The other grades in that office will then be disposed of in order, different sets of questions being prepared for each grade as approved by the Civil Service Commission.

The Interstate Commissioners Walker and Schoonmaker returned to town this morning after an absence of several days. Chairman Cooley is still detained by the continuing illness of Mrs. Cooley. The Commission is now in session at the residence of E. M. Tark in support of the petition of the Citizens of New York, representing the clipper ship trade between the Atlantic seaboard and the Pacific coast, praying for non-suspension of the fourth clause added by the trans-continental railroads.

A Banneging Baker.

Edward Smith, a baker employed at Smith's bakery, on North Capitol street, was charged by the Police to-day with threatening to shoot her and then shoot himself. The Masonic Veteran Association will give an excursion to Marshall Hall on St. John's day, June 24. The tickets are limited.

A pair of horses, attached to a loaded lumber wagon, belonging to Thomas W. Hilly, ran away from Sixth street and in cutting down Sixth street, collided with Colonel S. T. Bull's carriage, smashing it and cutting the horse badly.

THE TAX LIENS.

The Commissioners Requested by the Treasury. The Treasurer of the United States has requested the Commissioners to sell all property in the District of Columbia against which there are unpaid assessments for special improvement taxes, represented by tax lien certificates deposited in his office. He requests that it be advertised and sold under the recent act of Congress.

This action was brought about by Mr. W. M. York, the attorney for the First National Bank of New York. This bank holds a large number of the 8 per cent. certificates. If the sale is ordered by the Commissioners, which it undoubtedly will be, it will cause a sensation in real estate circles, as property on nearly every street and avenue is affected.

The Commissioners borrowed money on their own account to complete the improvements, and gave certificates or bonds to their creditors and put the tax lien certificates against the property benefited in the Treasury to secure the money. The Treasury has since made improvements in question were made under the Board of Public Works.

THE STEEL-GUN ACCIDENT.

Commodore Sicard Says It Is Nothing Serious.

The reports of the destruction of one of the new ten-inch guns at the Navy-Yard being related, a reporter to-day inquired of Commodore Sicard, Chief of the Bureau of Ordnance, for a more explicit statement of the facts. He replied that while the gun in question was undergoing one of the final processes the reamer, or tool used in smoothing the inside of the chamber, broke.

Before the machinery could be stopped, the broken reamer had cut a track around the inside of the chamber about one-twentieth of an inch deep. Such accidents, Commodore Sicard says, cannot be prevented and the injury resulting was not serious and the slight indentation would not detract from the successful operation of the gun.

The chamber will, however, be scraped to the depth of this accidental cut, so that it will again be made perfectly smooth. The margin of safety in the different parts of the gun is one-twentieth of an inch will make no difference.

THE COAST SURVEY.

What the Friends of Gen. Rosecrans Say About the Superintendent.

General Rosecrans has been very strongly recommended for the position of Superintendent of the Coast Survey. The article in question is incorrect and unjust. They point out that after graduating from the United States Military Academy, he served three years as professor of civil and military engineering and one as professor of the foundations of all the proposed new machinery have been constructed. The new flooring will be of concrete on a base of stone.

EASTERN BRANCH BRIDGE.

The board is now in session at the residence of E. M. SPORTS OF THE SEASON.

Saturday week is the day set for the great spring race of the year—the Suburban Handicap. More interest is felt in this race than in any other run on an American track. Six months before it is in the betting on it being "future odds" being laid by the bookmakers from \$50 to \$200 to \$1 against the entries. The betting is based on the form of the animals in the previous fall, and as they confirm or fall below that form in the spring races the odds fall or rise until the horses finally face the starter. The leading favorites now are The Bard, Tremont, Richmond, Exile, Ben All, Rupert, Saracene, Hildago, Hanover and Billy Woodcock.
