A long business experience enables us to assure our friends the best possible disposition will be made of anything entrusted to our care for sale. THE Liver Invigorator. PREPARED BY DR. SANFORD, COMPOUNDED ENTIRELY FROM GUMS, Is one of the best purgatives and liver medicines now before the public, that acts as a Cathartic, easier, milder, and more effective than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity. The Liver is one of the principal regulators of the human body; and if it performs its duty, the powers of the system are fully developed. The stomach depends on the healthy operation of the Liver for its food; and if the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence—having ceased to do its duty. For the disorder of its functions, one of its principal duties is to purify the blood, and to secrete the bile, which is necessary to the proper performance of the functions of the stomach and bowels. It is in fact, the great regulator of the system, and when it performs its duty, the powers of the system are fully developed.
