Now if you need a good stove call on Bauer & Weil, where you will find a good assortment at very low prices.

PROCEEDINGS OF RAPIDES PARISH EXECUTIVE COMMITTEES.

At the meeting of the two Executive Committees, held in Alexandria on Saturday, Sept. 17th, 1887, the Swann Committee being held at the office of Edwin G. Hunter, Esq., and the Thornton Committee being held at the office of Judge J. R. Thornton, the following correspondence was had and settlement made. The Thornton Committee through a committee composed of Messrs. Seip, Bolton and Pearce, submitted to the Swann Committee the following proposition:

MEMORANDUM.

1. The two committees to unite in a call for a Convention. 2. The Convention when assembled and organized to select delegates to the State Convention and to appoint a new Parish Executive Committee.

3. Both these objects to be specified in the call, and due publication to be made of the time and place, so as to give ample notice in all parts of the Parish.

4. The basis of representation of the wards shall be one delegate for every twenty-five votes or ten or over, cast at either the last Presidential or State election.

5. The time of holding the Parish Convention shall be fixed as soon as the State Central Committee shall have made the call for the State Convention by the chairman of the two committees giving all the time and notice possible.

6. The ward meetings to select delegates shall be held at 11 o'clock, a. m., on the Saturday before the meeting of the Parish Convention.

7. When the Convention assembled it shall be called to order by the authority of said committees, but the authority of said committees shall extend no further than to preside until the Convention shall have selected its temporary chairman.

8. In case more than one name is put in nomination for temporary chairman the list of the delegates from the wards from which there are no contesting delegations, shall be called by the Secretary by wards, and the person receiving the majority of the votes of the uncontested delegates shall be the temporary president of the Convention, and he shall immediately take charge of the Convention and the said delegates thereupon retire from the President's stand.

9. In case the chairman of either committee is selected to call the Convention to order, the Secretary of the other committee shall act as temporary Secretary, until the Convention shall have chosen its own temporary Secretary, when the two shall retire.

10. Both committees to hand in their resignation to the Convention when it is organized through their respective chairmen, and before adjourning, the Convention shall appoint an Executive Committee, which shall serve until the beginning of the State campaign of 1891.

11. This shall be a final settlement of all matters now in controversy between the two Parish Executive Committees.

12. It is understood that this agreement is reached in the interest of harmony in the Democratic ranks in this Parish, and to prevent the placing of two local tickets before the people, and the sending of contesting delegations from this Parish to the State Convention—and that neither committee is to be considered as having yielded anything to the other, the concessions herein provided for being considered as equivalents.

After consideration the Swann committee, through Messrs. Luckett, Tanner and Hunter, made the following reply:

To the members of the Thornton committee: Gentlemen—We have considered the writing submitted to us by yourselves, and consider that it is no proposition at all, as it does not meet a single issue and settles nothing. In reply to it we desire to say that we are in session for the purpose of creating harmony in the Democratic ranks, if we can do so without sacrifice of principle. Now, in order to put an end to the division within the Democratic ranks we make you the following propositions:

1st. That Mr. Swann join Mr. Thornton in a call for a convention to elect delegates to the Baton Rouge convention. That the convention be called to order by either or both chairmen. That said convention shall appoint a new Executive committee to be composed of two members from each ward, one to be named from each ward by the Swann faction and one by the Thornton faction. It is understood that this is made to avoid future trouble between the Democrats in that convention and to make a final settlement of the troubles between these committees. It is also understood that if this is not done that this committee is not bound by the fact that Mr. Swann joined in the call for the convention, and that the status of the committees shall remain as of to-day.

Or—That there shall be a committee of two from each ward, one from each ward to be selected by the Swann committee and one by the Thornton committee. Said committee as formed shall elect its officers and organize to-day. If they can agree to a chairman outside of either committee they shall have the power to do so, if not then they shall elect the officers from the twenty names selected by the committees.

