

THE ST MARY'S BEACON LEONARDTOWN, MD.

THURSDAY MORNING, June 2nd, 1880.

THE COUNTY CONVENTION.—The Democratic County Convention met at the Court House on Tuesday last for the purpose of selecting three delegates to the State Convention to meet in Baltimore on next Wednesday.

The following Committee on Credentials and permanent organization were appointed:—1st. district, J. F. Smith; 2nd do, J. D. Loker; 3rd do, Dr. Richard Gough; 4th do, G. R. Garner; 5th do, J. H. Hancock; 6th do, Thomas H. Bond; 7th do, R. H. Garner; 8th do, Charles Pembroke.

After a brief absence, the Committee reported the following named gentlemen for the permanent officers of the Convention:

President, Thomas H. Bond, Vice-Presidents, J. E. Mattingly and T. E. Loker; Secretary, Jefferson B. Jarboe.

The following are the Delegates reported entitled to seats in the Convention:—1st District—W. W. Brady, Wm. H. Raley, Wm. F. Stone, S. Clarke, J. Z. Graves, T. E. Loker, John H. Langley, J. F. Smith, W. R. Pembroke, J. P. Taylor.

2nd District—J. D. Loker, Geo. Guyther, John J. Allston, J. W. Ridgell, J. S. Hewitt, J. L. Milburn, R. J. Bean, R. M. Edwards, S. Wooten, T. H. And.

3rd District—Clarence Drury, Dr. R. Gough, J. E. Heard, J. P. Greenwell, Wm. F. Yates, John Dillaway, J. D. Thompson, Wm. Bowes, F. M. Dyer, H. F. Moore.

4th District—J. E. Mattingly, J. E. Carpenter, C. J. Russell, J. W. Carpenter, N. L. Penn, J. J. Alvey, G. R. Garner, Wm. F. Saxton, R. T. Barber, G. W. Goddard.

5th District—Col. John H. Sotheran, James Turner, James F. Ward, W. P. Herbert, J. T. Ballenger, W. S. Lyon, D. W. Slye, Jos. H. Hancock, Dr. Jas. Thomas, Jas. Burroughs.

6th District—F. H. Dorsey, S. C. Thompson, Jas. R. Higgs, T. H. Bond, Geo. L. Raley, James T. Parsons, J. F. Knott, Geo. R. Barnes, J. T. King, C. R. Brewer.

7th District—R. H. Garner, D. Coode, J. M. Dent, J. T. Blair, G. F. Herbert, W. H. Mattingly, B. H. Swann, E. A. Burch, Wm. B. Long, Ed. Plowden.

8th District—J. B. Jarboe, L. Hammett, J. B. Sherman, G. Hebb, C. M. Bohanan, W. H. Carroll, E. Wise, C. Pembroke, J. H. Waters, Z. T. McKay.

The following gentlemen were then put in nomination for Delegates to Baltimore—J. T. M. Raley, Dr. Thomas A. Lynch, S. C. Thompson, Col. J. H. Sotheran and Geo. Blakistone. Mr. Blakistone's name was withdrawn.

The delegates were instructed to either cast their full vote or to fill vacancies. A ballot was then taken with the following result:—Jas. T. M. Raley, 75; Dr. Thos. A. Lynch, 74; S. C. Thompson, 54; Col. John H. Sotheran, 16. The three gentlemen first named were then declared elected.

On motion, the following gentlemen were selected as Alternates:—C. R. Garner, T. E. Loker and Col. J. H. Sotheran. On motion, the Convention adjourned.

The Delegates elect are in favor of Bayard.

THE CHICAGO CONVENTION.—Whilst we are going to press the National Republican Convention is holding its session in Chicago and it is highly probable that it is a stormy one.

Interest is so opposite as are there represented can scarcely be reconciled without some violent outbreak. The Republican party of to-day can hardly be called a happy family.

