LET US HAVE THE BEST.
WORLD RENOWNED NEW SINGER
Sewing Machine.

THE returns of sales of the different sewing machines, during last year, show the "Singer Machine" to be by far the most popular of all in the market, the number sold being 181,260, out of a total of 610,194, of twenty-five different patterns. It appears, too, that the Chicago Relief Committee, which undertook to furnish sewing machines to persons needing them, supplied 2,427 Singer machines against 517 of all other kinds. This preference for the Singer machine is due to its intrinsic superiority and seems likely to be maintained against all competition. I will visit around and give all instructions to persons purchasing of me free of charge. All of the extras furnished by me.

B. G. Harris.

This is a Home Company, gotten up expressly in the interest of the citizens of Southern Maryland, to enable them to overcome the difficulties they experienced in procuring insurance in the ordinary Insurance Companies, with a majority of its Directors well known in that community. It has been in business now over four years. All losses accrued, and they have been unusually large, have been faithfully and promptly paid, which is our best guarantee for the future.
The plan adopted is the safest and cheapest known in Insurance, and affords to all insurance at its exact cost, and ought to be encouraged by all who wish to protect themselves against loss or damage by fire.
If those interested will get their patronage and interest themselves in the increase of its business, in a few years it will rank among the largest Insurance corporations in Maryland, a credit and benefit to all, and an honor to the State.

THE ILLUSTRATED
Phrenological Journal,
VOLUME FIFTY-SIX, 1873.
The Science of mind is the central point around which revolves the whole circle of the sciences. It is the key to universal knowledge, and self-knowledge is the key to the science of mind. Phrenology, the basis of Mental Philosophy Shows how human character and capacity are related to the universal laws, and how humanity is harmonized with divinity.
"Know Thyself."—Since the Grecian age inscribed the immortal words on the Temple of Delphi, the world has struggled toward a solution of the problems of human existence. The Origin of Races, involving the Origin of Life, earnestly discussed by Ethnologists and Physiologists, cannot fail to interest the truth-seeker.
Physiology and Psychology are prominent features; embracing the subjects of Soul, Mind, Body, Structures and Functions, Social Relations, Education, Religion, Criminal Jurisprudence, etc.
Phrenology and Temperaments, Signs of Character, Psychology of Organization considered, with illustrations from life.
Self-improvement—All the gains of Science and Art should be applied to perfecting ourself and improving our race.
Happy Homes are the result of a normal education and development, and a life according to the laws of life.
The Phrenological Journal for 1873—will keep pace with the march of events, scientific, social, and political, and seek to declare the good and true.
Published monthly, at \$3 a year, in advance. Single numbers, 30 cts. Clubs of ten or more \$2 each. And the

Harper's Magazine.
The ever-increasing circulation of this excellent monthly proves its continued adaptation to popular tastes and needs. Indeed, when we think into how many households it is so generally read, we must conclude it is an organ of the public mind, for its vast popularity has been won by no appeal to sordid prejudices or depraved tastes.—Boston Globe.
The magazine which this Magazine possesses for variety, enterprise, artistic wealth, and the literary culture that has kept pace with it, it has not led the times, should cause its conductors to regard it with justifiable complacency. It also excites them to a great desire upon the public gratitude. The Magazine has done more for it, and will all the days of its life.—Brooklyn Eagle.

The Bazar is edited with a contribution of tact and talent that we seldom find in any journal; and the journal itself is the organ of the great world of fashion.—Boston Traveller.

1873. THE AGE, 1873.
A LEADING DAILY AND WEEKLY PAPER.
The First Advocate of Democracy Principles
No Republican and Every Democrat to Maintain it in the First Rank of Journalism.
For the past ten years The Age has been the firm and earnest defender of the great principles enshrined in the Declaration of the Republic and incorporated in its institutions. Seeking no alliance with oligarchy or "King," it has been subject to no corrupt influence, but has always labored without fear or favor for the general good. It has, therefore, been the persistent and vigilant advocate of all reforms, general as well as municipal.
Receiving no aid from official patronage, The Age relies on the subscriptions and support of Democrats, and of fair and intelligent citizens who desire to see men and measures truly canvassed, knowing that free and fearless discussion by the press is now the best defence of all private rights and public interests.
In the varying fortunes of parties, the intelligent and patriotic will rally to maintain free, pure, civil government, for the people and by the people, to oppose corruption and usurpation, and to preserve and purify the American institution that made our country the "Model Republic" of the world. Its administration, in the spirit in which it was formed, can only be conducted on what we claim as true Democratic principles, for which The Age will still contend with an abiding faith in their ultimate triumph.
THE DAILY AGE CONTAINS:
1 The latest intelligence from all parts of the world.
2 Articles on Government, Trade, Politics, Finance and all the current topics of the day.
3 Local Intelligence, Market Reports, Prices Current, Stock Quotations, Marine and Commercial Intelligence.
4 Reports of Public Gatherings, Foreign and Domestic Correspondence, Legal Reports and Book Notices.
5 Theatrical Criticisms, Reviews of Literature, Art and Music.
6 Agricultural Matters, and Discussions of all Subjects of General Interest and Importance.
7 Special Telegrams, and all the Dispatches of the Associated Press, from every part of the World.
The Age is the only Democratic morning paper in Philadelphia in the English language, and is therefore one of the best mediums for Advertising.

DINWIDDIE'S
CLOTHES POUNDER,
Five Minute Washer.

OF the many contrivances for washing clothes, few have been so successful. Nearly all have been constructed on the rubbing principle, wearing clothes as fast as the board and requiring much labor. The question may be asked, "What is the use of it?"
Why, forcing water through a garment to loosen and remove the dirt—consider? See that boy with his pig-paw. He is using compressed air. How powerful is it? Why not use compressed air for forcing water through clothes? This is the principle of The Little Five Minute Washer.
It will do. It will wash a tub of wearing clothes in from 5 to 10 minutes; Sheets, Table Cloths, Counterpanes, Quilts, Comforts, Blankets, &c., 3 to 5 minutes, without breaking stitches or wadding up the cotton. It also washes Pants, Coats, Vests &c. in a few minutes, and any garment that requires washing, from the Best Lace Collars to the dirtiest Rag Carpet. It also rinses, Bleach and Starches on the same principle. It doesn't weigh over 5 pounds and a child 10 years of age can wash with it. It is powerful, 500. Without railway, 500.
Direction to use it.—In the first place, sort your garments, see that you have first, White Bands, Collars, &c., dip in water and apply soap; rub in to loosen the dirt. Use any kind of soap you wish, soft soap is easier applied. Remember, this Washer works by air pressure, not pounding. Never stamp or pound. Make good use of tub to cover up the rim, spread your clothes loosely, press air in center of tub, then around inside of tub. In a short time you will learn to handle it.
PRICE, \$5.00.
