

"I go for the country, the whole country—and it is my ardent and sincere wish to see the individual placed at the head of the nation, who, by a strict observance of the constitution (be he who may), can make us most prosperous at home, as well as most respected abroad."

FOR PRESIDENT, IN 1848, MAJOR GENERAL ZACHARY TAYLOR, OF LOUISIANA, THE HERO OF PALO ALTO, RESACA DE LA PALMA, MONTEREY, And Buena Vista.

Subject to the decision of the Whig National Convention.

WHIG NOMINATION FOR GOVERNOR OF MARYLAND, WILLIAM T. GOLDSBOROUGH, OF DOVER COUNTY.

Enlargement of the National Whig. On and after Monday the 28th instant, the DAILY NATIONAL WHIG will be enlarged and printed on a Double Royal Sheet, the size of the Daily National Intelligencer and Daily Union.

TERMS OF SUBSCRIPTION. For twelve months Six Dollars, or Five Dollars if paid in advance. For six months Three Dollars, or Two Dollars and fifty cents if paid in advance.

NOTICE. All persons indebted to me for the "National Whig" up to Saturday the 17th instant inclusive, are requested to make payment to JOHN V. SHIELDS, who alone will call upon them for the amount.

All persons indebted to the "National Whig" from this day Monday the 19th instant inclusive, will make payment to JOHN V. SHIELDS, who alone is authorized to receive the amounts due.

To the Public.—G. L. GILCHRIST will call upon the citizens of Washington to solicit their subscription to the ENLARGED NATIONAL WHIG.—Their favors are respectfully solicited. Subscriptions also received at the office.

Mr. Clay's endorsement of Gen. Taylor's Whiggery. The editor of the Portsmouth, Ohio, Clipper, of the 13th instant, says:

"For the purpose of assisting to remove any doubts of our friends as to the political principles of the Hero of Buena Vista, Monterey, &c. we would state that we conversed with an old friend and neighbor of Henry Clay, a few days ago, who said that Mr. C. informed him that he was well satisfied that General Taylor was as good a Whig as there was in the Union. This is satisfactory to us, and all the sayings of Locofocoism to the contrary would not change our mind. Mr. Clay knows General Taylor personally, and has frequently conversed with him about the politics of the country, and is satisfied that his feelings and sentiments correspond with those of the great body of the Whig party."

We are pleased to learn that a company of enterprising and responsible gentlemen from the North, have handed in proposals, in which they agree to complete the James River and Kanawha Canal from Lynchburg to North River, or to Buchanan, at the estimated cost made out by the Engineer or Board of Directors of the Company. [Rich. Republican.]

Battle of Buena Vista. Col. Churchill's report shows that in this battle there were killed 292, wounded 387, missing 6—total 665. This is 100 less in the number of casualties hitherto reported.

Causus System. Jake Thompson's District, in Mississippi, consists of 9 counties. Four were not represented in the Caucus that nominated Jake—and among these four are Marshall and De Soto, which give half the votes of the District. This is the way in which bad men are thrust upon parties.

Gov. Brown, of Mississippi, returned home from the North on the 3d instant, and was out in an Extra of the Jackson Mississippian on the 5th, with a tedious essay to prove that he ought to be the Democratic candidate for Congress from the 4th District. The Governor is a go-ahead gentleman.

"Any man who shall attempt to make political capital out of the despatches of Gen. Taylor, which have been received at the seat of war, shall be seized for breaches of the peace, and fined 50 cents for every such offence. WM. L. MARCY, Secretary of War."

Two negroes in the parish of St. James, La. have been convicted of the murder of an Irishman. There was little evidence against them save their own confessions made under threats of punishment. The Supreme Court will be called upon to decide whether such evidence is sufficient.

Gov. Geayle, who is now canvassing Alabama for re-election, has publicly avowed himself in favor of the election of Gen. Taylor to the Presidency.—from all appearances he will leave his opponent out of sight.

The war with Mexico has come to be the great fact, the one engraving idea of the whole country. N. O. Picayune.

And the expulsion of the author from the Presidency is coming fast to be another great fact, another engraving idea of the nation.

Assessors. In New Orleans, on the 12th instant, an election was held for the choice of these officers. Excellent law! It ought to be in vogue in every part of the country. Our taxes should not be made dependent upon the power, as it now is, that collects them and is benefitted by them. But we may recur to this subject again.

Imprisonment for Life. W. P. Howell, of N. Orleans, having been found guilty of murder in the first degree for killing Joseph Fox, has been sentenced to imprisonment for life, in the Penitentiary at Baton Rouge. This is the first case of the commutation of the old life penalty for murder in Louisiana under the new Constitution.

GEN. TAYLOR'S ANSWER

TO THE DEMOCRATIC WHIGS OF MERCER CO., NEW JERSEY.

