

It Pays! It Pays!!

WHAT PAYS?
It pays every Manufacturer, Merchant, Mechanic, Farmer, or Professional man to keep informed on all the improvements and discoveries of the age.

It pays the head of every family to introduce into his household a newspaper that is instructive, one that fosters a taste for investigation and promotes thought and encourages discussion among the members.

The Scientific American which has been published weekly for the last thirty years, does this to an extent beyond that of any other publication, in fact it is the only weekly paper published in the United States devoted to Manufacturers, Mechanics, Inventions and New Discoveries in the Arts and Sciences.

Every Number is profusely illustrated and its contents embrace the latest and most interesting information pertaining to the Industrial, Mechanical, and Scientific Progress of the World; Descriptions, with beautiful Engravings, of New Inventions, New Implements, New Processes, and Improved Industries of all kinds; Useful Notes, Reports, Suggestions and Advice by Practical Writers, for Workmen and Employers, in all the various arts, forming a complete repository of New Inventions and Discoveries; containing a weekly record not only of the progress of the Industrial Arts in our own country, but also of all New Discoveries and Inventions in every branch of Engineering, Mechanics, and Science abroad.

The Scientific American has been the leading journal of all industrial publications for the past thirty years. It is the oldest, largest, cheapest, and the best weekly illustrated paper devoted to Engineering, Mechanics, Chemistry, New Inventions, Science and Industrial Progress, published in the world.

The practical receipts are well worth ten times the subscription price. And for the shop and house will save many times the cost of subscription.

Merchants, Farmers, Mechanics, Engineers, Inventors, Manufacturers, Chemists, Scientists, and People of all Professions, will find the Scientific American useful to them. It should have a place in every Family, Library, Study, Office, and Counting Room, in every leading Room, College and School. A new volume commences January 1, 1876.

A year's number contains 52 pages and several hundred engravings. Thousands of volumes are preserved for binding and reference. Terms, \$3.00 a year by mail, including postage. Discount to Clubs. Special circulars giving rates sent free. Single copies mailed on receipt of 10 cents. May be had of all News Dealers.

Patents. In connection with the Scientific American, Munns & Co. are Solicitors of American and Foreign Patents, and have the largest establishment in the world. More than fifty thousand applications have been made for patents through their office. Patents are obtained on the best terms. Models of New Inventions and Sketches examined and advice free. A special notice made in the Scientific American of all inventions, and through this Agency, with the name and residence of the Patentee. Address for the Paper, or concerning Patents, MUNN & CO., 37 Park Row, New York. Branch Office, Cor. F & 7th Streets, Washington, D. C. July 27, 1876.

I am now prepared to furnish planters with my Patent Tobacco Prize upon the shortest reasonable notice. This Prize is now being generally used in this vicinity and has, so far, given universal satisfaction. The advantages it possesses over all other Prizes now in use are so varied and manifold, and so numerous that no other Prize now in use can compare with it in any respect. It is conceded by all who have used it to be a great economy of labor, and it is admitted that it places Tobacco in market, a condition very superior to that of any other Prize now in use.