Whilst at present writing it seems probable that Gen. Grant will be the nominee, yet it is possible, in view of the bitter opposition manifested against him, that he may fail to secure the coveted honor.

We should not be surprised if some comparatively unknown man should win the prize. Be the nominee whom he may, we hope that he will be one who can be easily beaten at the polls in November.

IMPORTANT TO SCHOOL TRUSTEES.—By a late order of the State Board of Education for Maryland, interpreting the school law, it was declared that teachers' appointments run from term to term, and from year to year, so long as their certificates are valid, and if trustees desire to remove, or to supersede the teacher last employed, they must give him 30 days notice, in writing, to quit, unless he shall have resigned. Said notice may be given at any time, but in order to allow teachers opportunity to make new engagements, notices ought to be given previous to the 15th of June, during vacation.

Teachers are required to give a like notice of resignation, of their desire to vacate a school, and both teachers and trustees are required to notify the School Board of all notices served in accordance with the premises of said order.

RATHER MILD.—The Baltimore Herald, of last Monday, in a paragraph about the Chicago Convention of 1864, contains a mention of our fellow-countyman Hon. B. G. Harris. We reproduce the article, premising, however, that Mr. Harris, instead of being knocked down, knocked down 'tother fellow.

"Mr. B. G. Harris, of Md., (then a member of Congress,) took the floor on 11th of May, 1864, as a Republican candidate. His grievance was the conduct of the General early in the war in arresting the members of the Maryland Legislature who had assembled at Frederick to pass an ordinance of secession.

"During the secession, Harris was knocked down, and for a time it looked as if the convention would break up in a row. Mr. Harris and his supporters soon became reconciled to the ticket, as the platform on which it was placed declared the war a failure, and pronounced for a national convention to take steps to bring it to an end."

Census enumerators will be paid as follows: Two and one-fourth cents will be paid to enumerators for every name returned, and 12 1/2 cents per farm, except in cities or boroughs, containing 2,000 inhabitants or more, according to the census of 1870, when the rate will be two cents per name.

For each death reported as occurring between June 1st, 1880, and June 1st, 1881, five cents, instead of two cents as heretofore. For establishments of productive industry 15 cents as heretofore. These rates are subject to the provisions of law that no enumerator shall receive in excess of four dollars, the maximum per day for each day of actual service.

It is proposed at an early date to test the constitutionality of the law for compulsory inspections of tobacco. It is contended that the present is unconstitutional. It was intended at first by one of the parties interested to take a case up to the Court of Appeals on an agreed statement of facts, but this programme has been changed, and the arrangement now made is that one of the planters is to take a test case to court and have it decided. The matter will be taken up to the highest courts before a conclusion is reached.

In the U. S. Senate last Wednesday, Ex-Governor Joseph E. Brown, of Georgia, presented his credentials and qualified as Senator in place of Gen. Gordon, who has recently resigned. Mr. Edmunds improved the occasion by calling attention to the fact that the credentials bore the date of May 21st, since which date Senator Gordon has been voting and acting as Senator; but it was soon decided that the same course has always been pursued.

DEATH OF JOHN MURPHY.—Mr. John Murphy, the well-known printer and publisher, Baltimore, died at the Carroll Hotel, on Thursday, 27th inst., in the 69th year of his age. In every relation of life he was an honorable man, and fitted well the phrase, "an honest man is the noblest work of God."

He was a devout Catholic, and was the publisher of many valuable Catholic works. He leaves two sons and four daughters. Mr. Murphy had been in ill health for two or three years past.

A law was passed by the recent Legislature which is of some importance to persons signing petitions for new roads. The law provides that in case examiners are appointed upon a road and their report should be adverse to granting the road, expenses incurred for the survey, &c., shall be paid by the persons applying for the opening of such road, and not by the County Commissioners.

