

Local Dettings.

Erratum. In the report in our last issue of the arrest in Washington, of the Howe brothers, we neglected to give Mr. Daniel J. Payne credit for his share in their capture. We here make the amend.

Village Notes. We are indebted to our Village correspondents for the following mentions: The Moonlight Excursion, on the Steamer Arrowmitch to Piney Point, did not have much moonlight nor much Piney Point, but the excursionists had a pleasant time otherwise and returned home safely on the fall-out of a thunder storm.

After the extreme heat we have been enjoying, for the last ten days, a delightful spell of cool weather. Mrs. Deol of Washington is on a visit to Mrs. Joseph H. Key. Miss Rosa Ford is on a visit to Mr. P. F. Edelin of our town.

The Excursion on the Bertie to Deal's Island returned safely on Sunday evening. Judge Ford has returned to Leonardtown from a short trip to the country.

Mr. Wilson's personal property will be sold on next Tuesday. Mr. V. H. Neale, of Baltimore, was in town on Tuesday.

Mr. Toomy of wooden-stock pump fame was here on Saturday to ascertain what damage was being done his trade by the substitution of artesian for old style wells. I think that he went away satisfied with his investigations.

Dr. Walton has already received a horse to train for the fall races. A gentleman friend passed through town on Thursday from the second district and reported the return of one of St. Mary's county's bellies after a prolonged absence in the West.

Several gentlemen from the Eastern Shore are visiting our county looking out for desirable farms to purchase.

Horse Shoeing. Messrs. J. J. Jarboe & Son, having obtained the services of a competent smith, have added horse-shoeing to their undertaking and wheelwright business, and are prepared to attend promptly to all work that may be given them.

Geo. F. Sloan & Bro. The attention of our readers is called to the new advertisement of Geo. F. Sloan & Bro., wholesale and retail lumber dealers, 132 Light Street Wharf, Baltimore, Md., which appears in to-day's issue of the Enterprise. Having dealt with this firm ourselves for several years' past, we can safely recommend it to others for square dealing and reasonable prices.

County Levy. We give on the first page of our present issue the County Levy for the current year, as our readers would have had a right to complain of us if we had ignored the publication of a statement so important to their interests. Premising that it is copied from the Enterprise, and that we have not had time to verify its accuracy by comparing it with the books of the Commissioners, we submit it to our patrons with all present comment.

The Tourney Consist. There comes upon us a cavalier brightly arrayed and lance in poise, and he rides swiftly and surely, and presently he carries away three rings on his lance three several times, whereas he is declared the victor, and he receives some spoils in the shape of prizes and is compelled to listen to such speech-making, and then is given a crown of artificial flowers wherewith to deck the brow of some fair lady of his acquaintance. And there is a dunt, and oftentimes much amusement thereafter, of such is the tourney wherewith the season is now upon us.

Personal. We were pleased to see in our office, last Wednesday, Mr. Frank Herbert, of Washington. Mr. Herbert is a genial and pleasant as ever.

We had the pleasure of meeting, during his flying visit to our village, Mr. O. E. Turner, son of the former editor of the PRINCE GEORGIAN. "Quincy" and the writer were schoolmates and we know of no acquaintance that could have given us more genuine pleasure to renew.

Owing to the sickness of his little boy, Judge Crane has been compelled to delay his contemplated visit to the Springs, but will, we learn leave in a few days. We also hear that before his departure, his Honor will draw the jury for the September term. Tuesday next will, we understand, be the day of the drawing.

The Largest Yield Yet. The largest yield of wheat yet reported in our county was realized by Mr. J. B. Jarboe, of Newtown Manor, who obtained 48 bushels from one of seed. Of course, this was largely above the average of Mr. Jarboe's crop, but we learn that this was within a fraction of 25 bushels to the bushel of seed. Mr. James T. Atell and Payne, of the same Manor, made even a larger average than this, but we are at present without the exact figures. We make these mentions to remind our friend, Col. Earle, who lately visited St. Mary's, that if we cannot hope for valuable emigration to our section until we reduce our taxes and the need our roads better, under conditions of intelligent farming, we can nearly equal the best lands in Queen Anne's in wheat production.

The Dog Days. We are now passing through that particular season known as the "Dog Days," which precede and follow the heliacal rising of the star Sirius—in the Constellation of the Greater Dog—in the morning, which in Pliny's time was on the 13th of July. The extreme heat of this season of the year, although so palpably the effect of the continued high position of the sun, was connected by the ancients with the appearance of this star in the morning. They considered the Dog Star as raging, and gave the time the appellation of the Dog Days. The liability of dogs to rabies in consequence of the heat of the season was connected with the same star, though there was nothing but accident in the connection, and they bethought themselves without mercy. At Argus there was a festival especially instituted for the killing of dogs during the season. By the procession of the equinoxes the heliacal rising of Sirius in the morning has been changed to the latter end of August, and in a few thousand years will take place in the depths of winter.

