacPherson, a burly, well-to-do negro, who was employed in the office as janitor. Mr. Cook sustained a depressed fracture of the skull. The frontal bone at present presses on the brain, and the only means of saving his life is to perform an immediate operation to remove the depression.

Mr. Cook is a son-in-law of Calvin Willits, proprietor of the new opera house. His feeling has existed between the men for some months past. Passages at arms have occurred between them several times, and the treasurer frequently threatened to discharge the janitor. MacPherson was at length provoked to the point of attacking Mr. Cook striking him on the head with a hatchet.

Mr. Cook was arrested and taken before a magistrate and committed to await the result of his victim's injuries. Mr. Cook had national reputation as an athlete, having captained the famous Central crew of Yale College, and trainer of the college crews for several years.