His acceptance of a Whig nomination for the Presidency.

The following letter from the old Thunderer of Buena Vista to Dr. John T. Clarke, the Secretary of the Whig meeting recently held at Trenton, New Jersey, puts an end to all dispute about the politics of General Taylor. He is answering a meeting of the patriotic Whigs of Trenton, who placed him in nomination for the Presidency, and accepts their nomination of him as a Whig. He especially thanks his Whig friends for their flattering expression of preference for him as President:

HEADQUARTERS ARMY OF OCCUPATION, Camp near Monterey, Mexico, June 21, 1847.

Sir: I have the honor to acknowledge, with sentiments of great gratification, the receipt of a copy of the resolutions recently adopted at a meeting of the Democratic Whigs of the county of Mercer, New Jersey.

My thanks are specially due to my friends of the State of New Jersey, for their flattering expression of approval and esteem, and which I can assure them is as truly reciprocated.

I embrace this occasion to remark, that if the people of the country desire to place me in the high office of Chief Magistracy, I do not feel myself at liberty to refuse; but, on the contrary, in that position, as well as one more humble, it will ever be my pride and constant endeavor to serve my country with all the ability I possess.

Please convey these my thanks and brief acknowledgments to the citizens of the county of Mercer. I wish them and yourself much prosperity and happiness.

With great respect, I remain your obedient servant, Z. TAYLOR, Major General U. S. Army.

Dr. J. T. CLARKE, Sec'y Pub. Meeting at Trenton N. J.

THE HAVANA BUSINESS.—Licut. Twigg and Lieut. Jones are out in the New Orleans Picayune with the full history of this business. They show clearly that they did not violate the laws of Cuba in going into the port of Havana, that they were permitted by the outside officers to go in and communicate with the Consul, buy fruits &c., that when they got in the authorities seized them and subjected them to indignity, false imprisonment, extortion, &c., and that the whole origin of their treatment is the secret hostility the Habaneros feel against all Americans because of the war with Mexico. The statement is so clear that it must convince every unprejudiced mind of its truth. We hope that this Government will promptly demand an apology of the Governor of Cuba for his course, and a restitution of the money illegally extorted from our citizens.

Five Hundred Dollars Reward. The Whigs of Georgia offer \$500 reward upon the production of legal proof, to be filed with C. B. Cole, the President of the late Democratic Gubernatorial Convention of that State, that President Polk, or either of his Secretaries of the Cabinet has a son or son-in-law in the American Army in Mexico, fighting the battles of the country. Fine chance for a speculation, this!

Atlantic and Mississippi Railroad. The Western and Atlantic Road to Cross Plains or Dalton, will be finished, we are informed, says the Charleston Mercury, on the 22d, and probably opened for transportation by the 25th instant. We heartily congratulate our commercial community on this auspicious event, which now brings us to within 32 miles of the navigable Tennessee river. Georgia and South Carolina will yet be the first to open a connection, by a continuous Railroad from Savannah and Charleston, to the rich valleys of the west.

Philosophical happiness is to want little and to enjoy much; vulgar happiness is to want much and enjoy little. [Charleston Mercury.]

And Christian happiness is to live up to the prayer: "Thy will, O God, be done on earth even as it is in Heaven!"

The Relief Fund. Since the Irish Relief Fund was first started in New Orleans, the Treasurer has received \$39,065 87. Of this sum, \$29,352 37 have been remitted to Ireland. The probable amount received in provisions is about \$10,000. Well done, New Orleans, and the States surrounding it! Nearly forty thousand dollars as a gift to suffering Ireland.

PRASIDENTIAL RAINS.—It is a fact worthy of note, that the three Presidents who have visited this during the last fourteen years, have been greeted with showers of rain on their entrance into town, viz: General Jackson, on Friday, June 21st 1833; Mr. Tyler, on Friday, June 16th, 1843; and Mr. Polk, on Tuesday, June 29th, 1847.—Boston Transcript.

And it is a fact worthy of still greater note that these are the only Presidents our country has ever had whose administrations of the government have really been Presidential reigns.

By an amusing error (of the press, of course) which occurred in a late edition of Davidson's Popular English Grammar, the variations of the verb to chide were given as follows: "Present infinitive—to chide; past finite—I chid; past infinitive—to chide; past finite—I chid; past infinitive—to chide children!" An Irish proverb accounts for the mistake by stating that the compositor must have been a bachelor who had recently got married.

"We have cheerfully placed the name of General Zachary Taylor at the head of our paper, and shall use every means in our power to procure for him the nomination of the great Whig Convention, which will assemble in 1848.—Albany, Ga., Courier.

THE VICE PRESIDENT.—The Liberty Missouri Tribune w. seconds the movement of the Lexington Mo. Whig meeting that the Whigs of the next Congress should nominate a candidate for Vice President and suggest the name of Hon. John McLean for the office. We shall make room for the article in a day or two.

