MARYLAND LIFE INSURANCE COMPANY.
THE progress of Life Insurance in the United States has been a great triumph of modern science and philosophy to become of the marvelous features of our social economy.
The wisdom of all ages has devised nothing that compares with it. It is a manifestly good, that it is difficult to see how an intelligent man, with proper concern for the comfort and protection of his family, can fail to avail himself of its benefits.
Life Insurance has a ready money to settle the estates to advantage. It will prevent a sacrifice of property if a man die in debt. It is subject to no tax during life, nor upon the estate after death. It is exempt by law from debt. It is rapidly becoming a rule that all men of just attributes insure.
Our Maryland Company commends itself to the confidence and patronage of our people in all parts of the State. Its directors are men of known integrity and ability, to whom the public may look with confidence for a just and careful supervision of its affairs. It must be clear to every intelligent mind that if we would secure the largest property to our State and people individually, we must build up our institutions and keep our capital at home.
Had the five million dollars sent out of the State annually for insurance been invested at home it would have been favorably upon our own wealth and commerce. This is emphatically our company—gotten up by our best merchants to afford the opportunity for all to insure without sending the money out of our own State. The affairs of the Company are managed with economy.
Such has been our marked success that we were able after the second year to declare a dividend in cash—a large dividend as the United States and Europe companies in the States. The Company feel greatly encouraged by the patronage and co-operation they have received, and solicit a continuance of the same.
The laws of trade, commerce, agriculture and self-interest combine to make this the C. P. policy for us.
Now, dear sirs, in view of all the advantages of Life Insurance as an investment—the uncertainty of life—the strong claims of wife and children upon husband and father—the uncertainty of business, and all the ordinary forms of investment—it is not the moral duty of every man to put something in a form that will prevent want and distress, or trouble to the part of those he loves?
By all means insure, and do it at once in the Maryland Company. The officers of this Company are:
GEO. P. THOMAS, President.
A. K. FORD, Secretary.
BOARD OF DIRECTORS:
Hamilton Easton, John H. Hillier,
Allen A. Chapman, Thomas Coddard,
Geo. P. Thomas, William Devries,
Hugh Sisson, Charles Webb,
Hiram Woods, Jr.
A. J. BARNES, State Agent.
THE TRUSTEES TRUSTEES:
Judge Magruder, Judge Ford, Judge Mason, Hon. Fred Stone, James Compton and Editor of Beacon.
Geo. A. J. Myers, the State Agent, will be in Leonardtown during the week of Court to transact the business of the company, and will also insure property in Baltimore Companies.

HARPER'S NEW MONTHLY MAGAZINE.
Critical Notices of the Press.
The most popular. Most read in the world—New York Observer.
We must refer to terms of entry in the High tone and varied excellence of Harper's Magazine—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the most important and practical reading of the day. The work of the work as an evidence of the culture of the American people; and the popularity it has acquired is mentioned. Each number contains fully 14 pages of reading matter, signed by the most distinguished writers and practical readers of the day. It is monthly and the most philosophical quarterly, headed with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—LITERARY GUIDE of American Literature, London.
We can account for its success only by the simple fact that it meets precisely the popular taste, furnishing a variety of pleasing and instructive reading for all—Zion's Herald, Boston.
The large capital invested by this Company affords the surest guarantee of the continued excellence of their fertilizer, as the safety of their capital depends upon continued and permanent business.
Experience has shown that this Guano ripens the Wheat crop from five to six days earlier than the Super-Phosphate.
It is the policy and purpose of the Company to furnish the best fertilizer that enterprise and capital, aided by the best scientific ability, can bring into market, at the lowest possible cost to consumers.

