SOLUBLE PACIFIC GUANO, IMPROVED IN QUALITY & CONDITION. THE quality of this Guano is materially improved since the year 1867 by the addition to its composition of a large per cent of the Salts of Potash.

It is improved in condition by being brought into market sufficiently dry and uniformly fine to pass with facility and abundance through the orifices of WHEAT DRILL.

More than \$1,000,000 is involved in the production of this Guano, and the trade in it has steadily increased, until now it far exceeds that of any other fertilizer.

The Pacific Guano Company has a far greater interest in the maintenance of the quality of its Guano than any number of consumers can have; hence no suppression need exist as to its composition and condition.
