

office have been and are so conspicuous, but I do hope and sincerely trust that they may learn not to make the welfare of the people subservient to their individual aspirations, for we recognize but two great political parties—the Democratic and Republican. Then he who does not fully act in accord with the one must act with the other, and should be classed as such. Hence it follows that he who takes part in party convocations and does not (because his particular ideas are not carried out) act in good faith according to their decisions, is a traitor to that party. That it is generally conceded the wholesale defeat of the Democratic party of our county in 1876 was due to its disorganized state, caused principally by personal difference and greed for office, no one can gainsay.

Executor's Sale
OF VALUABLE
REAL ESTATE.

BY virtue of a power vested in me by the last will and testament of Mary E. Biscoe, late of St. Mary's county, deceased, I, Executor of the said decedent, will offer at public sale at the Court House door in Leonardtown on

Tuesday, the 22nd of March, 1881,
between the hours of 12 o'clock m. and 4 o'clock, p. m., the following real estate, to wit:

One tract or parcel of land, called and known as

Part St. John's Landing,
containing 165 acres,

more or less—being the same land which was allotted to said decedent by John P. Dent, Young P. Dawkins and John C. Herbert in the division of the real estate of the late Wm. Biscoe, and designated by them as LOT No. 1.

Also, I interest in an undivided tract or parcel of woodland called and known as

Part Barron Doe,
containing in the aggregate 30 acres, more or less.

The above described lands are located near the Head of St. Clement's Bay, and are of fine soil and adapted to the growth of all the staple crops of this section.

The improvements on the Home Farm consisting of a DWELLING HOUSE, BARN and the necessary OUTBUILDINGS, are in good condition, and the situation is such as to render this farm one of the most desirable in the market.

TERMS OF SALE

are: One-third cash on the day of sale, and the balance in two equal installments of one and two years, the deferred payments to be secured by the Executor, or all CASH at the option of the purchaser.

DANIEL C. HAMMETT,
Executor.

B. F. AVERY & SONS,
LOUISVILLE, KY.

Are manufacturers of a great variety of

GAST AND STEEL PLOWS

Comprising models to suit any soil. There are many Maryland farmers who have used the Avery Plow, who know of their merits, and praise them highly for being exactly the best they are represented to be—first-class plows in turning, breaking and harrowing, and for their lightness. We have just made Messrs. B. F. AVERY & SONS, of Louisville, Ky., agents for Maryland and territory tributary to Baltimore. Messrs. B. F. AVERY & SONS, will carry a large stock of these plows and will be prepared at all times to fill orders for plows or extra parts. You are particularly invited to call on their agents in Baltimore, at 106 South Charles Street, Baltimore, Md.; also send them for their circulars and plow catalogues. Yours respectfully,
B. F. AVERY & SONS, Louisville, Ky.

THE AVERY PLOW.

It is a well-understood fact among farmers who have used the Avery Plow, that they are plows that are not only well-made, but that they are made out of the very best material, whether cast-iron, or timber.

Copying of an inferior quality is allowed to go into the market, and farmers who buy the Avery Plow know they can always rely upon what they are getting, and that they are getting the very best.

The models are made as a lifetime in the best design, and are well known for their lightness of weight.

The Cast Plows are made from pig metal of from seven different varieties of cold and hot blast, so that the greatest possible strength is attained, and in case the plow is broken, from which a daily record is made.

This bar is poured at the same time the other mold-boards are made, and in case the bar is not up to the standard, all the castings are melted over again.

All Steel Plows have thoroughly hardened mold-boards. Farmers are requested to test these mold-boards by using a good file either on the surface or on the edge.

If the Plow is easily tied, the quality is poor. Points and land-boards are all duplicated, being tied in the way to the original.

The timber used is "hickory," the toughest oak from Kentucky and Indiana—bottom lands. These facts are made known for the benefit of farmers who have never used the Avery Plow; those who have used them already know their merits.

SYRACUSE CHILLED STEEL PLOW!
OF SYRACUSE, NEW YORK.

First Premium at Pennsylvania State Fair, 1880; First Premium at New York State Fair, 1880; First Premium at National Fair, Washington, D. C., and at Sixty-three other County and Town Fairs.

It combines all the excellencies of any Plow in use. It is superior to all other plows made to any other Plow. It embraces several new features of the greatest value. The heavy, roller Standard, and Wood Standard are the best made. It is a combination of Steel and Iron, chilled under a process for which we have obtained an exclusive patent. The weight is eighteen pounds less than our former styles. A Steel class Steel Plow, made in the ordinary way, full rigged, retails for twenty-two dollars. Inferior Steel Plows retail from sixteen to sixteen dollars. The price of our new Plow is but Seventeen Dollars, and it is the cheapest Agricultural implement ever sold. It is the cheapest. We will change any other Plow now made into a Steel class at a half price.
