They have been used already with the greatest
success, in many obstinate cases of impurity of the

Scrofula, palpitation of the heart, chronic head-
ache and Rheumatism. They are indeed a happy
combination of powerful, yet safe and salutary
vegetable remedies, of a sterling and unimpeach-
able reputation. They have won their popularity
solely by their intrinsic merits, and that they have
been successful, numerous certificates in the

sales fully attest. Those desirous of an agreeable
yet efficient tonic or alternative medicine, need
seek no further, for in this preparation they will

ANOTHER WONDERFUL CURE!

PHILADELPHIA, April 9, 1846.
Last August a year, I caught a violent cold, in
consequence of getting wet in a shower of rain.
A circumstance so common gave me no immediate
concern, supposing that I should soon get rid of it.
On the contrary, however, I daily grew worse; a
violent cough set in, then pain in my breast and
pressure on my shoulders. I now suffered great op-
pression from the great secretion of purulent mat-
ter in my lungs. I became greatly alarmed; and
my friends considered my situation extremely
critical, the more so as loss of appetite, hectic
fever, and night sweats rendered me as weak as
a child, and at night the sweat literally poured
off me! This was my condition when I commenced
using "Thomson's Compound Syrup of Tar and
Wood Naphtha." I procured one bottle, and ex-
perienced so much benefit that I resolved to con-
tinue it. It is now six months since I ceased using
the medicine, and the cure remains perfect. I
firmly believe this medicine is far superior to
every other remedy for Consumption of the Lungs.

RESTORATIVE FRANCAISE. CONSUMPTION.

LOUIS FONTAIN, jr., partner of the firm of
Pentain & Son, Chemists and Prescription-
ists to the Royal University, Paris, has established
at Washington City, D. C., a depot for the sale of
the above celebrated compound, at Wm. Adams's
Bookstore, No. 3, Elliott's Buildings Pennsylvania
Avenue, near Jackson Hall, which they offer
to the American public as a sure antidote for Con-
sumption, in its advanced as well as incipient stages.
Acting directly upon the LUNGS, and arresting
their decay, it not only soothes and quiets at once
the distress and pain attendant upon this hereto-
fore regarded fatal disease, but restores the lungs
and their sympathizing organs, to natural and healthy
action. Accompanying each package are general
instructions and directions (translated) for its
use, adapted to all cases, and if strictly followed,
will not fail, in every instance—if the lungs are
not wholly consumed—of restoring to health
which may be permanently secured by future care
and avoiding too much exposure to atmospheric
changes. LOUIS FONTAIN.

Price, eight Francs.

For the information of persons residing in
the interior; any part of the government—he would
state that the remedy is prepared and imported di-
rect from their Laboratories, Paris, and that the
same can be transported through mail, as he is ad-
vised by officers of the Post Office Department, so
any post office in the country, at the same charge
as for a double letter. Any persons, therefore,
residing distant from this city, who may wish to
avail themselves of the remedy, can do so by ad-
dressing him through the mail, post paid. Two
dollars accompanying an order, will entitle a per-
son to one whole and one third package.

COLLETON BITTERS.

THESE Bitters are purely a vegetable com-
pound, and are offered to the public from
principle of benevolence, under the fullest con-
viction that they will be found a safe and sovereign
remedy for Dyspepsia. They have been triumph-
antly tested, not only by some of the most re-
sponsible families and physicians in the State of
South Carolina, who have furnished ample testi-
mony as to their decided excellence; but also by the
proprietor, who, for ten years, suffered all the gloom
incident to that stubborn and distressing disease.

They possess the peculiar excellence, denied to
most other Bitters, of not proving injurious by con-
tinued use. They contain not a single deleterious
ingredient, and, as seen from the directions which
accompany each bottle, may be given with entire
safety to an infant in the month.

With pleasure, and for the benefit of mankind, I
send you a certificate relative to the Colleton Bitters.

