NO. 2 SOUTH ST., BALTO., MD.  
Sold by all Druggists & Principal Stores.

Read what Mr. Larkin says:  
Baltimore, February 15, 1869.  
Dear Sir: I have analyzed the contents, and after discovering the ingredients, and ascertaining them to be applicable to the disease in question, I determined to give it a trial. I did so, and found the therapeutic effect to be precisely in accordance with the manufacturer's statement. In my own instance it failed, frequently half a bottle being sufficient for the complete cure of cases of long standing, even those in which chronic enlargement of the Liver and Spleen had been superinduced. I regard it as a decidedly scientific discovery. I would recommend it to all sufferers of Chills and Fevers.  
Price per Bottle and Pills—\$1.00.  
For sale by WM. A. FENWICK, Leonardtown, Md., Aug. 5, 1868—69.

**"EXCELSIOR."**  
Containing Ammonia, 6 per cent.  
Super-Phosphate equivalent to Bone Phosphate of Lime, 57 " "  
Potash and Soda, 5 " "  
We again call the attention of the farmers of Maryland and Virginia to our EXCELSIOR, composed of 700 pounds of No. 1 Peruvian Guano, and 1,300 pounds of Soluble Phosphate of Lime (prepared by dissolving sulphuric acid, potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating properties of Peruvian Guano and the ever durable fertilizing properties of Ground Bones.  
Excelsior is a fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of many close calculating Farmers, after E. J. EVEN years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore fully 100 to 200 per cent. cheaper.  
The very best evidence we can offer of the value of our Excelsior is a copy of the report of the Agricultural Experiment Station and of the value of its use in the most improved and cultivated lands in this and other States.  
Farmers should see that the ANALYSIS and name of J. J. TURNER & CO., are branded on every bag in RED LETTERS. All others are counterfeits.

**Sherwood House**  
AND  
**DINING ROOMS,**  
ON THE EUROPEAN PLAN,  
Corner of Fayette and Harrison streets  
(opposite the Maryland Institute),  
Baltimore,  
Md.  
The above well known House has recently been opened by C. P. BARNARD, formerly of the American Hotel, Washington, D. C., and has capacity to accommodate a hundred people with lodgings, and has spacious and nicely furnished rooms for families. Connected with the House also is a ladies' dining room. The strictest order is maintained and accommodations always at call. The House is open at all hours. The advantage of a Hotel upon the plan of the Sherwood House is, that the guest can accommodate the price of his living to his own means, paying only for what he gets. The Sherwood House has recently been newly furnished and refitted, and, being in a central and business part of the city, offers unusual inducements to travellers. A fair trial is asked, and patronage from St. Mary's county solicited.

An extensive experience of twenty years as Importers and Dealers in GUANO and FERTILIZERS of various descriptions, and by direct intercourse with Farmers and Planters, as GREAT MERCHANTS, has enabled us to learn their experience and results from all sorts of MANURES, and to form a practical knowledge of their wants. A fertilizer adapted generally to the various soils and crops of the Southern States, and at a price commensurate with the present value, and a proper regard to economy in outlay.  
We have been induced to establish a manufactory in this city upon an extensive scale, with the application of steam and with every recent improvement in machinery for grinding, and thoroughly combining the various chemical constituents, now well ascertained as forming the elements of a first-class fertilizer, and a fertilizer adapted generally to the various soils and crops of the Southern States, and at a price commensurate with the present value, and a proper regard to economy in outlay.

**HARPER'S BAZAR.**  
A supplement containing numerous full-sized patterns of beautiful articles accompanying the paper every fortnight, and occasionally an elegant Colored Fashion Plate.  
Harper's Bazar contains 16 full pages of the size of Harper's Weekly, printed on superior colored paper, and is published weekly.  
**Critical Notices of the Press.**  
Harper's Bazar contains, besides pictures, patterns, etc., a variety of matter of special use and interest to the family; articles on health, dress, and housekeeping to all its readers; its editorial matter is specially adapted to the circle it is intended to instruct and interest; and it has, besides good stories and literary matter of merit, it is not surprising that the journal, with such immense success, for a short time, was desired in thousands of families, and its publishers have filled the demand. The young lady who buys a single number of Harper's Bazar is made a subscriber for life.—New York Evening Post.  
The Bazar is excellent. Like all the periodicals which the Harpers publish, it is most ideally well edited, and the class of readers for whom it is intended—the mothers and daughters in average families—cannot but profit by its good sense and good taste, which, we have no doubt, are to-day, making very many homes happier than they may have been before the women began taking lessons in personal and household and social management from this good-natured mentor.—The Nation.  
It has the merit of being sensible, of conveying instruction, of giving excellent patterns in every department, and of being well stocked with good reading matter.—Watchman and Reflector.