The New York Star says:—"Blaine's farewell words to friends at the Fifth Avenue Hotel: 'I don't expect to win, but we mustn't let the breeze die out.' It must be acknowledged that the Flumed Knight's canvass has been largely composed of wind."

The five mile scull race between Hanlan and Riley, Washington, Wednesday last resulted in another victory for Hanlan. Time 36 minutes and 2 1/4 seconds.

It is said a good many Blaine men are buying fireworks, with the understanding that they can be returned to the dealer if not used. There is nothing like caution in investments.

MR. VERNOR PROPHESES AGAIN.—Mr. Henry G. Vernor comes forward again with his direful prophecies of storms, heat, cold, &c. His letter is dated at Montreal, May 18, and in it he says:—"I believe that June will be an intensely hot month on the whole, but the end of the present month, and probably the first of June, will be fall-like, with frosts again. July will be a terrible month for storms, with terms of intense heat, but another fall-like, relapse, with frosts, will, in all likelihood, occur a few days before the 20th. I fear the storms of thunder and hail will be of unusual severity during July. I must claim the verification of my prediction relative to 'a cold wave, with frosts, over a large portion of the United States between the 10th and 15th of May.'" The relapse toward the close of the present month will be more severe than that just past.

THE NATIONAL GUARD.—The pamphlet of instructions to enumerators has just been issued. By accepting their commissions enumerators bind themselves to carry their work on to completion unless prevented by reasonable causes from doing so. They cannot throw up the work from dissatisfaction or impatience.

Upon taking the oath of office, enumerators are furnished with an eighteen page pamphlet of instructions and the printed forms and schedules necessary to carry on the work. It is the duty of the enumerators in the exercise of their authority to use great courtesy and consideration. On the other hand it is not within the choice of any inhabitant whether he shall or shall not communicate the information required by the census.

Five regular schedules are created by law for the enumeration of the several subjects of inquiry, as follows: Population, agriculture, manufactures, social statistics, mortality. Regarding the schedule for social statistics, General Walker has withdrawn it from the enumerators and placed it in the hands of special agents.

Under the head of population, no child born between the first day of June and the day of the enumerator's visit; but the 5th, 15th, or 25th, is to be entered upon the schedule. On the other hand every person who was a resident of the district upon June 1, but between that date and the day of the enumerator's visit shall have died, should be entered on the schedule, under the head of deaths. The object of the schedule is to obtain a list of the inhabitants on the 1st of June, 1880, and all changes after that date, whether in the nature of gain or loss, are to be disregarded in the enumeration. The word "family," for the purposes of the census, includes persons living alone equally with families in the ordinary sense of that term.

For instance, no man is to be classed as a "factory hand" or a "mill operative." The better form of expression suggested is "works in a cotton mill," "works in a paper mill," &c. When clerks are returned they are to be described as "clerk in store," "railroad clerk," "bank clerk," &c. Fire and life insurance agents will be specified and the use of the words "glover," "hatter" and "furrier" will be confined to those who actually manufacture or make up in their own establishment all or a part of the gloves and hats or furs which they sell. Those who only sell these articles will be characterized as "glove dealer," "hat and cap dealer," "fur dealer."

Whether State or Federal, whether probate, police or otherwise, may be assumed to be lawyers and that, therefore, will not be given; but all other officials will have any profession designated, if they have any, as "Paper manufacturer," "Retired merchant," "Governor of Pennsylvania," "Representative in Legislature," &c. A man not to be called a "shoemaker" or a "bootmaker," unless he makes the entire boot or shoe in a small shop. If he works in a boot or shoe factory he is to be designated accordingly. The word "jeweler" will not designate those who make watches, watch-chains or jewelry in large manufacturing establishments, but those who are jewelers in the ordinary understanding of the term.

