

FOR PRESENT, IN 1848, MAJOR GENERAL ZACHARY TAYLOR, OF LOUISIANA, THE HERO OF PALO ALTO, RESACA DE LA PALMA, MONTEREY, And Buena Vista.

Subject to the decision of the Whig National Convention.

Notice.—The subscribers to the National Whig are respectfully requested not to pay the money which may be due for the paper to any one but to me in person.

TRAVELLING AGENTS wanted for the NATIONAL WHIG in the several States. Apply to the Proprietor, C. W. Fenton, either in person or by letter.

"LIBERTY" is informed that the manuscript of his communication has been destroyed. We used such parts of it as we had room for at the time, and threw the rest aside.

EXTRA SESSION.—A rumor is afloat in the city that the President proposes calling an extra session of the next Congress at an early day.

A Terrible Crisis at hand. SEIZURE OF CATHOLIC CHURCH PROPERTY IN MEXICO DETERMINED ON BY MR. POLK.

It is not as a religious body, but as an engine of state, that the Catholics of Mexico look upon us with a hostile eye. It is for their own special political purposes—to retain their vast possessions, which imperish the nation—to sustain their own hierarchy, which lords it over the people—to preserve their power, which weighs down the rest of the community into the slough of ignorance and slavery—that they are thus solicitous and active.

In this aspect of the case, it may become a matter of grave consideration, if the church continues to oppose a peace and furnish the fuel of war, whether the immense revenues of the church in Mexico shall be left untouched—whether they shall be suffered to remain at the disposal of the enemy, and to be applied to sustain the war against us—whether justice and policy do not equally dictate that they should at least be sequestered during the continuance of the war as a legitimate means of cutting off the enemy's supplies.

The experience we have already had on this point leads to another suggestion. Cannot Mexico be prevailed upon to adopt a more tolerant system? Could not the two nations agree that reciprocal stipulations should be made, for the free and unrestricted enjoyment of religious liberty within the territories of both nations? Independently of the great good which would thereby result to the whole Christian commonwealth, and to ourselves as constituting a part of it, it may with perfect truth be said, that no greater blessing—no higher or more substantial benefit could be bestowed upon Mexico herself. It may well be doubted whether such an arrangement would not be productive of advantages to both countries, which would more than compensate for all the expenses and losses of the war; and our invasion of Mexico be the parent of her general civilization, diffused intelligence, wide-spread happiness, and solid prosperity.—Washington Union, May 11.

Will peace follow our most glorious success at Sierra Gorda? This is a reflection which occupied the thoughts of every rational man. Some, however, there are, who are so completely imbued with Mexican politics, that believe otherwise; and that the people of this country, rather than enter into terms of peace, either honorable or dishonorable to it and the United States, would prefer a military occupation.—Well then be it so—it behoves the Government of the United States to look around; let it sum up the force in time necessary for military occupation, should the same be found requisite, and see if that plan can be accomplished. We think, candidly speaking, the following force will be required only:

Table with 2 columns: Regiment/Location and Number of Regiments. Includes Vera Cruz, Jalapa, Puebla, Mexico, Queretaro, Matamoros, Oajaca.

Making in all 47 regiments, amounting, according to the present regulations of the United States, to 40,000 men, which to a certainty would be enough to carry out the military occupation of the country. The expenses of these 40,000 troops will amount to \$15,000,000 per annum which we shall have to pay. We can raise \$20,000,000 annually from Mexico, by customs and direct taxes, besides sales of public lands.

Vera Cruz Eagle, April 22. We have taken the pains to republish the above extracts from the two leading journals in the confidence of the Administration—the one under the nose of the President himself and the other under the eye of the Commander-in-Chief of the Army of the United States—for the express purpose of letting our readers see the real object of this war against Mexico. It has been repeatedly charged that the real policy of the Administration was to get possession of the whole of Mexico, and with a view to its entire subjugation, to make the war, a war of races and of religion. This charge has been stoutly denied by the Administration press and leaders, until it is now openly avowed by the Union in the extract which we have made from its leading article of Tuesday night that such is the policy of the government.

ALBANY, May 10.—The canal toll for the last week will exceed 200,000 dollars. Lake Champlain is open. The Laranc and Lallus reached St. Johns on Friday, where they landed 700 passengers from Montreal. Boats commenced their trips to Quebec on Thursday. The Lake below Sorel was full of ice. May day at Nicolet was celebrated by planting a May Pole covered with ribbons on the ice. The Evangelical Alliance has to use the language of Mr. Wick, "fizzled out." It opened with a flourish of trumpets, and proclaimed Christian Union as its sole object. Before its sessions closed, it threw aside the Gospel of Christ, and made a new Gospel for credence in which a new commandment was enacted, viz. Thou shalt keep thy fellow man in bondage. The whole number who signed the articles are 194 servants of Christ.