In the year 1838, when the cholera was in
Charleston, S. C., I was compelled to send a servant
to the city. On his return, he was suddenly attack-
ed with most violent pain in his bowels, so much so
as to cause apprehension that he would expire in a
short time, if medical aid could not be procured. I
immediately resorted to the Colleton Bitters, by giv-
ing a wine glass full at a dose. In the course of a
very short time it acted as an emetic, and throwing
him at the same time into a profuse perspiration. I
then continued to give it in small doses, from two to
three tea spoonfuls, which resulted in a happy re-
covery. Since then I have been using it constantly
in my family, in cases of cholera morbus, cholera
infantum, diarrhoea and general debility, and in
every instance found it highly beneficial. Some
constitutions, however, require much larger doses
than others.

JOS. D. JENKINS.
Bluffton, S. C., 1846.

It is with feelings of gratitude as well as pleasure
that I take this method of giving my testimony of
the great estimation which I entertain for your in-
valuable compound. In justice not only to the
medicine, but for the benefit of others who may be suf-
fering from the same malady, Dyspepsia, with which
I was for years afflicted, I feel it a duty incumbent
on me to state that I am now restored to perfect
health. When I commenced taking the Colleton
Bitters it was as a last resort. My debility from in-
digestion was so great that a cure was looked upon
as almost hopeless. After taking it regularly and
perseveringly for some time, my strength and di-
gestive powers were entirely restored. I have never
taken a single dose of any other medicine for more
than five years past. I can now eat the richest food
without any unpleasant feelings whatever. I have
also used Colleton Bitters freely in my family for
cholera infantum, cholera morbus, general debility,
and as a tonic after fever, with great success. As a
family medicine I deem it invaluable, and do con-
scientiously recommend it.

HANDBILLS, &c.

Neatly printed at the Office of the Nat. Whig.

Dr. Christie's Galvanic Rings and Mag- netic Fluid.

THIS remarkable invention, which has received
the almost universal approbation of the medical
profession of Great Britain, comprises an entirely
new application of Galvanism, as a remedial agent,
by means of which the ordinary Galvanic Batteries,
Electric and Magnetic Machines, &c. are entirely
dispensed with, and the mysterious power of Galva-
nism applied without any of the objections which are
inseparable from the general mode now in use.

The Galvanic Rings have been used with entire
success in all cases of rheumatism, acute or chronic,
applying to the head, face, or limbs; gout, tic-dole-
reux, toothache, bronchitis, vertigo, nervous or sick
headache, indigestion, paralysis, palsy, epilepsy, fits,
cramp, palpitation of the heart, apoplexy, stiffness of
the joints, spinal complaints, lumbago, neuralgia,
nervous tremors, dizziness of the head, pains in the
chest and side, general debility, deficiency of ner-
vous and physical energy, and all nervous disorders.
In cases of confirmed dyspepsia, which is simply a
nervous derangement of the digestive organs, they
have been found highly successful. Their extra-
ordinary effects upon the system must be witnessed
to be believed, and as a certain preventive for the
preceding complaints they are equally recommended.

The rings are of different patterns, being made of all
sizes, and of various ornamental patterns, and can
be worn by the most delicate female without the
slightest inconvenience. In fact, the sensation is ra-
ther agreeable than otherwise.

THE GALVANIC BELTS, BRACELETS, BANDS, GAR-
TERS, NECKLACES, &c. &c.—These articles are
adapted to the waist, arms, wrists, limbs, ankles, or
any part of the body with perfect convenience. The
Galvanic Necklaces are used with greater benefit in
cases of bronchitis or affections of the throat gener-
ally; also, in cases of nervous deafness; and with
almost uniform success as a preventive for apoplexy,
epileptic fits, and similar complaints.

Christie's Magnetic Fluid is used in connexion
with the Galvanic Rings, and all their modifications.
This composition has been pronounced by the
French Chemists to be one of the most extraordi-
nary discoveries of modern science. Full explana-
tions and directions accompany it. The combined
inventions are in every way perfectly harmless; they
are at prices within reach of all, and the discoverer
only requests a fair trial, as a test of their surprising
efficacy and permanent benefit.