No man is to be called a contractor, a professor, an overseer, an agent, a collector, a treasurer, an artist, a speculator or a commissioner without more definite explanation. When a man has retired from business the fact will be entered thus: "Retired lawyer," "retired merchant," &c. Stoneasons are to be distinguished from brick-makers. No man is to be described as a mechanic if it is possible to describe him more accurately. Apprentices to carpenter, "apprenticed to painter," "apprenticed to apothecary." The distinguishing line will be drawn between farmers and laborers. The term manufacturer will be reserved for proprietors of establishments, thus: Cotton manufacturer, "woolen manufacturer," "iron works," "maker of bonnets, face chocolates, &c.," are not to be designated as manufacturers, but entered as lace-makers, bonnet-makers, &c.

Under the head of "agriculture" no farm will be reported of less than three acres unless \$500 worth of produce has been actually sold off of it during the year. A farm, in the meaning of the census instructions, is what is owned or leased by one man and cultivated under his care. The amount of the various crops will be estimated according to the best judgment of the proprietor where no exact amount is kept. For the collection of statistics regarding manufactures General Walker has appointed special agents. Upon the subject of iron and steel James M. Swank, of Philadelphia, has been appointed. Each enumerator will be required to make a daily report to the supervisor of his district, and to the Supervisor of Census at Washington. For this purpose postal cards with a printed form on the back will be furnished each enumerator, and it will be his duty to fill up the blank space thereon with a statement of his work for each day.

MARYLAND'S MONUMENT.—The ceremonies attending the unveiling of the monument of the Maryland Confederates dead at Winchester, in the valley of Virginia, on Saturday next, will attract to that historic town a larger crowd than has been within its confines since old Stonewall Jackson was master of the valley, and the visitors on

the occasion will be from all parts of the "Mother of States," and her younglings dropping West Virginia, and her sister, Maryland, my Maryland.

From Baltimore there will be present, the Fifth Regiment, with band and drum corps; the Society of the Army and Navy of the Confederate States in Maryland, with Charles's band; and "the Old Maryland Line," who fought so bravely under General Bradley T. Johnson, with other parts of the State there will be the Towson guards, from Towson, D. G. McIntosh, captain, numbering 75 musketeers; the Catonsville Guards, D. B. Barnett, captain, 75 men, with band and drum corps; the Governor's Guard of Annapolis, Lewis Green, captain, 75 men with the Marine band.

From Virginia there will be present, the National Guard, comprising the 1st Regiment Virginia volunteers, the Alexandria Light Infantry, with companies from Norfolk, Portsmouth, Petersburg, Lynchburg, and other towns of the State.

The address on the occasion of the unveiling of the monument will be delivered by Spencer C. Jones, Clerk of the Court of Appeals of Maryland, and the statue will be unveiled by Miss Julia Jackson, daughter of the old Confederate chieftain.

Electoral College.—The following table showing the vote to which each State is entitled in the Electoral College, may be found of great use now-a-days.

Table with 2 columns: State and Number of Electors. Total: 369.

WHITEWASHED BABIES.—A missionary stationed at one of the South Sea Islands determined to give his converts the benefit of white wash. To obtain this in the absence of lime, coral was reduced to powder by burning. The natives watched the process of burning with interest, believing that the coral was being cooked for them to eat. Next morning they beheld the missionary's cottage glittering in the rising sun white as snow. They danced, they sang, they screamed with joy. The whole island was in commotion. White wash became the rage. Happy was the couplet who could enhance her charms by a daub of the white wash. Contentions arose. One party urged their superior rank; another obtained possession of the brush; and valiantly held it against all comers; a third tried to upset the tub to obtain some of the precious cosmetic. To quiet the hubbub, more white wash was made, and in a week not a hut, a domestic utensil, a war club or a garment, but was white as snow; not an inhabitant but had a skin painted with gorgeous figures; not a pig that was not whitened, and even mothers might be seen in every direction capping joyously, and yelling with delight at the superior beauty of their whitewashed babies.