Though some may think them out of place, These lines are here to fill the space!

the public, that the Administration has determined to seize upon the property of the Catholic church in Mexico, and to devote it to the sustenance of our armies in the war against that country, and that one of the grand objects of the war is to break down the church as a state power, and establish religious toleration among the Mexican people. We invoke the attention of the reader again and again to this remarkable revelation of the policy of our Government—and also to the feeler put out by the Vera Cruz Eagle respecting the military occupation of Mexico. We said some days ago that the Administration was preparing to spring upon the country the question of the annihilation of Mexico—and lo, our prediction is already fulfilled. The Vera Cruz Eagle brings it forward in all its amplitude of detail, and the Union proclaims to the world that our watchwords, hereafter, are to be—Down with the Mexican Catholic church, and up with the banner of Toleration—Seizure of the Catholic church property in Mexico for the expenses of the war!

It will remain for the people of the United States to say whether they will permit President Polk, independently of Congress, to reduce all Mexico under the military dominion of the United States, by enforcing, of his own free will and power, tariff laws for the Mexican ports, and by seizing upon the treasures and property of the Mexican Catholic church, to defray the expenditures of the reduction and occupation of the territory of Mexico. We are evidently on the eve of a terrible crisis!

TELEGRAPHIC.

Telegraphic Correspondence of the National Whig, FREDERICKSBURG, May 12, 1847. No Southern news. Petersburg District Election doubtful.

THE NAVY YARD.—The following extract from a letter of the able correspondent of the Phil. North American will no doubt be gratifying to our friends in that section of our city. The Navy Yard, where the idea of the illumination was first suggested, did itself infinite credit by its display. Almost every house and cabin, together with all the public workshops and vessels were gorgeously lighted up, while the immense multitude were regaled with an unusually fine display of fireworks. Bonfires were to be seen in all directions, and constant peals of merry bells, interspersed with "thunders of applause" from cannon at various points, and showers of pyrotechnic stars gave zest and happiness to the occasion, which was felt and expressed on all sides.

Capt. WRIGHTMAN, who unlimbered his battery within fifty yards of the redoubts of the Mexicans at Sacramento, received his military education at West Point. He is the son of one of our most esteemed citizens, and has done honor to his native city, and gratified in no small degree, his relatives and friends, by his gallant bearing on that occasion.

A report was current yesterday, says the N. O. Bulletin of the 4th instant, said to be founded on a letter from Vera Cruz, that SANTA ANNA had been shot. We shall not be surprised to learn that such has been the case.

CAPT. S. H. WALKER.—The steamship Mary Kingsland left New Orleans on the 3d instant for Vera Cruz with 150 men and horses, belonging to the command of Captain Walker, of the Rifles.

The Nashua Telegraph, the editor of a Whig member of the N. H. Legislature, has not seen the least evidence that Gen. Taylor is the first choice of any individual for the Presidency. Boston (Tory) Post.

No wonder—his vision is obstructed by a fat Government advertisement!

NAVAL.—The U. S. Schooner Flirt Lieut. Comdr J. S. Palmer, sailed on Monday from Hampton Roads for the Gulf. The U. S. Steamer Polk, Com'r Ogden, arrived at New York last Wednesday, 4 days hence. The Schooner Spitfire with apparatus on board for raising the U. S. Brig Somers was to sail from Lambert's Point for the Gulf yesterday. The U. S. Brig Perry sailed from New York for the coast of Africa on Friday last.

ROUGH AND READY SOAP.—Lloyd's Rough and Ready Soap, advertised in another column by Stott, Druggist, we can recommend to every body, and especially to our Tory friends now in Office. If they will use it every day it will cleanse them of every particle of Toryism, and they will then be able to stand in the presence of old Zach in 1849, with some degree of self-respect and comfort. It is a real Whig Soap—balsamic, softening, refreshing, civilizing.

During the New York illumination one man, who was houseless and landless, walked about with a transparent hat—"Rough and Ready" shone in illuminated letters upon that covering of his head.

ALBANY, May 10.—The canal toll for the last week will exceed 200,000 dollars. Lake Champlain is open. The Laranc and Lallus reached St. Johns on Friday, where they landed 700 passengers from Montreal.