The Thornton committee then submitted the following: To the President and Members of the Committee of which J. J. Swann Esq., is chairman: Gentlemen—In reply to your communication in response to our's of this morning we have to say: That we submitted our first proposition with a view of having a Convention coming fresh from the people, and called by the joint authority of both committees, to settle the differences existing in the party ranks, and we did not suppose that there could be any valid objection to submitting the matter to the people themselves.

All the details of representation of the wards were provided for to prevent possible differences hereafter, and to guide the two chairmen in calling the Convention. In response to your assertion that this is "no proposition at all, as it does not meet a single issue and settles nothing," we are obliged to reiterate our first conviction, that it meets every issue, and would settle all differences. We do not claim that either committee has the authority to in any way bind the convention when it assembles, as to the appointment of such an Executive Committee as you propose, nor would that plan in fact settle any difference, since the result of equal representation on the basis of the present division would simply substitute a divided single committee in the stead of the two committees, and nothing would be settled.

Give Them A Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but thousands of little tubes and cavities leading from them. When these are clogged and choked with matter which ought not to be there, your lungs cannot half do well. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all bad. All ought to be got rid of.—There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain. Do not fail to try it.

QUILTS, comforts and blankets. Bauer & Weil have a large line at wholesale and retail. A good comfort for 75 cents and upward. A good pair of blankets for \$1.50 and upward. A good quilt for \$1 and upward. Remember the place, Bauer & Weil, corner Second and Jackson streets, sign of the Red Plow.

SCHOOL BOARD.—It was resolved that the Public Schools throughout the Parish be opened on the 1st Monday in October, 1887, to be continued for a period of four months, provided that in localities where the patrons of said schools prefer that they should not open until November 1st, 1887, their wishes be complied with, and that the four months school granted them in such cases commence from said November 1st, 1887, and continue for said four months, and resolved further in the event school finances should justify the same that the public schools be continued for a further period, to be determined by the Board at next meeting.

THE COTTON COMPRESS—A successful test of the Alexandria Cotton Compress was made on Saturday last, in the presence of quite a crowd, among the number being a few ladies. Fifty bales, the property of Wm. Hill & Co., cotton buyers here, were compressed in a short while, and that too to the satisfaction of all the owners; among the number being Mr. J. C. Denis, of New Orleans, who is vice-president and general manager, also Mr. Richard Herrick, of the same place, who owns large stock in the compress. The buildings around the press, warehouse, sheds, etc., will be finished by the 1st of the coming month—at that time the press will be started in earnest and kept under way until all the business expected in that line is completed—40,000 is calculated on as this year's business. The compress is capable of exerting a pressure of 1200 tons on a bale, and was built by Wm. Golding, of New Orleans, and is of the Tyler make. It was brought here from Algiers, where it was used in the Morgan yards, and did good service. There are three tubular boilers, 16 feet long, and 62 inches in diameter, with a combined 120 horse power.

Capt. T. M. Miles, is the general superintendent at the press; and has permanently located here, and all who have the pleasure of his acquaintance know that he is the right man in the right place. So our Compress is O. K. Hoop-la! Go it boots! Hurra for Alexandria! Hurra!

How hard to realize that Death is again in our midst. Is there no time of respite to the cravings of the hungry soul? Allowing scarce an interval of two years when that relentless foe of man, revisits this home, depriving it of the most cherished member, stealing the "brightest gem from its casket" withering the final hopes of the devoted parent whom, methinks, I can still hear calling upon her, who lay cold and still in the icy arms of death—"Webb, darling baby, come back to me," in accents of the deepest distress.

Gloomy and desolate is now the hearthstone around which gather the three aged mourners—stricken ere her young heart had known grief or sin, we feel certain she is gone to that home prepared by the Saviour, above in that "house of many mansions."

Nothing can be said or done to recall her dear form from the cold embrace of the grave; her, who but a few days ago was in our midst, among the gayest, and though to her dear, stricken ones we extend our deepest sympathy, nothing can assuage their grief.

Womanhood just almost dawning, On your girlish, happy heart; When the all avenging angel, Snatched you from your friends apart. Sleep in peace now, Webb, darling; Whilst your spirit soars on high; To its maker who will greet it, In that long sweet "by and by." LECOMTE.