MANIPULATED GUANO
A COMPOUND OF CHOICE PERUVIAN AND PHOSPHATIC GUANOS WITH ALKALINE SALTS MINUTELY COMBINED.
This Guano is especially commended to the Planter of St. Mary's county, as equal if not superior to any manure (not excepting Peruvian Guano) in the production of Wheat of superior quality and equal to Bone Dust. The best Planters in Maryland and Virginia attest this. For many years past quantities of this Guano has been sold—greatly improved since the year, it has met with universal approval. The Ammonia and Phosphate of Lime are properly proportioned to perfect crop and soil value. No such manure can be produced to promote the growth of grass—improvement must therefore follow—we use nothing but the best material and all Planters are invited to inspect our material and manufacture.
A trial of this valuable Guano is earnestly solicited. Circulars attesting can be had on application to the undersigned or agencies.
It contains equal parts of Peruvian and Phosphate Guano, A and G, and is each with Alkaline Salts—beautifully prepared and Dry—adapted to Drilling or Broadcast in strong soils of 11 to the ton of 2000 lbs. AA \$20 A. \$20. Cash or equivalent.—Used in same quantity as Peruvian Guano per acre, reference to community generally and consumers of my compounds.

PACIFIC GUANO COMPANY'S SOLUBLE PACIFIC GUANO.
THE VALUE of this Guano is now so well known and appreciated, that it does not require further commendation than its name.
The Company owns the Guano Islands and other sources of supply from which its raw material is drawn. Hence, this Guano, possessing such high excellence, can be brought into market at a price not exceeding that of the ordinary Super-Phosphate of Lime.
The large capital invested by this Company affords the surest guarantee of the continued excellence of their fertilizer, as the safety of their capital depends upon continued and permanent business.
Experience has shown that this Guano ripens the Wheat crop from five to six days earlier than the Super-Phosphate.
It is the policy and purpose of the Company to furnish the best fertilizer that enterprise and capital, aided by the best scientific ability, can bring into market, at the lowest possible cost to consumers.

Sherwood House

DINING ROOMS,
ON THE EUROPEAN PLAN,
Corner of Fayette and Harrison streets, (opposite the Maryland Institute.)
Baltimore, Md.
THE above well known House has recently been opened by C. P. Barnard, formerly of the American Hotel, Washington, D. C., and has capacity to accommodate over a hundred people with lodging, and has spacious and nicely furnished rooms for families. Connected with the House also is a ladies' dining room. The streets order is maintained and accommodating servants always at call. The House is open at all hours. The advantage of a Hotel upon the plan of the Sherwood House is, that the guest can accommodate the price of his living to his own wishes, paying only for what he gets. The Sherwood House has recently been newly furnished and refitted, and being in a central and business part of the city, offers unusual inducements to travelers. A fair trial is asked, and patronage from St. Mary's county solicited.

Messrs. Neale, Harris & Co.—
Gents—Your letter of 14th instant was duly received, in reply I answer that the large lot of PERUVIAN GUANO purchased by you last fall, was mixed half and half with BROWN RAW BONE PHOSPHATE and applied by drill with the same quantity of Peruvian Guano. I saw no difference in the growth of the Tobacco at cutting time. When I stripped it, I found the Tobacco grown from "PatapSCO" had cured much finer than that grown from "Peruvian," and when sold, that grown from "PatapSCO" sold for \$2 per hundred more than that grown from Peruvian. All made on the same kind of land.
Most respectfully, &c.,
C. J. RUSSELL.
Gents—The PatapSCO Guano purchased from you was used on my Tobacco crop at the rate of 200 per acre in the drill. I was pleased with the result. It acted equally well as well as "Peruvian Guano." I used PatapSCO upon my Tobacco beds and lettuce. It is better than Peruvian for plants, and expect to use it next year.

REDONDA GUANO.
The Cheapest and Most Successful Fertilizer on Wheat ever Introduced into this country.
The REDONDA GUANO has now been used extensively for two years upon every description of crops, and to the most unprecedented success. Its results upon the various crops, and especially the wheat crop of the present season, has established its reputation beyond all others, and a demand, unexampled.
"REDONDA" is a pure, natural Guano, entirely uniform in its character, sold to the farmer just as it is imported, and requires no preparation for the DRILL.
The EXTREMELY LOW PRICE at which it is sold, the ordinary manufactured Phosphate costing over one hundred percent, above the price of Redonda, is not the least important fact to the farmer.
Pamphlets containing testimonials from FARMERS and PLANTERS in Maryland, Virginia, Delaware and New York, from which we extract fully the advantages of Redonda, together with REPORTS and ANALYSES of the most eminent chemists in the country, with full directions for its use, can be obtained at our warehouse or from various agents.
PRICE \$20 PER TON.
