

GOVERNMENT GOSSIP.

Events of Interest in and About the Departments.

APPOINTMENTS AND PROMOTIONS

Applications for Postal Clerkships—Bond Transactions—General and Personal.

Bond Transactions.—Officers: Registered, \$1,088,000, 127,642; coupon 49, 107,000, 127; registered 419, \$1,270,000, 104,047 1/2.

Secretary Lamont's Departure.—Colonel D. S. Lamont left last night for his home at McCrearyville, N. Y., to join his family. He will return next week.

More District Notices.—The President has commissioned the following notaries public for the District of Columbia: Thomas H. Unsworth, Charles S. Bundy, Rutledge Wilson and Charles B. Beall.

Business of the Patent Office.—During the last six months the receipts of the Patent Office were \$368,091. Application for patents to the number of 10,856 filed, and to the number of 10,856 issued.

Investigating the Fisheries.—Dr. Hugh M. Smith and Mr. M. M. Snell of the United States Fish Commission will leave Washington this evening on a several months' tour of investigation of the fisheries of the Atlantic Coast.

Lands to Be Restored.—Commissioner Stockinger has called upon the Alabama and Chattanooga Railroad Company to restore 72,000 acres of land to the public domain, which was erroneously certified to that corporation.

Pension Certificates Issued.—During the last fiscal year the Pension Office issued 113,087 pension certificates. The number of original pensions granted exceeded that of any previous year by 10,000.

Violations of Pension Law.—The Commissioner of Pensions is advised of the conviction at Knoxville, Tenn., of John J. Ball, for withholding pension money in the case of Erika Wallace. For similar offenses and for refusal to render a pension certificate upon demand being made by the Commissioner.

Railway Service Vacancies.—The recent accident on the Virginia Midland Railway, in which so many postal clerks lost their lives and others were maimed for life, has not had as one would expect it would, a deterrent effect on the number of applicants. On the contrary, the applicants are increasing, and several have already applied for the vacancies caused by death.

Chief of the Mineral Division.—A number of changes will occur in the Interior Department soon. The Secretary is only awaiting the receipt of the Legislature to make them. Among the positions to be filled is that of chief of the Mineral Division, General Land Office. The Secretary is quietly looking over the list of applicants for the position, and everything else being equal, will probably appoint a practical mineralogist to the place.

Examinations for Promotion.—The Secretary has received a letter from Secretary Fairchild directing that in all cases where persons who receive annual compensation or salary of less than \$800 are designated for promotion, the examination should be given, except in cases where an examination for entrance into the classified service has been passed and the person designated for promotion has been placed on the eligible. This is in conformity with section 7 of the Civil Service Act.

Minister Phelps' Transfer.—The story has been started since the announcement that Minister Phelps of England will be transferred to Russia and that Hon. Fat. Phelps will be transferred to England. The reason assigned for such a change is that the Irish-American voters of New York are so much more likely to vote for the Republican than the Democratic party, and it is believed that the name of Hon. Fat. Phelps will be more successful in New York than that of Hon. Phelps.

Granite for the New Library.—The commission for the construction of the Congressional Library building has received proposals from nine different firms for furnishing cut granite for the court walls of the west front of the building. The highest bid is \$239,500, by Water, Rockland, Frankford and Hall, and the lowest is \$189,250, by the same firm.

Important Patent Case.—Patent Commissioner Butterworth is preparing his immediate predecessor, ex-Patent Commissioner Marble, to a hearing now going on before Commissioner Hall at the Patent Office. The case is that of H. M. Hunter of Philadelphia against Walter U. Kuhn of the same city, involving an appeal from the examiner in interference as to which of the two is the inventor of an electric system of street railways. The case is very important, the monetary interests involved being large. Mr. Hunter yesterday spoke in his own behalf, and was followed by a young Philadelphia lawyer, who presented the law of the case in his behalf. The heavy weights, Messrs. Marble and Butterworth, will lock horns during the course of the hearing.

Treasury Department Changes.—Miss J. A. Somerville of North Carolina has been appointed to the 8000 class in the office of the Third Auditor, under the revised rates by transfer from the Interior Department. Thomas McGinnis of Indiana has been appointed chief of division in the office of the Comptroller of the Currency, at \$2,200 per annum. The tickets of Illinois has received an absolute appointment to a clerkship of class 3 in the office of the Second Auditor.

Promotions.—First Comptroller of the Office of the Second Auditor, Mr. Robert H. West, Kentucky, from class 4 to class 3, at \$2,000; Customs Commissioner, Mrs. L. W. Eggleston, New York, \$100 to class 1, and George C. Schaeffer, District of Columbia, \$1,000 to class 1, at the rate of \$1,000.

Department Personal.—Commodore Harmony was in Norfolk yesterday inspecting his department at the navy yard. Mr. Clarence G. Allen will act as appointment clerk of the Interior Department during Captain Hassler's absence.

AT THE CAPITOL TO-DAY.

Mr. Bingham's Subsidy Amendment Defeated in the House.

NEW CONFERRERS APPOINTED

The House Then Takes Up the Tariff Bill in Committee of the Whole.

After the reading of the Journal to day Mr. Blount demanded the regular order, and Mr. Peters opened up the debate on Mr. Bingham's subsidy amendment to the Postoffice Appropriation bill. He denied that this was a subsidy. It was, then the present law was a subsidy. He thought the House ought to adopt the amendment which would increase the amount payable to \$450,000 to increase its commerce. The mails should be carried on the routes maintained by American sailors. The proposed amendment would do all that and more.

Mr. Rogers denounced the policy of giving subsidies in terrible language. He did not believe in taxing the farmer for the benefit of the millionaire ship-owners, who owned the monopolies. He hoped the amendment would be voted down.

Mr. Bingham's motion was carried by 141 to 57, and Messrs. Blount, Doxey and Bingham were appointed conferrers. Mr. Bingham introduced a resolution on the resolution to pay Mr. Edward. Mr. Boothman made a favorable report on the resolution to pay Mr. Edward. Mr. Boothman made a favorable report on the resolution to pay Mr. Edward.

Mr. Boothman made a favorable report on the resolution to pay Mr. Edward. Mr. Boothman made a favorable report on the resolution to pay Mr. Edward.

MR. RANDALL'S CONDITION.

Alarming Rumors That Were Soon Denied.

It was rumored around the House about 11 o'clock this morning that the accident which had befallen Mr. Randall was not a dying condition, but a temporary one.

THE ROTTEN TRESTLE.

No More Dead Bodies Found—The Big List Lessened.

The debris at Big Nancy trestle, where the accident occurred, has been cleared away and the dead list has not been increased. It has been lessened on the other hand, by the discovery that the trestle was not a Scotchman from Baltimore, who was supposed to have been killed, but had been taken to Philadelphia.

MANDY TO THE JUDGE.

Mrs. Waxen Writes to the Member from Wayback.

SOME VALUABLE HINTS.

She Aims Her Opinions on Foreign and Domestic Subjects.

As the Carric scribble was passing through Lafayette Park yesterday evening, "about an hour by sun," he saw Judge Waxen, M. C. from Wayback, sitting on one of the benches near the statue of Jackson, contemplating that work of art and enjoying the cool breeze. He strolled over toward the Judge, and the scribble listened to the shoulder before he was aware that the man was in his vicinity.

THE DYNAMITE CASE.

Bowles, One of the Prisoners, Confesses His Crime.

A SENSATION IN COURT.
