The New Treaty with Mexico.

A treaty has been agreed upon by Mr. McLane, American Minister to Mexico, and Don Melchior Ocampo, the head of the Department of Foreign Affairs for the Juarez or Liberal Government of Mexico, and despatched by Mr. La Reintrie, Secretary of Legation, to Washington. Mr. Elgee acts as Secretary during the absence of Mr. La R.

A synopsis of the new treaty has been published. It contains perpetual grants of the right of way over the Tehuantepec Isthmus; across the country through five Mexican States from some point on the Rio Grande to Mazatlan on the Pacific; and from Arazonia through Sonora to Guaymas on the Gulf of California. It grants the right to traverse the same by railroad or any other species of communication and transportation; to build Warehouses at their termini; to navigate freely the waters with which they communicate; free transit of all goods over all the routes when sent from one portion of the United States to another; the privilege of entry of all goods at the transit warehouses and of selling them in Mexico (upon payment of duties) or of withdrawing and reshipping them to any other country free of all charges except cartage and storage. It provides for the admission into Mexico, on terms of reciprocity, of a large list of the products of this country, the U. S. Congress to determine whether the admission shall be free or to fix the tariff of duties. Among the products thus admitted are all manufactures of cotton and leather. The points of admission are the termini of the several transit routes granted by this treaty. The power to protect these routes by armed forces and to transport United States troops and munitions over those of Tehuantepec and Sonora is conceded to this Government. It guarantees religious freedom to citizens of the United States, their protection against forced loans and their privilege of engaging in any business in Mexico without restriction. The right of the United States to protect its citizens resident in Mexico by force of arms is conceded as well as the right to enforce the whole of the stipulations of this treaty by the same means. In return for the privilege of transporting goods through Mexico free of duty the United States Government must pay to Mexico four millions of dollars, two millions to be retained for the payment of American claims against Mexico.

It is stated that our Minister used every means to obtain a grant of territory but that the Juarez Cabinet refused it firmly and persistently.

If this treaty should be ratified the two millions of dollars put into the hands of the Liberals will enable them to maintain their authority and perhaps to extend it over a considerable portion of Mexico; but even in that event, owing to the frequent revolutions which desolate that unlucky Republic, the armed intervention provided by the treaty will be necessary in the course of a few months to enforce its stipulations and to protect American citizens.

Congressional Proceedings.

WASHINGTON, Dec. 21.—In the Senate, to-day, Mr. Slidell introduced a bill making appropriations to facilitate negociations for the purchase of Cuba.

The bill was referred to the Committee of Foreign Relations.

Hale, of New Hampshire, offered a resolution which was adopted, instructing the Post Office Committee to inquire into the feasibility of expediting mails between Washington and Boston.

Foote offered a resolution, which was adopted, instructing the Finance Committee to devise more effectual and economical means of warming the Government buildings throughout the country.

WASHINGTON, Dec. 22.—In the Senate to-day, Senator Wm. M. Gwin, of California, introduced the Pacific Railway bill. The Hon. C. C. Clay, Jr., of Alabama, introduced a bill to repeal all the laws by which fishing bounties were granted. The Hon. John Slidell, of Louisiana, introduced a resolution, which was passed, that the Senate, commencing from to-morrow, should adjourn over every three days until the 3rd of January.

In the House to-day nothing of any consequence took place. The House proceeded to the eighteenth ballot for Speaker, which resulted as follows: Total, 223. Sherman, 95; Millson, 70; Gilmer, 36; Davis, of Indiana, 1; Adrian, 3; scattering, 6. Nineteenth ballot—Sherman 105; Millson, 69; Gilmer, 21; scattering, 24.

WASHINGTON, December 23.—In the House to-day the discussion was mainly confined between Farnsworth, Cobb, Reagan, Stanton, Kellogg, McRae, Lamar, Bonham, Barksdale and Crawford, in relation to the position of members and their views as to Helper's Impending Crisis, the question before the House being on Clark's resolution, disqualifying any one for the Speakership who had indorsed Helper's book.

Several Southern members were catechised as to their views on the subject of the reopening of the slave trade, while Northern men were questioned in regard to servile insurrections, etc.

Both sides gave qualified and cautious answers, and the discussion was kept up till 10 o'clock P. M. without anything having been accomplished towards the organization of the House.

Up to that hour no vote had been taken for Speaker, and there was every prospect of an all-night session, many members being in favor of adjourning over the holidays, and others insisted upon an election of Speaker previous to an adjournment.

WASHINGTON, Dec. 23, 11 P. M.—After a desultory debate, which was kept up till half past 10 o'clock, the house proceeded to the 20th ballot, with the following result: The total number of votes cast was 212, of which Sherman received 103, Millson 27, Gilmer 79, Bocock 1, and scattering 3.

The House then adjourned.

ESTRAY taken up by James Simpson, on Bayou Lafourche about 20 miles from Alexandria, a chesnut sorrel HORSE, 16 hands high, between 9 or 10 years old, no brand visible, slightly collar marked on the shoulder, right hind foot white; appraised by S. Cockfar and James Brinkley, Sr., to be worth $100 in cash.