Whatever other sins may be laid at President Hayes's door, we must acquit him of the crime of ingratitude. The fidelity with which he rewarded all the participants in the fraud which placed him in the White House, is only equalled by the foresight with which he provides life berths in the shape of District Judgeships, for the members of his soon-to-expire and be forgotten cabinet. McCrary and Key have both been provided for, and no doubt the next vacancy will be filled by the appointment of the Ancient Mariner who is at the head of our costly and ornamental navy department.

Both the President and his Cabinet Officers realize that their political days are numbered and they are making their hay in the little while the sun has to shine for them. Is there no way in which Mr. Hayes can provide himself with a nice little office a few days prior to the inauguration of his Democratic successor? He might resign and let Vice-President Wheeler appoint him to something.

THE HEATED TERM.—An official record of 27 years shows that the month of May was the hottest ever known in Philadelphia, Pa., on Wednesday several persons and 30 horses succumbed to the heat; in New York 14 persons were sun-struck, and the heat was represented as being terrible. In New Hampshire it was the hottest day ever experienced. The thermometer ranged from 96° to 101° in the shade, the latter at Manchester. A number of litters registered 100° in the shade. At Lowell, Mass., the mercury reached 102° in the shade.

Of all the modern inventions the Patent Lacquer takes the lead, but experience teaches all that whether poultry is hatched by the parent process with artificial heat, or by the original way patented by nature, they are subject to cholera, pip, &c., and experience, also teaches those that have tried Roberts' Poultry Powder in such case, that it is a sure cure every time. For sale by Combs & Spalding, Leonardtown.

THE LEADERS OF FASHIONABLE DRESS AND LOW PRICES.—C. N. HARRIS and Son, proprietors of the famous one-piece double Clothing House, Baltimore, now carry over two entire stock of beautifuls with their splendid stock of Men's, Youth's, Boys' and Children's Styling Clothing. Having bought and manufactured their entire stock to order, they are selling at the great advance in woollens, they are selling great bargains in every department. Spring and Summer wear which were cut off for to overlook. We feel it our duty to call the attention of our readers to this truly famous and reliable establishment, corner Pratt and Hanover streets. No one in the line of Clothing, ready-made and made to order, should fail to call on Oehm & Son and see the low prices at which the most choice and perfect fitting garments are sold.

LOCAL NOTICES.

Service at Our Lady's Chapel.—The Dinner advertised to take place on Wednesday has been postponed, on account of the bad weather, until to-day, Thursday.

Voluntary Meeting on Saturday.—The fine rain of last Friday enabled such of our farmers as had plants to pitch a small portion of their tobacco crop. We hope that our farmers, who have planted part of their tobacco land in corn, have been too busy and that the tobacco prospect may turn out better than at present seems probable.

My Prosecutor.—We had the pleasure of witnessing two religious processions during the past week, one on Thursday consisting of the white boys and girls and another on Sunday of the colored. Of the Thursday's procession we can, with truth say, it seemed "A glimpse of Heaven upon the earth below." We were under the impression that nothing earthly could give even a remote idea of the Angels. After seeing some one in the procession, we changed our opinion. The young ladies, dressed in white, and all were beautiful. We could name the prettiest but will not.

Two Victories for St. Mary's.—After many days, victory has again perched upon the banner of old St. Mary's on the turf, and two of her horses have carried off deserved laurels. Clyde Hampton and Derby have been the winners of their respective races at the Spring meeting at Falmouth, the former in a two mile race and the latter in a steeple-chase. Both horses are owned by Dr. Lynch, and we congratulate him. The races were closely contested, and from newspaper reports were very exciting. We have always had faith in Derby, but are informed that Clyde Hampton is likely to come to all he is and overcome it and will grow even more famous.