Boats commenced their trips to Quebec on Thursday. The Lake below Sorel was full of ice. May day at Nicolet was celebrated by planting a May Pole covered with ribbons on the ice.

The Evangelical Alliance has to use the language of Mr. Wick, "fizzled out." It opened with a flourish of trumpets, and proclaimed Christian Union as its sole object. Before its sessions closed, it threw aside the Gospel of Christ, and made a new Gospel for credence in which a new commandment was enacted, viz. Thou shalt keep thy fellow man in bondage. The whole number who signed the articles are 194 servants of Christ.

Though some may think them out of place, These lines are here to fill the space!

The Eaton, (Ohio) Register of the 6th instant contains a notice of a sad and unusual dispensation of Providence, from which we copy the following:

DIED.—On the 24th ult., Dr. Peleg Whitridge, aged 51 years. On the 29th ult. Dr. John C. Whitridge, aged 53 years.

On the 2nd inst. L. W. Whitridge, aged 39 years. The deceased all died of an acute affection of the lungs. They were all brothers, and residents of the town of New Paris, in this county—all in the prime of life, active, enterprising business men.

General Taylor's name, says the Louisville Journal, is now at the head of the columns of nearly every Whig paper in the country. And when was Old Rough and Ready known to be otherwise than invincible at the head of columns?

We learn that the Hon. J. M. Berrien was expected to return to Savannah on or about the 15th instant.

The Magnetic Telegraph. The great Southern line of the Magnetic Telegraph will be erected soon. This line will pass through Augusta, and it has been decided that from thence it shall go through Macon, intersecting the Central Railroad at the ninety mile station.

The editor of the Washington Union, says the Louisville Journal, seems to think it may be necessary for him to enlarge his paper to make room for his official advertisements. 'Can you eat any more, Billy?' said a mother to her pet who had stuffed himself to the throat. 'I rather guess I could, mother, if I were to loosen my belt.'

St. Louis, May 3d.—Col. Burn's body has been found in a ravine, where it was taken after the committal of a barbarous murder. A trader arrived here from Santa Fe who left 8 days after Sublette, reports all quiet there. Nothing had been heard from Chihuahua. A half million dollars has been remitted to Santa Fe.

We learn from the New York Herald that Mr. Walker is confined to his room, and his physicians entertain doubts of his ultimate recovery. His disease is inflammation of the bronchia, and his medical attendants apprehend a sympathetic inflammation of the lungs, or that acute inflammation of the bronchia may at any moment ensue. He has been enjoined to preserve absolute silence, and all business is positively interdicted.

It is said, though we do not vouch for the statement, that the Tories caused the speech of Mr. Corwin to be done into Spanish and sent it to Mexico by Mr. Atocha!

If our merchants here ever buy Detroit flour, let them beware of short weight, as the Wolverines have been detected in a fraud of this kind.

Santa Anna, it is stated, says he is willing to fight regulars and men who fight for glory; but he never wants to fight men again who fight for fun. He says they would shoot his men and then throw up their hats and halloo! He don't understand this.

NEGRO HIGH SCHOOL.—There is a school of this sort in Cincinnati that boasts of 200 pupils, one-fourth of whom are charity boys. At the last examination of the pupils, over 1000 spectators were present, and the papers describe the proficiency of the children as very remarkable. They excelled most in music, instrumental and vocal.

A German journal states that the application of Galvanism has been made in Austria for preserving trees from the ravages of insects. The process is simple; consisting only in placing two rings, one of copper and the other of zinc, attached together, around the tree or plant. Any insect that touches the copper, it is said, receives an electric shock, which kills it or causes it to fall to the ground.

HANDS OFF.—B. H. Wright, of New York, informs the public that Don Jose Garay, to whom the Mexican Government granted a charter to build a canal across the isthmus of Tehuantepec, has transferred his privilege to a company in London, who are only waiting for peace between us and Mexico to commence operations. Mr. Polk may now "hang up his fiddle" in this matter, for the right to the isthmus having been granted to a neutral before the war, cannot be taken away by this Government.

The New Orleans Southerner has an article bespattering Mr. Walker with praise. The columns of this journal rejoice in government advertisements!

DAVID TOP, the new minister to Brazil, is in New York on his way to Rio Janeiro. Wonder whether he intends to make the journey on foot?

Fire in the Ohio State Prison.—A fire broke out in the shops of Messrs. P. Hayden & Co., in the Ohio State Prison at Columbus, on the 7th instant, which consumed the entire eastern wing of shops, about 150 feet in length, and two stories high.

The dwelling of Mr. Stephen Ingram, in Schuyler county, Missouri, was destroyed by fire on the 22d ult., and his wife and six children perished in the flames.

