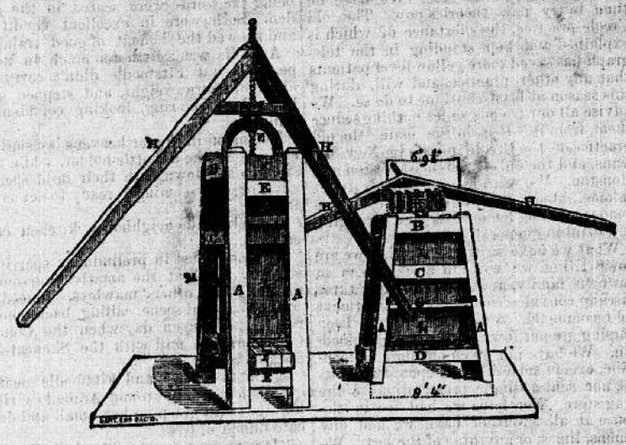
NEW ORLEANS ADVERTISEMENTS.

WRIGHT'S PATENT IMPROVED
IRON SCREW FOR PACKING COTTON.



PRICE OF CASTINGS COMPLETE.....$150

The attention of Cotton Planters is invited to the claims of this Invention, which, in SIMPLICITY, ECONOMY, DURABILITY and POWER, surpasses any Machine for Baling Cotton before presented to the Country.

Specifications sent by mail to parties wanting them.

CHAMBERS & LATTING, Agents,
August 28th, 1867-3m. 61 Carondelet Street, New Orleans.

FASSMAN'S IRON TIES
—FOR—
COTTON BALES.

THE undersigned have made extensive arrangements to supply the demand for these Ties the present season.
In addition to the FASSMAN DIAMOND TIE and BUTTON TIE, so extensively used heretofore, they now offer his ALLIGATOR TIE, with teeth so arranged as to instantly clamp the hoop when the pressure is removed from the bale, and hold it withous slipping.
Great pains have been taken to secure the best of iron.
These Ties are so simple in their arrangement that they can be applied by any one, to bales of any size, with the same facility and expedition as rope. In strength, security and facility of application, they will compare favorably with any yet introduced.
The advantages of Iron Ties are now generally recognized; but it is deemed not out of place to call the attention of those interested to the very emphatic recommendation of Underwriters, Steamboat Captains, and Owners and Agents of Sea Steamers and Sailing Vessels, recently published in the newspapers in New Orleans. CHAMBERS & LATTING,
No. 61 Carondelet St.,
Aug. 28-3m. New Orleans

The Gullett Steel Brush Gin.

THIS celebrated COTTON GIN, is again manufactured under the supervision of the Patentee, B. D. Gullett, with greatly improved facilities; and we, as agents for the Southwest, now offer it as the best Gin made.
Its advantages are:
1st. The quantity of Cotton ginned in a given time is much greater than by any other gin of equal number of saws.
2d. It seperates from the Cotton all motes and dust and leaves it clean from nap.
3d. The Steel Brush straightens out the lint, removing all kinks and knots.
4th. The Roll cannot be broken by over feeding.
All Gins are tested before leaving the factory. Cotton from this Gin will sell for an advance in price, sufficient in 50 Bales to pay for the Gin, because it is freed from motes, dirt and nap. It has been in use extensively in the Southwest ten (10) years, and wherever used it supercedes all other Gins.
Send for special descriptive circulars.

COTTON PRESSES.

We are manufacturing for the crop of 1867, an improvement on the Bullock press, which will meet all the requirements of cotton packing. It can be worked by hand, horse or steam power. Can be used out doors or in a building; is rapid in its working; of immense power, and makes a bale of exactly the proper size.
