

Local Dottings.

To Correspondents. The contribution referred to in our last is respectfully declined.

Lacoste Leads. Our village correspondent supplies us this week with the following mentions: Col. Fenwick left for Baltimore on Tuesday.

Messrs. T. M. and John A. Camalier left for Baltimore on Sunday morning. The ladies of St. Aloysius' congregation are very busy preparing for their strawberry festival.

The procession of the children at St. Aloysius' on Sunday last was both interesting and impressive. Mr. J. Philip Greenwell, who for the last two days has been "doing" Medley's Neck is off on a flying visit to Choptico.

Mr. J. Frank Ford, of Medley's Neck, is having his residence remodelled and repaired. The marriage of Mr. Ally Loker and Miss Bettie Coad, both of this county, is announced in the Baltimore papers.

Mr. Thomas Boyd has added to the attractions of his house a supply of rocking chairs. His supply of liquid rockers is also of the finest order and very popular.

Mr. Joseph G. Daborough has commenced bringing his strawberries to market, and judging from their appearance, they are very fine, though we have not yet had an opportunity of testing their flavor.

The Board of School Commissioners held a meeting on Tuesday last and transacted general business. It is said, can't say on what authority, that the white schools will be closed from the beginning of June.

We hear with regret that Justice Morgan is at present under the weather. He has recently had two severe attacks of indigestion, but though still under the doctor, nothing serious is apprehended.

Mr. Wm. H. Love, of Baltimore, Secretary to Mayor Whyte, has been paying our town a visit. It is reported, that he is preparing for a resting place to spend his summer and we hope he found Leonardtown to his liking.

The Entertainment Tuesday Next. We wish our readers to bear in mind that Tuesday next, the 5th inst., has been fixed upon as the day, and Moore's Hotel as the place, for the holding of the proposed Strawberry Festival for the benefit of St. Andrew's Church.

Mr. Wm. H. Love, of Baltimore, Secretary to Mayor Whyte, has been paying our town a visit. It is reported, that he is preparing for a resting place to spend his summer and we hope he found Leonardtown to his liking.

The Board of School Commissioners met at their office on Tuesday last, the President in the chair and all the members present. The appointment of Miss Clara Frink to Public School No. 3, 1st election district; Lewis C. Thompson to 4th election district; and J. C. Starr to 3rd election district, were confirmed.

Meeting of the School Board. The Board of School Commissioners met at their office on Tuesday last, the President in the chair and all the members present. The appointment of Miss Clara Frink to Public School No. 3, 1st election district; Lewis C. Thompson to 4th election district; and J. C. Starr to 3rd election district, were confirmed.

Quite a large audience gathered at Mt. Zion M. E. Church on Friday evening, the 25th inst., to attend a meeting of the Mechanical Temperance Society. Speeches were made by Messrs. B. F. Ballenger, J. F. Shaw, Dr. Z. R. Morgan and Rev. J. C. Starr.

For Benefit of Housekeepers. As Spring house cleaning is about to set in, we copy the following hints from one of our exchanges, and publish them for the benefit of housekeepers: For ordinary woodwork use whitening to rub the dirt off, and ammonia Goppers mixed with the whitening upon the cellar walls will keep vermin away.

As Summer is approaching and weeds, despite the dry weather, are not impeded in their growth, we take this occasion to state that Point Lookout Cemetery where the remains of so many brave Southern heroes, is in great need of diligent hands for a few hours. A thorough cleaning out of weeds, bushes, etc., would unmistakably improve the appearance of the place, and we indulge the hope that our citizens are not as forgetful as Hesperus. When we are passionately dedicated, scores of persons promised that the ground (sacred) should be kept in proper condition—i. e., beautified.

The merchants of the Pine, Grey's Level and Scotland have whitewashed and otherwise embellished their places of business. Farmers are complaining of the slow growth of corn and potatoes. Rain is needed. We should bear in mind that the golden scepter of mercy wielded by the Omnipotent Hand on high is not withheld, and there is not just cause for complaint when we passionately consider our position, etc. Buyers of crabs are competing with one another, and it affords us pleasure to understand that all bitterness of feeling among them has subsided. Why cannot men engage in the same business and maintain their better feelings? We opine it can be conscientiously done in any occupation. The passive virtues of patience and forbearance are all that is necessary. The health of the district is comparatively good. Thanks. Heavy dew, and thermometer 50 degrees during the night.

New Advertisements.

Attention is called to the advertisement of the Excelsior Clothing House, to be found in this week's issue. Read the notice of the Strawberry Festival of the ladies of St. Aloysius' congregation which appears in our present paper and note the time and other features of the entertainment.

The attention of those in need of a Desatit is called to the card of Dr. Gustavus R. Brown.

The Champion Machines. The Champion Machine, for the sale of which Mr. T. M. and John A. Camalier, in this county, is the agent, have acquired a great reputation for the excellence of their work throughout the length and breadth of the land.

Reuben V. Selzer, of Oley township, Vice-President of the Berks County Agricultural Society, has had the Champion machine for years on his large farm, and last year became the possessor of an improved automatic corn loader. He gives the machine a high respect for its neat work, simplicity of mechanism, reliability, and the ease with which it can be used.

With the addition of a man to stack, a cut of from 15 to 20 acres per day, and of 30 grain nicely, can be made. The great economy of the machine will thus be readily seen. One machine will do the work of six men, so that at the end of the day there will be six months' extra work, and there will be six months' extra pay, and there will be six months' extra profit.

Mr. J. Philip Greenwell, who for the last two days has been "doing" Medley's Neck is off on a flying visit to Choptico. The marriage of Mr. Ally Loker and Miss Bettie Coad, both of this county, is announced in the Baltimore papers.

Ammoniated Super-Phosphate of Lime, Dissolved South Carolina Bone Phosphate, "Special" Tobacco Compound, Locust Point Compound, Pure Dissolved Bone, Lard Plaster, and all Fertilizing Materials.

Office, 89 EXCHANGE PLACE, Factory, Locust Point, BATIMORE.

I deem it entirely superfluous to say anything of the quality of our fertilizers, as they have stood successfully a test of nearly 27 years, and no fertilizers can show better results. Suffice it to say, the Company uses the most improved labor-saving machinery and the best crude material and pays cash for same. With these advantages I am prepared to offer the farmers of Southern Maryland our High Standard Fertilizers at prices that defy competition for the same class of goods. I feel truly grateful to my friends and customers for their very liberal patronage in the past and hope, by keeping our goods up to the known high standard, I may merit a continuance of the same. I am now making my usual trip through Southern Maryland, and should I fall to see all of my customers, please remember that all responsible orders sent direct to the firm will receive prompt attention.

Yours very truly, JOHN M. LLOYD. March 15, 1883—4m.

LEADER AND REX, STANDARD FERTILIZERS OF ESTABLISHED REPUTATION. LEADER for Tobacco—REX for Grain, Potatoes, &c.