CHRISTIE'S GALVANIC STRENGTHENING PLAS-
TERS.—These articles form another valuable applica-
tion of the mysterious influence of Galvanism. They
are an important adjunct to the genuine Galvanic
Rings and their modifications, acting upon the same
principle, but having the advantage of more local ap-
plication. They are confidently recommended as a
valuable addition to the speedy cure of rheumatism,
acute or chronic; in all nervous complaints, and as a
positive remedy in cases of pain and weakness in the
chest or back, pain in the side, in asthmatic affections,
and in weakness or oppression of the pulmonary or-
gans. In spinal complaints their effects are of the
most decided character, and they have often been
used with complete success. They are also of the
greatest advantage in pains and weakness of the
breast, and are highly recommended for many of
those complaints to which females are especially li-
able. As an effectual means for strengthening the
system when debilitated with disease and other causes,
as a certain aid in constitutional weakness, as a
preventive for colds, and in all affections of the
chest generally, the Galvanic Strengthening Plas-
ters will be found of great and permanent advan-
tage.

CAUTION. The celebrity and success of the
articles have caused them to be counterfeited by
unprincipled persons. Dr. Christie cautions the
public against spurious imitations. He has but one
authorized agency in each city of the Union, where
the genuine articles can be procured. The only
agents for Washington are—

CHAUNCEY WARRINER has recently added
to his facilities for manufacturing parts of
Watches that may be required, by instruments for
that purpose; and having obtained knowledge of
Watch Repairing by practice in Boston, New York,
Philadelphia and elsewhere, will be able to attend to
whatever may be offered in this department of me-
chanics.

Chronometer, Duplex, Lever, Lepine, and Re-
peating Watches, accurately repaired; also, Common
Watches and Mantel and Eight-day Clocks put in
order, north side Pennsylvania avenue, between
Fourth and Sixth streets, on the corner of
the alley east of Coleman's Hotel, sign of the
Watch with Guard-Key and Chain and Models rep-
resenting the exterior of a self-registering Meteorologi-
cal Observatory.

The above location is in part occupied by STE-
PHEN EDDY, who deals in the American man-
ufactured Patent improved Periscope Spectacle Lens,
an instrument evidently destined to supersede all
other aids to the human vision; judging from testi-
monials of their superior properties over other lenses,
it will only be necessary to refer to observation and
facts to establish for them a far higher character for
usefulness than has hitherto been attained by the
efforts of art and science.

S. Eddy also deals in Jewelry, fine Watches, Sil-
ver Ware, Brown's and other Gold Pens.

The public are respectfully invited to call, particu-
larly those afflicted with defective sight,—nothing
so desirable as its preservation and improvement,—a
little attention in the selection of glasses will accom-
plish the one, in some instance both. It is highly
important to see clearly.

Jewelry repaired, and all kinds of Gold and
Silver Work made to order. Old gold and silver
bought.

THE subscriber would respectfully inform his
friends and the public generally, he has com-
menced the boot and shoe business in all its various
branches on the south side of the avenue, opposite
Wm. Marshall's auction store. My stock is all fresh
new goods, just purchased at the north, and will be
sold for a small advance on the cost price for cash,
and cash only; for, in commencing business again,
I intend to sell for cash, and not, as is too often the
case, sell freely on credit, lose large sums of money,
and then require cash or punctual customers to make
up, in part at least, the losses sustained by the credit
system. I have had at least six years' experience to
convince me that the credit business, as conducted in
this place, is neither just to the buyer nor seller—there-
fore my determination to do a cash business. I am
determined to sell for exceedingly small profits, and
sell quick, knowing that a nimble sixpence is better
than a slow shilling. I respectfully ask of my friends
and the public generally a share of their patronage.