Now, therefore all persons interested is hereby notified to come forward within sixty days from date hereof, prove property, pay charges and take him away or said estray will be sold according to law.

OBITUARY.

DIED—In this town, on Monday the 19th inst., very suddenly, Mrs. LYDIA E. HOWARD, widow of the late Capt. William Howard, of Newburyport, Mass., aged sixty-four years.

Mrs. Howard was the mother of the late Mrs. I. Thomas Jewett, of Alexandria, and the Rev. W. G. Howard, D. D., of New Orleans. She came to this Parish with her daughter in the autumn of 1840, and has resided here ever since; and by her quiet and Christian demeanor and unaffected goodness won the esteem and love of all who knew her.

Mrs. Howard was a lady of superior intellectual and personal endowments and of rare grace and dignity of manners, combined with great amiableness of disposition and very winning social qualities. She was remarkably affectionate and devoted as a mother, sincere and faithful as a friend, frank and true in all the relations of life, and endeared the most to those who knew her best. But her crowning excellence was her pure and unostentatious piety, which shone with a mild and chastened radiance in all her deportment, which gilded even the dark clouds of sorrow which the death of loved ones had thrown over her pathway, and the memory of which lingers like a sweet fragrance behind her, now that she has gone to her rest. Farewell! dear, departed one! we will meet thee again where sorrows and partings, and tears are all unknown forever.

DIED—On the night of Wednesday the 21st inst., aged 1 year and 11 months, FRANCIS CLARA, youngest daughter of the late Thos. F. and Mrs. Bessie Scott of this place.

DIED—At Alexandria, La., Dec. 26th, 1859, WILLIAM POMROY GROVES, eldest son of William Groves, Esq., aged 33 years, a native of Clarkson, New York, but for the last fourteen years a resident of this Parish.

N. B. When three or more form clubs, and enter at the same time, ten per cent. will be deducted from tuition.

☞ Citizens and strangers are respectfully invited to visit the College and judge for themselves. The city is perfectly healthy.

STOCK.

If, as is expected, the citizens in favor of Southern practical education subscribe as liberally to this HOME INSTITUTION as they ever have to distant ones, the Agricultural and Mechanical Departments will be at once put in operation, and the whole placed on a firm basis, to stand for ages as a permanent institution of the South, and under the direction of the Stockholders themselves and the Trustees appointed by the Legislature.

Stockholders can take the amount out in tuition. The Trustees of course can put any other party at the head, if they deem best. The Charter is perpetual.

Gentlemen of the South! does the plan meet your approbation? If so, will you give it your aid, and build up a HOME INSTITUTION with a thousand or fifteen hundred students annually?

A Benevolent Institution established by special Endowment for the Relief of the Sick and Distressed, afflicted with Virulent and Epidemic Diseases.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual diseases, and the deceptions practiced upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS to all who apply by letter, with a description of their condition, (age occupation, habits of life, &c.) and in cases of extreme poverty, to **furnish Medicines free of Charge**. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their Annual Report upon the treatment of Sexual diseases, express the highest satisfaction with the success which has attended the labors of their Surgeons in the cure of Spermatorrhœa, Seminal Weakness, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or Self-abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important and much despised cause.

An admirable report on Spermatorrhœa or Seminal Weakness, the vice of Onanism Masturbation, or Self-abuse, and other diseases of the sexual organs, by the Consulting Surgeon, will be sent by mail (in a sealed envelope) FREE OF CHARGE on receipt of two stamps for postage. Other Reports and Tracts on the nature and treatment of sexual diseases, diet, &c., are constantly being published for gratuitous distribution, and will be sent to the afflicted. Some of the new remedies and methods of treatment discovered during the last year, are of great value.

Address, for Report or treatment, Dr. J. SKILLIN HOUGHTON, Acting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa.

By order of the Directors.

Geo. Fatchild, Secretary. President.

PASSMANN'S

IRON HOOPS AND TIES

FOR COTTON BALES.

Price 6 cents per pound—25 per cent. less than Rope

ANY one considering the advantages of Iron over Rope as a material for binding cotton bales will be surprised that it has not been adopted long since. In its security against fire there is an overwhelming reason for its adoption.

The Presses in the Seaport Cities have been the main cause of it not being generally adopted, but, now that objections is removed generally, and the Orleanites, the largest in N. O., give it the preference over rope. The Passmann Iron Hoop and Tie is the improvement of one of the proprietors, and is adopted from the fact, that it is found after long experience to combine the greatest merits in simplicity and facility of application of any one yet made. It is so prepared as to require no change for recompressing, thus obviating the only remaining difficulty at the sea board cities.

The hoops are sent of any length from eight to ten feet, and a full guarantee given that neither the Ties nor Hoops shall break. And further, that all cotton bound in them shall be received on the same terms, at the Orleans Press as rope bound cotton. The weight per bale is about the same as Rope, or one pound more or less.

To show the opinion Ship Masters have of it, we give the following, among numerous commendations we have:

The undersigned masters of vessels having had cotton compressed with Passmann's new Iron Hoops and Ties, hereby recommend the same. The bales being well compressed, and the buttons or hoops never break when thrown down in the Ship's hold or when stowed:
