

# BATON ROUGE.

SATURDAY, November 23rd 1844.

## THE RESULT.

The agony, the suspense, the alternate hope and fear—ceased. Our expectations of seeing the ruins of government in the hands of the *Prude of America*, Henry Clay have vanished like a dream. James K. Polk is the President elect beyond a doubt. We must acknowledge that the result has surprised and disappointed us, but as a good republican we bow to the will of the majority—whether it be, in our judgment, right or wrong. Time will show what course the dominant party will pursue, but we are inclined to believe that the principles of Free Trade, &c. will be but slightly touched upon for the next four years.

**ATTEMPTED ASSASSINATION.**—On Thursday night at about midnight, 8 o'clock Henry, a man, was aroused from his slumbers by a noise, that seemed to proceed from the gallery. He went out and perceiving nobody returned, but shortly afterwards the noise recommenced and he walked out towards the end of the gallery, with a loaded pistol in his hand, and perceived a man in the street, who after retreating few paces, snatched a pistol from Mr. H. then fired, and walked round the house to the street, but no trace of the vagabond could be found. Whether the assassin received the shot or not is not known as nobody has been heard of inquiring for surgical aid—however, he better not attempt that game again for fear of meeting the fate he so richly deserves.

We are sorry to see that B. Wilson, Esq. withdraws from the editorial chair of the *Planter's Banner*, at Franklin, which he has so ably filled for several years. His establishment is now offered for sale on advantageous terms. A good opening for a printer who can be his own editor, &c.

The *Louisianian*, at Donaldsonville, has been stopped for some time, in consequence of the detention of the proprietors.

**ATRAV.**—An affray took place last Wednesday evening about 10 o'clock near the landing, between Mr. La Combe and J. N. Pallen of this town. Mr. La Combe received a deep wound in the throat. We have not been able to ascertain the exact particulars. Mr. Pallen we understand has been bound over to appear at the next district court in January next.

**SUDDEN DEATH.**—On Sunday last, some of our citizens having observed that the house of Mr. Philip Boyle had been shut up all day, suspected something was wrong, and having repeatedly knocked at his door, broken it open and found him lifeless in his bed. He must have died during the previous night of apoplexy. An inquest was held immediately and verdict of "Died by the visitation of God." Mr. Boyle had been several years a citizen of this town, and bore the reputation of an honest man in every transaction.

**REVISION OF NATURALIZATION LAWS.**—This question has assumed a formidable aspect for some time in the Atlantic cities, and now promises to blow with effect in this southern hemisphere. The thousands of citizens made alive on the eve of important political elections—the frauds, the perjuries &c. always attending some of these operations are enough to arouse any lover of our institutions and the sacredness of the ballot-box, to throw some safer guard against the unlawful exercise of that sacred right. We do not look upon this question as interesting the native American alone—the measure is not intended to act in a retrograde manner, and the foreigner of whatever country he may be, who after becoming legally naturalized, will allow himself to be addressed by any other appellation than an American, is in our opinion, unworthy of the high privileges he enjoys—the emigrant, who has come to this country with a view of making his home, and has become a citizen legally, is as much interested in its welfare as the native. The creed established by the *Tropic* which has boldly espoused this cause, contains the following article:

"That all persons not in the country, whether natives or foreigners, who have acquired political rights under the Constitution and laws, shall have these rights preserved inviolate."

Now in our advocacy of the revision of the naturalization law, in which we mean to be moderate, we perform what we believe to be a duty to our adopted country—to that country under whose institutions we have lived for years before our majority to the present time, and hope to continue an American citizen to the end of our days. We care not what epithets scoundrels and demagogues may apply to us for that course—we neither care nor fear them.

**ELECTION.**—A proclamation has been issued by Gov. Mouton, for an election to be held on Monday next in New Orleans, for two members to represent that parish in the State Convention, in consequence of the resignation of J. B. Benjamin and C. M. Conrad, Esqrs. It will be remembered that the seats of those two gentlemen were warmly contested by Messrs. Planché and Lassere, and to avoid any more delays and expenses to the State, they resign their seats, and present themselves again before the people of New Orleans for a new election. Such patriotic conduct will we hope serve as an example in such cases in future and will not be unwarded. They are opposed by the same gentlemen as at the last August elections.

**A. C. BULLITT.**—We are glad to see that this gentleman, for several years past the well known editor of the *Herald*, has associated himself with the firm of Messrs. KENDALL & Co. in the editorial department of the *Picayune*. We congratulate the former editors of that paper on so valuable an acquisition. The *Picayune* already holds a high rank among the papers published in this country, and the chaste and vigorous pen of Bullitt will no doubt still greatly improve its value.

**Phillips the Vocalist.**—The Boston Post says that Mr. Phillips is by far the best singer who has ever sung in Boston, for twenty

Our friends will excuse us for not saying much about the elections till final returns come in. We will state however, that our prospects of getting Tennessee are good— which will be some satisfaction—it will be a green spot in memory's waste, to cheer us for the defeat we have met. N. Carolina, the *Advocate* of last week, says it safe for Polk by 20000, we would advise our young friend not to be too greedy all at once, we are much mistaken if he does not find the other column next week.

We understand Gov. Porter has refused to receive the returns of Berkeley county, Pa. on account of alleged frauds. It is not clear from the account of the returns, that it will bring down Polk's majority in that state, considerably. We hope soon to see the day when a section frauds will be ferreted out and made a penal offence, as it is in regard to programs or parties.

**THE ELECTIONS.**—Now that all the interest taken in the recent election is over, we have little to say on the subject.

Mr. C. Johnson, of New York, according to the *Journal of Commerce*, is entitled to \$4100—other journals make it less. His majority in the city was about 1000.

The Box of your lady's notes on Mr. Polk's majority in the State is only one. We would not probably get the exact vote until the official returns are published.

**MIRAGE.**—According to all accounts, has cost her vote for Polk and Dallas.

The *Petersburg Intelligencer* of the 12th inst. holds the following language in relation to the election of 1844.

But one of the Western counties has been heard from. Enough however, is known to satisfy us that Clay's majority in this State cannot be less than 4000.

From Tennessee, and Indiana we are still without positive information as to the true result.

## NEW ORLEANS MARKETS.

Nov. 20, 1844.

The Sales of Cotton yesterday amounted to 30000 bales, including 800 at 5 1/2, 770 at 5 1/4, 280 at 5 1/8, 150 at 5 1/4, and several small lots. The market is very fully supplied by holders, and prices appear to be leaning in favor of purchasers. Middling Cotton may be bought at 5 1/2 to 5 1/4, and Fair (Liverpool class) at 5 1/4 to 5 1/8, per lb.

Those of the middle of the day the weather cleared off, and some outdoor business was transacted. Sugar was in moderate demand yesterday at 32 1/2 to 33, according to quality. Molasses has declined, and is now bought at 1 1/4 to 2 3/4 per gallon. There have been no sales of other articles on the market.

Flour is moving off slowly at \$4 to \$4 1/4 for Ohio, and \$4 1/4 to \$4 3/4 for good Missouri brands. We have no change of any consequence to notice in the Produce market.

**CEREMONIES.**—The *Hayou* Sara Ledger of last Saturday, says that cotton Bismarck was exhibited in that town the day previous, as fresh and healthy in appearance as those of Jones. They were from the plantation of A. G. Howell, Esq.

**FAT GIRL.**—There is a young girl, aged 10 years, named Hannah Grimes, now exhibited in New Orleans. She weighs two hundred and twenty-four pounds, and is healthy in appearance.

**PROVISIONS.**—We understand that the late arrivals in the Ohio has not had several hundred barrels laden with provisions, which will be here in a few days. We hope soon to be able to announce an alteration in that important branch of trade.

**LUXURIES.**—Jack is "always ready" with his wares. If you feel a keen appetite and wish to gratify its cravings, call for a stew and dinner that is scrupulously, invite a friend to join you. There will be no difficulty in doing as.

**THE SAVANNAH REPUBLICAN** of the 14th inst., re-nominates Henry Clay for President in 1848.

## IMPORTANT TO SETTLERS UPON STATE LANDS.

ATTORNEY GENERAL'S OFFICE.

