Throat and Lungs such as Coughs, Colds,

The reputation it has attai the marvellous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every section of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. All who have tried it, acknowledge its superiority; and where its virtues are known, no one hesitates as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affec-tions. Cheery Pectoral always affords instant relief, and performs rapid cures of the milder varieties of bronchial disorder, as well as

the more formidable diseases of the lungs. As a safeguard to children, amid the distress ing diseases which beset the Throat and Chest of Childhood, it is invaluable; for, by its timely use, multitudes are rescued and restored to health.

This medicine gains friends at every trial, as the cures it is constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it never will. Eminent Physicians throughout the country