A Taylor meeting is about to be held at Corydon, Ia. All the folks in that neighborhood are for the old hero.

Is this no sign?—The steamboat Luna arrived here, says the Louisville Journal, two or three days ago from New Orleans, with 50 passengers in the cabin, and 81 on deck. Just before her arrival, a vote upon the next Presidency was taken on board of her, and strange as some may think it, every man, woman, boy, girl, and child, in cabin and on deck, was for Old Rough and Ready! Doesn't this look like an election by acclamation?

SHOCKING MURDER.—Mr. Thomas Jefferson Green, an old resident of this county, says the Vicksburg Sentinel of the 30th ult., was murdered on Tuesday last by two of his own negroes. It appears that he was held by one while the other despatched him by repeated blows with an axe. They then took the body to a suitable spot and cut a tree so that it fell directly across it, and came to the house with the report that the tree had so fallen without design.

A Governess, advertising for a situation, says 'she is perfect mistress of her own tongue.'

The House of Representatives of Louisiana have rejected the vote of thanks to Gen. Taylor that had passed the Senate. They would not have it, eviscerated as it was by the Tories of its very life-blood. They are resolved to give the old Hero the vote of Louisiana, and the Tory Senate cannot cheat the people out of their determination.

PORTRAIT OF GEN. TAYLOR.—Our thanks, says the New Orleans Bee, are due to Mr. CHATELAIN, for a lithograph of Gen. TAYLOR taken from a picture of the old Hero drawn by Mr. C. from nature. The likeness is perfect, and the expression precisely that of Old Rough and Ready. Can't Mr. Chatelain send us a copy? Our friends of the Bee will please ask him the favor for us, and send it by mail to "National Whig."

A convention is to meet at Indianapolis today, with a view of producing concert of action and determining on some plan for the construction of a railroad between Cincinnati and St. Louis.

The Buffalo Advertiser states that Lieut. Woodruff, of the topographical engineers, who has been for several years engaged in the survey of the Lakes, has been called to Washington, for distant orders. It is surmised that he will be directed to make an examination of the Isthmus of Tehuantepec, with reference to the now much talked of ship canal to connect the Atlantic and Pacific Oceans. Of course, it is perfectly constitutional to pay the money and employ the talent of the country, to make reconnaissances for improving foreign countries, but if an engineer's services are wanted to lay the route for a canal around the falls of St. Peters, it is a horrible violation of the Constitution and the Revolutions of 1798!

We learn from the Macon Journal & Messenger, that Mr. Reynolds, Chief Engineer of the Central Road, is at present surveying the route from Macon to Columbus. No route wants an iron road more than this does!

SOMETHING FOR MR. POLK TO READ.—A military man becomes so sick of bloody scenes in war, that at peace he is averse to re-commence them. I wish that the first minister who is called to decide on Peace or War, had only seen actual service. What pains would he not take to seek in mediation and compromise the means of avoiding the effusion of so much blood! It is ignorance, and levity, which is always cruel, which makes cabinets lean to the side of war.—PRINCE EUGENE.

Christopher Carson, well known to the pioneers of the West, and Fremont's guide in his explorations of the Oregon and California Territories, has been appointed Indian Agent among the tribes of his former hunting and trading grounds, at a salary of \$750 per annum.

No man can tell how long a time must elapse before the Mexican war will be brought to a close. Washington Union.

How long is it since the country was led by the chairman of the Committee of Foreign Relations in the Senate and by the chairman of the Committee of Foreign Relations in the House of Representatives, and by the Washington Union, and by all the Locofoco organs in the land, that if Mr. Polk could only get the three millions of dollars he asked for, he would certainly be able to bring about a peace forthwith?—Louisville Journal.

On the 27th of February last—a little more than 60 days ago. But what are Tory promises? Soap bubbles that break by their very nature!

Why is a newspaper like a tooth brush? Dye give it up! Because everybody should have one of his own, and not borrow his neighbor's.—Mobile Tribune. Do you hear that, folks? Come then and order the National Whig.

THE TELEGRAPH.—We commend the following extract from the Pittsburgh Gazette to the especial attention of our friends of the Cincinnati Atlas and Gazette, hoping that the news will be very agreeable to them.

The Telegraph line west from this city will be commenced in a few days. Contracts have been authorized from Pittsburg to Cleveland, and from Pittsburg to Louisville, and on some portions of the line contracts have been made for the work. There is a prospect that the line may be completed to the Lakes and Louisville in the month of July.