New Orleans, Nov. 18th, 1844.

Sir—After an attentive examination of the 4th section of the act of the 23rd of March, 1844, it appears to me its terms are sufficiently broad to authorize you to make sales to claimants by pre-emption on their complying with the regulations of the act of Congress, approved the 4th of September, 1841, and saying three dollars an acre under the state law.

I am, very respectfully,  
Your obedient servant,  
ISAAC T. PRESTON,  
Attorney General.

R. J. KIR, Esq.  
Register of the Land Office.

## LATE FROM TEXAS.

A New Revelation in Texas. A gentleman, says the *Galveston Gazette* of the 6th inst. has just arrived in this city from the West, who states that report has been brought to San Antonio, that all Northern Mexico had been placed in a state of revolt against the Dictator. The report, as brought by a Mexican Major, who represents himself as having deserted from General Wool's army, is that Arista is now marching with an army of 17,000 men, and that the numbers are daily and rapidly increasing by fresh recruits from all the surrounding country. It is stated that the spirit of rebellion is universal and over-spread. Citizens are very anxious to know the details of the report, (whose name our informant does not remember) and pledges his life for the truth of his statements.

We have been presented, says the *Green Bay Courier* of the 14th inst. by Thos. F. McKim, Esq. with a specimen of sugar from the plantation of Mr. J. B. Benjamin, on the San Bartolome, in Bogota, Colombia, which, taken equal parts with water, and all the good qualities, surpasses any article of the kind we have yet seen of the growth of Texas. It is a very fine specimen of sugar, and is equal to the very best produced in Louisiana, and far superior to the qualities usually imported from New Orleans. A lot will be brought to the market by the first vessel, and we understand, to be sold at a low price, that is usually asked for so inferior sugar of Louisiana. Besides a good crop of cotton, oranges, and other articles usually produced on a farm, Mr. Benjamin has this year made about one hundred heads of the superior sugar, a pretty fair crop, we think, for a new country.

We have never seen specimens of sugar so superior in quality, though we have heard that Col. Caldwell and Judge Meade have succeeded remarkably well as horticulturists.

**KNOW THE CHERRY TREE.**—The *Cherokee Advocate* of the 23rd inst. says the health of the country is improving, and that the health of the people is also improving. The National Council is still in session. Another member of the National Council is dead. The health of the country is improving very much.

The following communication from a correspondent of the *Advocate*, exhibits in a striking light the rapid advance which the republic is making in civilization.

The membership in the Indian Mission Conference is 3210. Of these 85 are white; 2902 Indians; and 153 colored. There are 47 preaching stations—7 of whom are Indians—5 Cherokee and 2 Choctaws. There are 27 local preachers—22 of whom are Indians, and 5 whites. The Conference is bounded on the north by Missouri river; east by Mississippi and Arkansas States; south by Red river; and west by the Indian Territory in these limits. In this territory we tell you,

## DREADFUL EXPLOSION.

On the 13th inst. at 3 P.M. at the S. W. Pass, while the tug boat Tiger, Capt. Crowell, was towing over the bark Marcella, bound to Boston, she burst all her boilers, six in number, in a terrific wreck of the boat, even to the masts, killing three and wounding three more slightly.

The following are the names of the killed and injured:—  
Capt. Dan B. Clark, Pilot of the city.  
David Brown, 1st Engineer, of New York.  
Abraham Snyder, 2d Engineer, of Canada, and scalding three deck hands slightly.

Capt. Crowell informs us that the reason no more persons were killed, was that a short time previous he had ordered all hands left to heave in the spring cable—The remains of Messrs. Brown and Snyder, were interred on Hibernia's Island at the S. W. Pass.

Capt. C. thinks there can be no doubt that Captain Clark was killed, as the wheel house and where he was blown about five hundred yards from the boat.

