"OLD RELIABLE."
The American Farmer,
the pioneer farm journal in America,
and one of the foremost of the agricultural
press of this section, begins,
January 1, a new volume under the
same control as for thirty years of its ex-
istence.

It will continue to be active in every
branch of agricultural improvement, and
will be a most valuable and interesting
medium to all those engaged in the
cultivation of the soil.
Containing nothing sensational or flashy,
it is a plain, sensible, and useful
medium for the farmer and his family.
It contains the aid of a large
number of correspondents, eminent in
their respective branches; and in each
number besides the treatment of the sta-
tionary, the management, uses and ap-
plications of home-made and artificial ma-
nures and fertilizers, will be found some-
thing sensible for the farmer.

Attention Farmers!
I am now prepared to furnish planters with
my Patent Tobacco Pipe, upon the shortest
notice. This Pipe is now being
sold generally in this locality, and is, so
far, given universal satisfaction. The advan-
tages of this Pipe over all other Pipes now
in use are too varied and manifold to admit of
description in this advertisement. It is con-
sidered by all who have used it to be a great economi-
st of labor, and it is admitted that it places To-
bacco in market in a condition very superior
to that of any other Pipe in use.
Price with railway attachment to private two
hds. alternately, \$60. With railway, \$60.
Reserve:
James A. Carberry,
Joseph T. Gough, Rev J. B. Wolf,

R Pays! It Pays!!
WHAT PAYS?
It pays every Manufacturer, Merchant, Mechanic,
Inventor, Farmer, or Professional man, to
keep informed on all improvements and dis-
coveries of the age.
It pays the head of every family to introduce
into his household a newspaper that is instructive,
one that fosters a taste for investigation,
and promotes thought and encourages discussion
among the members.
The Scientific American which has been pub-
lished weekly for the last thirty years, does this
to an extent beyond that of any other publication.
In fact it is the only weekly paper published in
the United States, devoted to Manufactures, Me-
chanics, Inventions and New Discoveries in the
Art and Science.
Every Number is profusely illustrated, and its
contents embrace the latest and most interesting
information pertaining to the industrial, Mechani-
cal, and Scientific Progress of the World; Dis-
coveries, New Inventions, New Processes, and
Improved Industries of all kinds; Useful Notes,
Receipts, Suggestions and Advice by Practical
Workers, for Workmen and Employers, in all the
various arts forming a complete repository of
New Inventions, Discoveries, and all kinds of
Engineering, Mechanics, and Science abroad.
The Scientific American has been published for
all industrial publications for the past Thirty
Years. It is the oldest, largest, cheapest, and
the best weekly illustrated paper devoted to En-
gineering, Mechanics, Chemistry, New Inven-
tions, Science and Industrial Progress, published
in the world.
The practical receipts are well worth ten times
the subscription price. And for the shop and
house will save many times the cost of subscrip-
tion.
Merchants, Farmers, Mechanics, Engineers,
Inventors, Manufacturers, Chemists, Lovers of
Science, and People of all Professions, will find
the Scientific American useful to them. It
should have a place in every Family, Library,
Study, Office, and Counting Room; in every
Reading Room, College and School. A new vol-
ume commences January 1, 1876.
A year's numbers contain 52 pages and several
hundred engravings. Thousands of volumes
are preserved for binding and reference. Terms,
\$3 25 a year by mail, including postage. Dis-
counts to Clubs. Special circulars giving the
rates sent free. Single copies mailed on receipt
of 10 cents. May be had of all News Dealers.
