DIRECTORS.
Noah Walker & Co. Philip T. George, George & Jenkins, T D Anderson, Anderson & Bru. John Slack, Carpenter and Builder, Hon George Brent Court of Appeals. George P. Perkins, Charles county. George Combs, St. Mary's county. D. G. Harris.

This is a Home Company, gotten up expressly in the interest of the citizens of Southern Maryland, to enable them to overcome the difficulties they experienced in procuring insurance in the ordinary Insurance Companies, with a majority of its Directors well known in that community.

It has been in business now over four years. All losses accrued, and they have been unusually large, have been faithfully and promptly paid, which is our best guarantee for the future.

The plan adopted is the safest and cheapest known in insurance, and affords to all insurance at its exact cost, and ought to be encouraged by all who wish to protect themselves against loss or damage by fire.

If those interested will get it their patronage and interest themselves in the increase of this business, in a few years it will rank among the largest Insurance corporations in Maryland, a credit and benefit to all, and an honor to the State.

DYSPEPSIA

A CERTAIN CURE FOR
Dyspepsia, Liver Complaint, Jaundice, Biliousness, Sick Headache and Indigestion.
What is it without the enjoyment of health? If you had the wealth of Croesus, and afflicted with Dyspepsia, or its kindred disease, you could not enjoy life. Dyspepsia is a prevalent disease in the United States, brought about by our habits and irregularities. The Materia Medica has been exhausted to find a remedy, and the skill of the most learned Physicians has failed to effect a cure. Notwithstanding this declaration we unhesitatingly say: "MILLER'S DYSPEPSIA" is a Certain Cure of Dyspepsia and the many complaints incident thereto. It has been before the public a sufficient length of time to fully test its merits and in every instance where it has been used according to directions, it has resulted in giving relief and effecting a cure. With each bottle is a Circular describing the symptoms of the diseases named, and for which only we claim it as a specific. Give it a fair trial and rest assured you will be benefited.

THE

Science of Health

An Independent Journal, not the organ of an opinion or institution, but the earnest teacher of the laws of life and health, which includes all that relate to the art of recovering and preserving health.

To Retain Health.—It is better to preserve health by obeying the laws of life than to regain it when once lost. Learn to avoid the cause of disease.

Disease and its Treatment.—The theory of disease will be considered by competent writers, and philosophical and practical methods of treatment given.

Invalids should read The Science of Health regularly, and learn the nature of their diseases, and the methods prescribed for self-treatment and cure.

"Doctors' Bills" can easily be saved in many families; enough to pay for ten times the subscription price every year, by simply following its plain teachings.

Women and Children.—Every number is devoted largely to domestic interests, considering the health and needs of Women, and especially the physical wants of Children. It will tell how to feed, clothe, and care for the young.

Household Department.—"Healthful Cookery."—We shall publish a series of articles on "Reasonable Dieting," written expressly for this Magazine. In the same department will be given an amount of information in short, brief paragraphs, worth in themselves the price of the Magazine.

Terms.—\$2 a year in advance; sample numbers, 20 cents; ten copies, \$15, an extra copy to agent.

A List of Premiums sent on application.—Cash Commissions given. Local Agents wanted. Address S. R. WELLS, 289 Broadway, New York. Jan 8, 1874.

The American Farmer,

Begins a new volume January 1. This is an old established standard FARMER'S PAPER, devoted to agriculture and its interests. Special attention is paid—besides that given to the staple crops, artificial and home-made manures, &c.—to Live Stock, Fruit Growing, the Dairy, &c. Some of the ablest American agriculturists write for it. It is Practical, Substantial, Reliable. \$1 50 per copy. Very liberal and handsome terms for clubs. Last three numbers of '73 free to all new names received before Dec 31. Specimen numbers free.—Agents wanted everywhere.

TO THE LADIES.

I respectfully invite your attention to the great advantages possessed by the celebrated Wheeler & Wilson, Sewing-Machine, Lock-Stitch, Family Sewing Machine, over all others.

What are the desirable features of a Family Sewing Machine?
It must be simple in construction, that it may be easily learned, and not liable to get out of order—silent in its operation—rapid in its execution of work—easily changed from one kind of work to another—capable of doing every variety of work—must run easy, so as not to fatigue the operator, and with all these, must be durable.

What Machine possesses these qualifications in the highest degree?
THE "NEW" WHEELER & WILSON—the most conveniently constructed—in the simplest, having but 65 parts, (Sewing-Machines have over 250,) of these, only 10 are parts of motion, and 15 points of bearing.

IT IS ALMOST NOISELESS, Being scarcely heard across a room.

It can be run at the greatest speed, thousands being used in Factories and operated by steam power. The "New" machine is more rapid than any other, making the lock-stitch. It is the most perfect in its construction, and can be run, hem, fold, gather and sew, without making changes in the machine. It uses no thread and makes the lock-stitch. Persons wishing to purchase one of these marvellous machines can do so by calling on Messrs. JAMES A. CARLBERY, Geo. S. DeWolf, Geo. S. Mattingly, John Dillaway, and many others who have the prize in use on their estates.

The Best Paper! Try It!

BEAUTIFULLY ILLUSTRATED.

The Scientific American, now in its 29th year, enjoys the widest circulation of any weekly newspaper of the kind in the world. A new volume commences Jan. 3, 1874.

Its contents embrace the latest and most interesting information pertaining to the Industrial, Mechanical and Scientific Progress of the World; Descriptions, with Beautiful Engravings, of New Inventions, New Implements, New Processes, and Improved Industries of all kinds; Useful Notes, Recipes, Suggestions, and Advice by Practical Writers, for Workmen and Employers, in all the various Arts.

The Scientific American is the cheapest and best illustrated weekly paper published. Every number contains from 10 to 15 original engravings of new machinery and novel inventions.

Engravings, illustrating Improvements Discoveries, and Important Works, remain on file, and are accessible to Engineers, Millwrights, Miners, and Metallurgists; Records of the latest progress in the Applications of Steam, Progress Engineering, Railways, Shipbuilding, Navigation, Telegraphy, Telegraph Engineering, Electricity, Magnetism, and Light and Heat.

Farmers, mechanics, engineers, inventors, manufacturers, chemists, lovers of science, teachers, clergymen, lawyers, and people of all professions, will find the Scientific American useful to them. It should have a place in every family, library, study, office and counting room; in every reading room, public academy, school, and office.

A year's numbers contain 822 pages and several hundred engravings. Thousands of volumes are preserved for binding and reference. The practical receipts are well worth the cost of the subscription price.—Terms \$3 a year by mail. Discount to Clubs. Specimen sent free. May be had of all News Dealers.

Patents. In connection with the Scientific American, Messrs. Munns & Co. are solicitors of American and Foreign Patents, and have the largest establishment in the world. More than fifty thousand applications have been made for patents through their agency.

Patents are obtained on the best terms. Models of new inventions and sketches examined and advice free. All patents are published in the Scientific American the week they issue. Send for Pamphlet, 110 pages, containing laws and full directions for obtaining Patents.

Attention Farmers!

I am now prepared to furnish planters with my Patent Tobacco Prize, upon the shortest reasonable notice. This Prize is now being quite generally used in this locality and has, so far, given universal satisfaction. The advantages it possesses over all other Prizes now in use are too varied and manifold to admit of description in this advertisement. It is conceded by all who have used it to be a great economist of labor, and it is admitted that it places Tobacco in market in a condition very superior to that of any other Prize now in use.

Prize with railway attachment to prize two lbs. alternately, \$80, without railway, \$60.
