The Weekly Sun.

1876. NEW YORK

Eighteen hundred and seventy-six is the Centennial year. It is also the year in which an Opposition House of Representatives, the first since the war, will be in power at Washington, and the year of the twenty-third election of a President of the United States.

All of these events are sure to be of great interest and importance, especially the two latter, and the year will be full of fresh reports and expounded in THE SUN.

The Opposition House of Representatives, taking up the line of inquiry, will diligently investigate the corruptions and misdeeds of Grant's administration; and will, it is to be hoped, lay the foundation for a new and better period in our national history. Of all this the Sun will contain complete and accurate accounts, furnishing its readers with early and trustworthy information upon these absorbing topics.

The third Presidential election, with the preparations for it, will be memorable as deciding upon Grant's aspirations for a third term of power and plunder, and still more as deciding upon our national history. Of all this the Sun will contain complete and accurate accounts, furnishing its readers with early and trustworthy information upon these absorbing topics.

The Weekly Sun, which has attained a circulation of over eighty thousand copies, is already has its readers in every State and Territory, and we trust that the year 1876 will see their numbers doubled. It will continue to be a thorough newspaper. All the general news of the day will be found in it, condensed when unimportant, at full length when of moment; and always, we trust, treated in a clear, interesting and instructive manner.

Attention Farmers!

I am now prepared to furnish planters with my Patent Tobacco Prize, upon the shortest reasonable notice. This Prize is now being quite generally used in this locality and has, so far, given universal satisfaction. The advantages it possesses over all other Prizes now in use are too varied and manifold to admit of description in this advertisement. It is conceded by all who have used it to be a great economy of labor, and it is admitted that it places Tobacco in market in a condition very superior to that of any other Prize now in use.

Prize with railway attachment to prize two hds. alternately, \$600. Without railway, \$500.
