To Tobacco Planters.

Planters desiring to grow BRIGHT YELLOW TOBACCO of SILKEN TEXTURE, should use the EXCELSIOR, manufactured by me. In the opinion of the most experienced Planters, it starts the PLANT QUICKER, GROWS A LARGER LEAF of finer quality, and produces a more uniform crop than any other Fertilizer or Guano, and the crop is not so liable to suffer from drought.

In calling the attention of the Tobacco Planters of Maryland and Virginia to my EXCELSIOR OF FERTILIZER, I desire to inform them that I strictly adhere to my original Formula, established in 1858, using only the most concentrated material, viz. No. 1 Peruvian Guano, Animal Bones, dissolved in Sulphuric Acid, and High Grade Potash. Superintending in person its manufacture, as for the past twenty-two years,
