Common Sense Washer.

JOSHUA JONES, Esqr., has obtained the Agency for St. Mary's county to sell the COMMON SENSE WASHER, patented by the Erie Washer Company of Erie, Pa., and is now canvassing for purchasers. The inventor has given to the public several that have gained a world-wide reputation. In producing the present one, he had the benefit of large experience, which he has skillfully applied, sparing no pains to make it as perfect as it is possible to make any piece of machinery for a special purpose. It contains all the good points found in all the others, reduced to the most practical form, and has no weak parts. Mr. Jones also sells the Walker Washer and the Walker Lever Wringer.

The price of the Common Sense Washer is \$5—The Walker Washer is sold for \$8—the Walker Lever Wringer also for \$8. Persons desirous of making inquiries in regard to these machines with a view to purchase can see the agent personally or communicate with him by letter, addressed to the Oakville Post Office. July 24, 1879.

The Sun will deal with the events of the year 1880 in its own fashion, now pretty well understood by everybody. From January 1 until December 31 it will be conducted as a newspaper, written in the English language, and printed for the people.

As a newspaper, The Sun believes in getting all the news of the world promptly, and presenting it in the most intelligible shape—the shape of the age with the least unproductive expenditure of time. The greatest interest to the greatest number—that is, the law controlling its daily make-up. It now has a circulation very much larger than that of any other American newspaper, and enjoys an income which is at all times prepared to spend liberally for the benefit of its readers. People of all conditions of life and all ways of thinking buy and read The Sun, and they all derive satisfaction of some sort from its columns, for they keep on buying and reading it.

In its comments on men and affairs, The Sun believes that the only guide of policy should be common sense, inspired by genuine American principles and backed by honesty of purpose. For this reason it is, and will continue to be, absolutely independent of party, class, clique, organization, or interest. It is for all, but of none. It will continue to praise what is good and reprobate what is evil, taking care that its illustrations to the point and plain, beyond the possibility of being misunderstood. It is unindifferent by motives that do not appear on the surface; it has no opinions to sell, save those which may be best for the country, and it will not be hater of unnecessary words. It abhors frauds, pious lies, and deplores sin-composers of every species. It will continue throughout the year 1880 to chastise the first class, instruct the second, and discountenance the third. All honest men, with honest convictions, whether converts, mistakes, or its friends. And The Sun makes no bones of telling the truth to its friends and about its friends whenever occasion arises for plain speaking.

These are the principles upon which The Sun will be conducted during the year to come. The year 1880 will be one in which no patriotic American can afford to close his eyes to public affairs. It is impossible to exaggerate the importance of the political events which it has in store, or the necessity of resolute vigilance on the part of every citizen who desires to preserve the Government that the founders gave us. The debates and acts of Congress, the utterances of the press, the exciting contests of the Republican and Democratic parties, now nearly equal in strength throughout the country, the varying drift of public sentiment, will all bear directly and effectively upon the twenty-fourth Presidential election, to be held in November. Four years ago next November the will of the nation, as expressed at the polls, was thwarted by an ambitious conspiracy, the promoters and beneficiaries of which still hold the offices they stole. Will the crime of 1876 be repeated in 1880? The past decade of years, especially the corrupt, extravagant, and insolent Administration entrenched at Washington. The Sun did something toward dislodging the gang and breaking its power. The same men are now intriguing to restore their leader and themselves to places from which they were driven by the indignation of the people. Will they succeed? The coming year will bring the answers to these momentous questions. The Sun will be on hand to chronicle the facts as they are developed, and to exhibit them clearly and fearlessly in their relations to expediency and right.

Thus, with a habit of philosophical good humor in looking at the minor affairs of life, and in great things a steadfast purpose to maintain the rights of the people and the principles of the Constitution against all aggressors, The Sun is prepared to write a truthful, instructive, and at the same time entertaining history of 1880. Our rates of subscription remain unchanged. The Daily Sun, a four-page sheet of twenty-eight columns, the price by mail, post-paid, is 55 cents a month, or \$5.50 a year, or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or \$7.70 a year, postage paid.

The Sunday edition of The Sun is also furnished separately at \$1.20 a year, postage paid. The price of the Weekly Sun, eight pages, fifty-six columns, is \$1 a year, postage paid. For those desiring to send \$10 we will send an extra copy free. Address: I. W. ENGLAND, Publisher of The Sun, New York City. Nov 13, 1878—6f.

MALTBY HOUSE, BALTIMORE.

Recognizing the fact that the relationship existing between the Counties of Maryland and the City of Baltimore is such that residents of the Counties have occasion to visit the City frequently during the year, in consideration of these facts and the liberal patronage extended the "Maltby" in the past, I deem it but a matter of justice that some discrimination should be made in their favor. I have therefore concluded to Reduce the Price of Board to \$2.00 per Day, feeling confident that the same will be fully appreciated by them, and at the same time merit and secure an increased share of their patronage. Assuring them that nothing will be left undone that can add to their comfort during their stay. Rooms without board, 75 cents and upward per day. C. R. HOGAN, Proprietor. April 10, 1879—1y.
