FASSMAN'S IRON TIES FOR COTTON BALS. THE undersigned have made extensive arrangements to supply the demand for these Ties the present season. In addition to the FASSMAN DIAMOND TIE and BUTTON TIE, so extensively used heretofore, they now offer his ALLIGATOR TIE, with teeth so arranged as to instantly clamp the loop when the pressure is removed from the bale, and hold it without slipping. Great pains have been taken to secure the best of iron. These Ties are so simple in their arrangement that they can be applied by any man, to bales of any size, with the same facility and expedition as rope. In strength, security and facility of application, they will compare favorably with any yet introduced. The advantages of Iron Ties are now generally recognized, but it is deemed not out of place to call the attention of those interested to the very emphatic recommendation of Underwriters, Steamboat Captains, and Owners and Agents of Sea Steamers and Sailing Vessels, recently published in the newspapers in New Orleans.
