

**NEW YORK WORLD.**  
**THE WORLD!**  
FOR  
**1873.**

**A NEW POLITICAL ERA IS OPENING** before the country. The negro cycle of our politics has rounded to its conclusion through civil war, social violence, industrial disorder, and has ended in giving freedom to four millions of the negro race, and the ballot to its adult males. The politics of this new era will come home to every man's business and bosom as never before, being vital to private prosperity and the maintenance of a Democratic Republic.

For not only are the manifold encroachments of Federal upon State powers and of both upon the large liberty of American freemen now as always to be repelled with ceaseless vigilance; not only is home rule or local self-government now as always to be maintained for the best guarantee of civil liberty and of national greatness, but besides, the victories of peace which are to give splendor to the new political era must be won against every advantage which even enemies of free institutions could desire or possess.

A gigantic Debt, which the honor of the country is pledged to pay, encumbers all our industries with its oppressive burden. Nevertheless our systems of Municipal and State Taxation are crude, unequal, and defraud the poor to release the rich. Nevertheless our system of Federal Taxation is such an infamous masterpiece of ignorance and inequity, put to the vile uses of monopolists and favorites and thieves, as never anywhere has disgraced modern civilization since Louis XIV. with his methods of taxation rather than his amount, paralyzed the industries of France. And along with the Tariff, which prohibits the export of our manufactures, abridges the number of our industries, cuts down the profit upon the exports from all our farms, plantations and mines, abolishes our shipping from the high seas, and filches \$5 from the people's pockets every time it puts \$1 into the United States Treasury—along with this engine of oppression, simony, and fraud goes a Currency of fluctuating value as the measures of value in every act of domestic exchange.

Whatever parties may rise or fall, whatever their defeats or triumphs, and whatever their names, THE WORLD now and always will remain the undivided champion of a LIBERAL PROGRESSIVE DEMOCRACY where of Freedom defended and defined by Justice, is the polar star.

As a vehicle of News, The World will spare no expense, no energy, to maintain and advance its place in the first rank of metropolitan journals. Its fresh, abundant, various and accurate news, comprising the whole circle of current intelligence and literature, will be discussed as becomes a

TRUSTWORTHY ORGAN OF OPINION, with candor, with steady devotion to sound public and private morals, with special knowledge for special themes, and with various and wide-reaching apprehension of the manifold interests of men and women in their homes, their market-places, their work-shops and their farms.

**MANHOOD:**  
**How Lost, How Restored.**

JUST PUBLISHED, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the radiant cure of certain weaknesses, the effects of Errors and Abuses in early life.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of such errors and abuses may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land. Sent, under seal, in plain envelope, to any address, post-paid, on receipt of six cents, or two post-stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents.

**Sewing Machine Sales for 1871.** THE MAGNITUDE TO WHICH the Sewing Machine business has grown is only surpassed by the rivalry of the various competitors, few of whom are unfamiliar with the various articles resorted to for the commendation and sale of the particular machine sought to be sold.

If the number of sales be any criterion of the merits of the different machines, it cannot be denied that the Singer, owing to the popularity of what is known as our *New Family* machine far surpasses all others, for we sold in 1871 over fifty-two thousand more machines than any other company, as shown by sworn returns of the companies, which returns are made under the licenses granted them by the owners of the sewing machine patents. Annexed are the returns spoken of.

**The Memorable Fire of Chicago**

Has given such an opportunity of showing—as it is much to be hoped may never occur again—how the citizens of that city at least regard the different machines claiming public attention. It is stated in the Report of the SPECIAL RELIEF COMMITTEE, as published in the Chicago Tribune, (March 9th,) that the whole number of Sewing Machines for which orders have been issued to the date of this report is 2944, on which the Committee have paid the sum of \$71,430 89. The number supplied by each company is as follows:

THE SINGER.....	2427
Wheeler & Wilson.....	235
Howe.....	127
Grover & Baker.....	44
Wilcox & Gibbs.....	20
Florence.....	18
Finkle & Lyon.....	17
Bless.....	20
Elliptic.....	11
Wilson.....	5
Western Empire.....	2
Manhattan.....	2
Davis.....	2
Elliptic.....	2
Gold Medal.....	1
American Button Hole.....	1

"The applicant in every case has designated the kind of machine desired."

The returns of sales of the different sewing machines, during the year 1871, show the Singer machine to be by far the most popular of all in the market, the number sold being 181,260, out of a total of 610,194 of twenty-five different patterns. It appears, too, that the Chicago Relief Committee, which undertook to furnish sewing machines to persons needing them, supplied 2427 Singer machines against 517 of all other kinds. This preference for the Singer machine is due to its intrinsic superiority, and seems likely to be maintained against all competition.—[New York Sun.

Which is the best machine, is a point on which different companies differ each, of course, thinks its own the best. One may have advantages for one kind of work, and another for another. But if the point were to be decided by popularity, the Singer machine would outstrip all others.—[N. Y. Evangelist.