The wreck of the boat was brought up to the city by steamer *Porter*—  
A BOLD PRISONER.—The holdness of Samuel Davis will be illustrated by a single anecdote. When President of Princeton College, he visited England for the purpose of obtaining donations for the institution. The King (Geo. III) had a curiosity to hear a preacher from the wilds of America. He accordingly attended, and was so much struck with his commanding eloquence that he expressed his astonishment loud enough to be heard half way over the house in such terms as these:—  
"He is a wonderful man! Why, he beats my nation."

Davis, seeing that the King was attracting more attention than himself, paused, and looking at his Majesty full in the face, gave him, in an emphatic tone, the following beautiful reply:—  
"When the lion roareth, let the beasts of the forest tremble; and when the Lord speaketh let the kingdoms of the earth keep silence."

The King instantly sprang back to his seat, like a school-boy struck over the head by his master, and remained quiet during the remainder of the sermon.

The next day the monarch sent for him, and gave him fifty guineas for the institution over which he presided, observing at the same time his congratulations.—He is an honest man, an honorable man, and a great man.

Not one of his sibilant hisses would have given him such a reproach.

**COMMISSIONER OF A BAPTIST CHURCHMAN.**—The Rev. John Brown, of Haddington, the well known author of the *Selt-Interpreting Bible*, was a man of singular boldness. In token of the truth of this statement, I need only state that his courtship lasted seven years, six years and a half passed in the city, and six years and a half in the country. He had been in the city six days, and he had been in the country six days. This state of things became intolerable; a step in advance must be made, and Mr. Brown summoned all his courage for the deed.

"Jane," said he as they sat one night in solemn silence, "I have now acquired now for six years an' more, and I've never got a kiss yet; do you think I might take one, ma bonnie girl?"

"Just as you like, John, only be becoming and proper w' it!"

"For George, Jane, will you kiss a blessing?"

"The minister was asked, the kiss was taken, and the worthy fellow, perfectly overpowered with the blissful sensation, most rapturously exclaimed—  
"O, woman! But it is quite—well! return thee!"

Six months made the pious couple man and wife. And, said his descendant, so he humorously told the tale, a happier couple never spent a long and useful life together."

**GOON LOCK.**—The editor of a country newspaper desiring to "raise the wind," this ingenious wretch has deluged his subscribers with "lock up."

"We don't want money so desperately bad, but our creditors do; and no doubt they owe you. If you pay us, we'll pay them, and they'll pay you."

**MR. JAMES BRIDGES**, Esq., ex-officio, has been appointed United States mail agent in the place of S. M. Brown, Esq., deceased.

**A VISITING SIGN.**—At a Sunday school examination, a few days ago, a little boy asked by his catechizer, "What is the outward visible sign in baptism?" innocently replied, "Please, Sir, the lady."

**U. S. SENATE FROM ARKANSAS.**—Col. Charles Ashley was elected to the U. S. Senate by the Legislature of Arkansas, on the 8th inst. to fill the vacancy occasioned by the death of Mr. Fulton.

**BEA.**—"Poor thing! how cold they must be, to have their coats taken off this weather!" and a loud-hearted dame to a man skimming milk, "Don't it hurt them?"

"Not a whit, if they are used to it; and then you see, we warm 'em directly in fat, and that heats up their hearts. Fat ain't good, warm, for sores. Pass 'em along, Bill!"

**STRAMBAT ACCIDENT.**—The steamer American E. Gale reports the steamer *Chieftain* sank at the foot of Choctaw Bend, in the lower Mississippi, in consequence of running upon the bar at 4 o'clock, A. M. on the 9th inst., and broke in two in three hours after.—Bark and cargo a total loss.

**DIED.**—At Paris, France, on the 20th August, *Valencia Alton*, an old and respectable creole residing in this Parish.

His remains were brought to this town on Wednesday last by the *Helix* to be deposited in the family vault in this town. They were accompanied to their last resting place by a large concourse of friends and acquaintances.

**DIED.**—On Sunday evening last, in this town, *Pulize Boyle*, a native of the County Carlow, Ireland.

**DIED.**—At Montgomery, Texas, of congestive fever, on the 20th October, for nearly thirty years a resident of Louisiana. He edited various papers in the state, and lately published the *Star of Assumption*, in Louisiana.