A Professorship of the Chinese language has been established at King's College, London. Phil. North American.

The Board of Regents of the Smithsonian Institute ought to establish a similar professorship and call Dr. Parker or Dr. Morrison to the Chair.

The receipts of lead at St. Louis for 1845, were 176,000 pigs—for 1846, 136,000—and the present year they have only been 40,000 pigs.

GREAT TAYLOR MEETING IN NASHVILLE.—A meeting of the friends of General Taylor, says the Louisville Journal of Monday, without distinction of party, is to be held at the courthouse in Nashville to-morrow. No doubt a great many Locofocos will be at the meeting and unite in old Rough's nomination for the Presidency.

LOCAL INTELLIGENCE.

The bill making an appropriation for the removal of the dust and rubbish from Pennsylvania Avenue, between Sixth and Fifteenth streets, has passed both branches of the City Councils. Thank you, gentlemen, for this small favor.

The May Ball, at Carusi's last night, was numerously attended. Miss Elliot, of Capitol Hill, we are informed, was crowned queen.

The operatives at the Arsenal are still manufacturing missiles for the war.

Mr. Buchanan, who has been sick for the last four or five days, is improving in health.

A little boy, this morning, who fell while endeavoring to "cut behind" a carriage, sustained no other damage than did one of our Secretaries a few years since, as he arose from a jagged chair.

The Board of Common Council has passed a bill prohibiting the throwing of stones and other missiles in the streets. It would be well, as warm weather is approaching, to enforce the law "throwing" fetid animal and vegetable substances in the streets. Cleanliness is preservative of health.

The Hon. G. M. Dallas, who has been in the city attending to affairs connected with the Smithsonian Institution, left Washington, in the cars, yesterday.

The "Taylor stock" was firm in the city, today. Holders were firm, no sellers, and, with just grounds, a greater rise was anticipated.

LYOYD'S ROUGH AND READY SAND SOAP, AND TABLETS,

FOR CLEANSING, WHITENING, AND BEAUTIFYING THE HANDS. LLOYD'S has ingeniously succeeded in inventing a Compound of such a delightful nature as to render the hardest and roughest skin soft, fair, and delicately white.

Ladies Riding, Gardening, or Painting, and Gentlemen Shooting, Hunting, Fishing, Cricketing, Rowing, &c., or any amusement or exertion prejudicial to the hands, will find the improved ROUGH AND READY WASH BALLS and TABLETS pleasantly efficacious in removing all hardness, stains, redness, and all other cutaneous disfigurements, preventing and rendering the skin soft, fair, and pliable. From the nice combination of Balsamic ingredients introduced into the composition, they form a fine Creamy Lather, with the hardest or Sea Water, which renders them very desirable for Salt Water Baths. They produce the most softening and refreshing sensation, and will be found an excellent substitute for the Flesh Brush. They are highly recommended to Captains of Ships, Merchants, and all who trade with foreign countries, as they will retain their virtue in any climate. For sale by CHAS. D. R. C. A. Van Zandt's Health Restorative Pills is a medicine which not only cures but prevents disease, capable of great results, and equally calculated to be safely used for apparently small ones. We all know how dreadful and dangerous a seated bilious disorder is, and we are also well aware of the seeming insignificance of its first warnings or incipency. The individual suffering from slight pains in his chest, back, or stomach, or from occasional nausea, dull headache, extreme nervousness, sleeplessness, trifling privation of appetite, and other disagreeable visitations so commonly and foolishly looked upon as unimportant, may not know that these symptoms, treated so contemptuously, are the consequences of a diseased state of the liver, which if not remedied, will lead either to speedy death or a long train of unbearable ills which are known by the following names: Hypochondria, mania, dizziness, slow fever, epilepsy, asthma, dropsy, rheumatism, chlorosis, convulsions, nausea, nervousness, cramps, gout, pleurisy, jaundice, irritability, and violence, dyspepsia, hysteria, scurvy, foul stomach, dry coughs, glandular affections, colds, lingering sore throats, various disorganizations of the great intestine, strictures and spasmodic complaints internally, eruptions, shortness of breath, heartburn, neuralgia, vital inflammation, flatulency, gastric fever, &c.

Sometimes, too, there ensues an irregular action of the heart. Take these pills and suffer no more. WYATT & KETCHUM, 131 Fulton st., N. Y. General Agents; and sold by CHARLES STOTT, april 24-6mo.

A CARD.

L. S. BECK would take this method of notifying his friends and public generally that he has removed his House Furnishing Store from Pennsylvania avenue to E street north opposite Rev. O. B.