Copper Ore. They have discovered a mass of pure copper in the Lake Superior county which will weigh not less than 30 tons

LATER FROM MEXICO.

The United States brig of War Washington, eight days from Anton Lizardo, arrived at Mobile Point on the 12th inst. On the morning before the Washington sailed the steamer Vixen arrived from Tobacco, bringing intelligence that shortly after Commodore Perry left Tobacco, Commander Bigelow, who had been left in charge of that post, went out about six miles from the town and attacked and put to rout a largely superior force of the Mexicans; with the loss of two killed and some six or eight wounded.

The Mexican loss not ascertained. The Mexicans were commanded by Colonel Garcia, and that they numbered some five or six hundred. Commander Bigelow's command consisted of some three hundred sailors and marines. Commodore Perry was preparing to sail for Tobacco. Nothing later had been heard from General Scott, and there was no news at Vera Cruz. The Rarian and the Potomac, the former from Tobacco, and the latter from Vera Cruz, had sailed for Norfolk.

On the night of the 2d of July, the steamer Mississippi came near being destroyed by fire, which broke out spontaneously in the coal bunkers.

LATE FROM HAVANA. According to El Diario de la Marina, of the 29th ult., one of the principal mercantile houses in Havana had purchased in two or three days, from 20,000 to 25,000 boxes of sugar. This had its influence on the market, and prices experienced, in consequence, a rise.

The port of Havana experienced a great movement on the 27th and 28th ult.; no less than forty-three vessels arrived there in about forty hours. Twenty-six of those vessels were from foreign ports. What is more surprising still is, that there were only four American vessels in that number.

The Matanzas Aurora says, that on the 23d of June, no less than 9075 boxes of sugar were cleared at the customhouse—mostly destined for Europe. This is almost double the quantity ever before cleared in one day.

On the 25th ult., the Habaneros were visited by a severe storm—during which, two churches, Santa Theresa and San Francisco de Paulo, were struck by lightning, but fortunately no person was hurt, although the buildings were considerably damaged.

We see that our neighbor of the Advertiser's favorite candidate for the Presidency in 1848, is that Old Federalist, JAMES BOCHANAN, who opposed the last war so violently, and abused President Madison and his administration and war policy as every thing that was vile and villainous. Well, we are willing modern Democracy should pit this Old Federalist against Old Rough and Ready: the Old Hero would make another Buena Vista affair of it!

Oh crickey!—what a race this would be! It would be worth living to see—just to see that Old Federalist in sheep's clothing, stripped and held up to gaze by the old Baton Rouge farmer!

Falling Latch.—We found on our door, the other day, from Nickels & Hutcheson's a capital article in the shape of a latch and fastener—just the thing for a sanctum. It falls at the right time, when every applicant, however "good looking" can't begin to come in. We are much obliged for the affair.—Montgomery Journal.

Send one of them for the sanctum of the National Whig, Messrs. Nickels & Hutcheson, and we shall ever have you in remembrance.

Mr. Adger.—This able minister of Christ, is preaching to the negroes in Charleston-neck. He is calling upon the master to build separate houses of worship for the black man, and to provide for the preaching of the gospel unto this race. The Charleston Courier is advocating the policy with great zeal.

Flour in the Eastern cities is down. The Sarah Sands arrived yesterday in New York. Heavy failures among flour dealers have taken place in Philadelphia and New York.

Great Failure. The house of the Marquis Forbin, Janson, & Co., of Marseilles, has failed for an amount variously stated at from 10,000,000 to 11,500,000 francs. Their business was that of sugar refining, and Louis Philippe is said to have had money invested in the house.

San Pedro Expedition. The schooner Cecil, Binney, at this port last night from Cumana, via St. Thomas, has recovered about twenty thousand dollars additional from the wreck of the sunken Spanish frigate San Pedro, off Cumana, the larger proportion of which is brought home. [Balt. American 20th inst.]

It is now said that the mother was the murderer of her child at Osterville, Mass. She is insane.

The Concord Independent Democrat says on the table spread for the President in that city, there were four kinds of wine, viz: Champagne, Claret, Old Madera, and Sicily Madeira, but "the President declined all this sort of trash, and called for brandy."

This gives us in all, if our estimates are sustained, 127 Whigs to 99 Loco Focos, and a majority of twenty-eight in the next House of Representatives.—Boston Atlas.

