

THE UNION. CITY OF WASHINGTON.

MONDAY NIGHT, SEPTEMBER 29, 1845.

We surrender almost the whole of our editorial space this evening to the numerous letters and communications which have poured in upon our table.

A DANIEL COME TO JUDGMENT!

From the New York Commercial Advertiser. The Washington Union makes a very interesting admission respecting the volume of secret correspondence...

THE "SOMEBODY" AT WASHINGTON

The "somebody" at Washington has been, and does not reside, here. So this inference is substantially false.

THE "OFFICIAL EDITOR" LIKE ANY OTHER CITIZEN

Washington, may accidentally meet with a gentleman there, and happen to talk over the contents of a pamphlet, without his being, in the received sense of that term, "in communication" with us.

THE "SECRET" OF MACKENZIE'S HAVING SOME PRIVATE LETTERS IN HIS POSSESSION

That is true; but it was one who had been an acquaintance of Mackenzie, who suspected that he was about making some publication, without knowing the precise character of the letters which he was about to publish.

INTERESTING FROM TEXAS.

We have received the following letters by the last mail from Texas. The State convention has adjourned, after a session of little less than two months, and the constitution which they have formed has been published, for the information of the people.

TO THE EDITOR OF THE UNION:

Sir: The convention have ended their labors; and the constitution which they have formed, and which I have learned, to meet with general approbation; and there is no doubt of its acceptance by the people.

TO THE EDITOR OF THE UNION:

GALVESTON, TEXAS, Sept. 7, 1845. Sir, I have the honor to acknowledge the receipt of your letter of the 29th ult., and in reply to inform you that the same will be accepted or rejected by me before the 10th of October.

claims and the practicability of maintaining them. As already stated, however, the number of those who will be deterred from voting for annexation on this account, will not be sufficient to endanger the success of the measure.

It will be perceived by the "schedule" of the new constitution, that the "republic" of Texas continues to be the actual government—retaining unimpaired its original powers and functions until the "State" constitution has been accepted by the United States Congress.

LATER FROM MEXICO.

Letters were received yesterday from Pensacola, giving intelligence from Vera Cruz to the 15th inst. These accounts had been received in Pensacola, in five days from Vera Cruz, by the steamer Princeton.

TO THE EDITOR OF THE UNION:

You are fully aware, sir, of the difficulty of arranging just conclusions in regard to Mexican affairs, or even collecting facts upon which to base a judgment. With diffidence, therefore, I offer what I conceive well-founded information, reserving for verbal communication the thousand rumors already in circulation in this city.

TO THE EDITOR OF THE UNION:

The news from the army of Gen. Taylor is up to the 1st inst., and embraces nothing very important. The paper may not reach you, I enclose the following, which embrace every thing of interest, so far as matters are public.

The levy of "defenses," or militia, has entirely failed; and the governors of many of the provinces have represented the law as finally in several particulars, such as the kind of officers, cannot be denied; that we have not been ungrateful, is equally true.

The castle of San Juan de Ulloa has now about 1200 men, and the other castles have about 500 men. These, with 60 workmen, are employed daily in mounting artillery. It is said that there are 1,000 or 1,200 men in Vera Cruz, and two regiments are ordered into its vicinity.

OFFICIAL.

APPOINTMENTS BY THE PRESIDENT.

WILLIAM MCNAIR, register of the land office for the district of lands subject to sale at Fayette, Missouri, vice John B. Clark, resigned—To take effect on the 30th September, 1845.

TO THE EDITOR OF THE UNION:

In the letter of the Washington correspondent to the New York Herald, published in that paper of the 28th inst., I discover that my name has been a conspicuous place among the names of the day. This is a kind of notoriety of which I am not very ambitious.

DR. SWAYNE'S COMPOUND SIRUP OF WILD CHERRY. THE GREAT REMEDY FOR CONSUMPTION, COLIC, CROUP, SPITTING OF BLOOD, BRONCHITIS, ASTHMA, PAIN IN THE SIDE AND BACK, NEURALGIA, COUGH, CROUP, AND ALL DISEASES OF THE LUNGS AND BRONCHI.

THE above is the original and genuine preparation from this valuable tree, and has long been used with success in curing all diseases of the lungs, notwithstanding the many articles prepared by persons who have no knowledge of the science of medicine, in theory or practice, and who, in relation to the public, are the unscrupulous, and unskillful, and unprincipled impostors, who have succeeded in obtaining the original preparation, such as "balm of wild cherry," "Phonix balsam of wild cherry," "balm of wild cherry and camphor," &c.—all sprung up with a mercenary view, after Dr. Swayne's compound sirup of wild cherry, which has been long and successfully used, and which has been proved to be a most valuable remedy, and which has been used by many a case of chronic disease. Therefore the public should be on their guard, and purchase not the original preparation, which is daily performing such astonishing cures in pulmonary disease, and all other diseases of the lungs, and the patients given up as hopeless. Thousands of certificates might be published, which would attest its efficacy; but it is deemed unnecessary. Below we publish a list of the names of persons who have been cured by this wonderful remedy.

Robert Olney, steward of the almshouse near Frankfort, testifies to the efficacy of Dr. Swayne's compound sirup of wild cherry, in curing Valentin Chapman, one of the most aggravated cases of diseased lungs, and the symptoms of which he had cured, after every other remedy had failed, and his physician had given him up as incurable.

Mrs. Brown, corner of Second street and German-town road, Philadelphia, testifies to the efficacy of Dr. Swayne's compound sirup of wild cherry, in curing a case of chronic disease of the lungs, and the symptoms of which she had cured, after every other remedy had failed, and her physician had given her up as incurable.