Secarcity of Tobacco Plants.—Farmers are noted as complainers. It is with them either too hot or too dry, and local Editors are generally considered in their interest when they give public expression to the complaints. All this may be true, but in the matter of tobacco plants at this time their complaints are just, and we but chronicle the truth in announcing that, as a general thing, the tobacco beds in this county are a failure. Such universal and wide-spread complaint must show the general situation. We have been informed by a reliable friend, a physician in large practice, that two-thirds of the farmers in his rides are without plants, and without any prospect of getting them. This is the situation, and it is a gloomy outlook.

Look After the Fruit Trees.—Now is the time to destroy the vermin that lurk in the loose bark of the fruit trees. Give the trunks of the trees and the larger limbs a good scrubbing with strong lye, using a stiff hickory broom. It will remove the loose, jagged bark and destroy the larvae and eggs of the various enemies of the fruit, and act as a fertilizer and stimulant to the trees. You will find abundant reward later in the season in thrifty trees and perfect fruit.

Elegant Hair is woman's crowning beauty. When it falls the fides as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their falling hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is clear and beautiful preparation, containing neither oil, yew, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—New York (N. C.) Times.

LAND SURVEYING BY JOHN H. CHUNN, MECHANICVILLE MD. Feb 5, 1880—1y.

Executors' Sale OF REAL ESTATE.

By virtue of a power vested in me by the last will and testament of George H. Morgan, late of St. Mary's county, deceased, I, executor of said decedent, will offer at public sale, at the Court House door in Leonardtown, Tuesday, the 15th day of June, 1880,

between the hours of 12 m. and 4 o'clock p. m., the following described real estate, to wit: LOT No. 1, recently surveyed by John H. Chase, known as

COODRICH FARM, containing 112 acres, more or less; LOT No. 2, CONTAINING 108 ACRES; One other tract of land, bought of A. T. Johnson and ADDITION, containing 27 ACRES, more or less.

The above lands are located near St. Joseph's church in Saint Mary's county, and are of new soil and adapted to the growth of all the staple crops of this section. The said lands are sold for the purpose of paying the debts of the decedent and for a division of the remainder among the heirs.

THE TERMS OF SALE, are: One-third cash on the day of sale, and the balance in two equal installments of one and two years, the deferred payments bearing interest from the day of sale, with security to be approved by the said Executor.

J. T. M. RALEY, Executor. May 30, 1880—1y.

NOTICE.—The Hon. J. M. Spangler, of the late George H. Morgan, the undersigned, his children and heirs at age, desire to state, that the said property has been advertised to be sold at the solicitation, by Mr. Raley, in order to bring the estate to a final settlement. We have perfect confidence in Mr. Raley's management of said estate, and hereby authorize the said executor as Executor to the best of his ability, notwithstanding many "false rumors" to the contrary. In conclusion, we will say to those who contemplate purchasing the above real estate, that a "clear title" will be given to the "purchaser," both by the Executor and heirs at age.

Respectfully, GEORGE M. SMOOT, THOMAS MORGAN.

NOTICE TO CREDITORS.—Orphans' Court of St. Mary's County, Set: May 11, 1880. ORDERED by the Court, that James F. Mattingly, administrator of the late George H. Morgan, do give notice to the creditors of the said decedent, that a final settlement of the estate of the said decedent, by the said administrator, will be made on the 15th day of June, 1880, at which time all claims against the said estate, and all debts due to the said estate, must be presented to the said administrator, for his consideration, and that a "clear title" will be given to the "purchaser," both by the Executor and heirs at age.

Register of Wills for St. Mary's County. NOTICE.—In pursuance of the above order, I hereby give notice that I have obtained from the Orphans' Court of St. Mary's County, Maryland, letters of administration on the estate of the late George H. Morgan, late of said county, deceased. All persons having claims against the said decedent are hereby notified to exhibit the same with the proper vouchers attached thereto to the undersigned, on or before the 15th day of November, 1880, or they will be barred by law from the benefits of the said estate. All persons indebted to the decedent are requested to make immediate payment to the subscriber.

JAMES F. MATTINGLY, Administrator. May 13, 1880—6w.