Saratoga, July 17. The drawing rooms of the United States are thronged with beauty and fashion. The fairest flowers and the brightest stars of the beau monde, are here now. To see them in all their brilliancy, you must visit their parlors in the evening. There are the Misses J. W. and L. W. W. from Albany; the beautiful Miss E. C. from Pennsylvania; Mrs. R., from Toronto, lately a bride, and still a fine singer, whose husband I have just met in the reading room; Miss L., of Flushing; Miss F., Philadelphia; Miss H., of Virginia, who is chaperoned by Mrs. L., lady of the brother of a distinguished novelist; the fashionable Mrs. R. and daughter, from New York; Com. Morris, lady and daughters; the Misses M., from New York; and the gay and fashionable Mrs. T., formerly Miss W., who has returned to spend the summer at this favorite haunt.—So it will be seen, even from this brief recapitulation of names, that the choicest flowers of fashionable life are blooming in the atmosphere of Saratoga.—New York Herald.

Hon. Elihu Whittlesey passed through Pittsburg last week, with his family, on his way to Washington, where he intends to renew his residence as President of the Washington Monument Association.—N. American.

READ OUT.—The Locofocos of Mobile have read Mr. Campbell and his locofoco brethren entirely out of the party for daring to go for Gen. Taylor for President. Go ahead, gentlemen. That's the game. Their Whig brethren are ready to receive the recruits and excommunicated with open arms.

MODEL REPRESENTATIVE.—In filling the responsible station to which you have heretofore called me, I have kept steadily in view your welfare, and the honor and prosperity of the whole country; if I should be continued in it by your suffrages, I shall pursue the same course."—H. W. Hilliard's letter.

NEW MINERAL WATER, MANUFACTORY,

CORNER OF GREEN AND OLIVE STREETS, GEORGETOWN, D. C.

THE SUBSCRIBER having commenced the manufacture of MINERAL WATER, takes the liberty to inform his friends and the public in general, that he is now prepared to supply them regularly every day with this delightful beverage, by leaving their orders at Mr. John Butthman's Wine store, Pennsylvania avenue, between 4th and 6th streets, Washington or at his residence.

The water used is taken from a spring on the premises of the Subscriber, well known to the physicians and the public for yielding the best and purest water either in Washington or Georgetown.

The utmost care will be paid in manufacturing the Mineral Water, and the public can rely upon receiving a pure and superior article.

The subscriber takes pleasure to call the attention of the public to the annexed certificate.

GEORGETOWN, June 16, 1847. We, the undersigned, physicians, have, at the invitation of Mr. J. Rother, carefully examined his Mineral Water Establishment, and take pleasure in pronouncing our entire satisfaction with his superior and neat arrangements.

The apparatus and bottling machine annexed, is a production of the latest American invention, so constructed as to ensure a full and perfect saturation of gas to a degree heretofore unknown to us.

The water used for its manufacture is pure and wholesome, and the care taken in the process, as well as the cleanliness pervading the whole establishment, meets with our entire approbation, and induces us to recommend it to the public, as a very superior and healthy article.

WELLER'S PATENT JAPAN LIQUID AND PASTE BLACKING.

The undersigned begs leave to call the attention of those desirous of using a good article in Blacking, to the above-named. The Manufacturer, knowing the excellent properties of his Blacking, sent samples to various persons (such as Boot Makers, &c.) also to several of the Newspapers. The extracts underneath are from some of the papers, they speak for themselves; also several persons who tried it have called and said that the Japan Liquid Blacking was superior to any thing they had ever used.

EXTRACTS FROM NEWSPAPERS. Weller's Patent Japan Blacking is the name of an excellent article; we have seen it used; and can highly recommend it.—N. American, April 15.

Weller's Blacking is one of the most superb and satisfactory articles of the day. It imparts a brilliancy and polish beyond description. We have tried it.—"Go and do like wise."—Spirit of the Times, April 22.

By reference to another column, an advertisement will be found for an excellent article of Blacking, in a Liquid form, for Boots, &c. It has been highly recommended by many who have tried it. It not only gives, with very little trouble, a beautiful jet polish, but retains it much longer than any other. It is sold by the Agent of the Manufacturer at No. 50, Chesnut street. Buy a bottle, one trial will prove the fact.—Phil. Ledger, April 23.

Weller's Blacking is one of the most shining articles in the market.—Spirit of the Times, April 2.

Patent Blacking.—Mr. J. Weller, No. 50, Chesnut St., has prepared a Patent Liquid Blacking, which produces a beautiful jet Polish, and does not injure the leather. Those who would have a polished understanding should read the advertisement in another column.—U. S. Gazette, May 1.

Weller's Patent Japan Blacking is about the best article of the kind we have seen. The polish which it imparts to the understandings of man is brilliant and lasting; we have tried it and it boots us to say all this in its behalf.—Evening Bulletin, June 7th.

The Manufacturer can produce numerous testimonials similar to the above, from private individuals and from other papers, but the above extracts are sufficient to convince any person that the manufacturer has not exaggerated; but that upon a fair trial the Blacking will be found as represented, excellent in every respect.