Distinguished Visitors. Gen. Bradley T. Johnson, of Baltimore, and Col. Samuel Cox, of Charles county, paid our village a visit on Thursday last and remained in town until the close of the evening when they left, on their way with Senator Allison, who had engaged to meet them here, for a visit to St. Mary's City and St. Inge's Manor in the lower section of the county. It is understood that Gen. Johnson is prospecting historical points in St. Mary's for information bearing on the early history of Maryland, a subject upon which he has already distinguished himself, and to make himself familiar with the topography of the places named, with a view of utilizing them in preparing another publication which he contemplates soon making concerning the times in which the foundations of our State were laid. During the stay of Gen. Johnson in town on his downward visit, many of the "boys," now alas! in "the sera, the yellow leaf," or fast becoming so, called upon the General to pay their respects and renew old acquaintanceship. They speak in glowing terms of their reception by their old Commander and represent him as the same genial, pleasant and kind-hearted gentleman that he showed himself in the dangerous days when they followed his flag through the storm and flame of the late war between the States. Many citizens of the village also called to pay their respects to Gen. Johnson during his stay and all expressed their pleasure at making his acquaintance and their gratification with his manners and conversation.

Of the General's trip to the lowest point in the county reached by him, we are indebted to a correspondent for particulars, which we give below with grateful thanks to the writer: "Left Leonardtown on Thursday, p. m., for Great Mills. Arrived at the latter place about 10 at night. On Friday, a. m., left Great Mills for St. Mary's city, where we were most cordially received by the accomplished Principal of the Seminary, Miss Lizzie Thomas, with whom we dined by invitation at 4, p. m., after which he graciously accompanied us around 'the old historic grounds, pointing out all spots of interest, i. e., the vault in which L. Calvert and his wife; the fragments of the Old Mulberry, now deposited in the gallery of the Episcopal church, which was built of the bricks of the Old State House.

"We then repaired to the palatial residence of Dr. Brome (the chevalier widower), and were most delightfully entertained for an hour or more, the Dr. being made happy immediately upon our arrival by the General, who promised to meet him next week at the 'Greenbrier White' and marry him at the following week to the prettiest, richest, smartest and richest widow who has visited the Springs for the past decade. The Dr., of course, dispensed his usual old-fashioned hospitality, and in turn made the General equally happy by besueting him with his niece, Miss M., who so delighted him that they resolved themselves into a mutual admiration society, declared themselves cousins, and at parting, seemed pleased to see each other just such a kiss as all Generals give pretty girls in the absence of their pretty wives. We then proceeded on our journey to visit the Jesuit Manor, where we were met by 'good Father Pye,' 'he does all things well,' and was shown the 'old bell,' which bears the date of 1672, and was told by the seven old cannon there, which were brought over on the 'Dove.' By this time we, prompted by an instinct of nature, consulted our watches and found that 2 o'clock was near at hand and that at 4 we were booked to dine at the hospitable home of the elegant, accomplished and charming Miss T., who are never excelled in anything they undertake. Returned there, and oh! such a dinner! In the absence of Mr. Thomas, Dr. Brome became the best host, ever thought of the happiness of others, brought over the charming wife of his son, whom to know is to admire. We all regretted not to have seen 'Tom' himself, but excused him upon the principle of 'duty always first.' 'The Dr. recollected, too, that the General 'loves his cousin,' so he brought along the 'pretty fairy' who had so entranced his guest a few hours before. At 6, we left St. Mary's City and returned to the Great Mills. The General declared St. Mary's river the most beautiful he ever saw—the people generally the most hospitable—the men the most impudent and the women the most lovely. He denominated the 'water cooler,' which we carried along, packed with wine, beer and 'singing' (Monticello), smothered in ice, 'a spring of many waters.' He also expressed himself as so charmed with the county that he declared his determination to buy a farm in St. Mary's for his building in Fall and Winter, where by can enjoy big systems and the many luxuries our waters offer, all the year round.

"On Saturday morning we were obliged to retrace our steps. Leaving our host at Great Mills, we wended our way to Leonardtown, where we again became the recipients of your famed hospitality."

Thermometrical. Mr. Lipscomb, jeweler, continues his thermometrical report as follows: Thursday, July 28: High barometer, 30.4 a. m., 69°; 12 m., 82°; 6 p. m., 76. Friday, 6 p. m., 79°. [Local Correspondence.] Backwoods, July 31st, 1883. Messrs. Editors:—I shall have to ask permission once more for a small space in your column, hoping not to intrude too much on your good nature, but little boys are sometimes full of curiosity and desire to obtain all information and reveal all they know. Since my last communication, an assault was committed upon Billy Ferrall by Fred. Hill and Jim Shaw. They were sentenced to jail, after trial, one for 30 and the other for 15 days by Justice J. F. Morgan, of your town.

I understand that our County Commissioners have given the County Printing to the Enterprise newspaper at the price of \$500 when you offered to do the same work for \$300, and I have been told the law required that the printing should be given to the paper having the largest circulation and making the lowest bid. This was not right for the Commissioners to do, and I have heard people in this neighborhood who pay taxes complain of it.

I would like to know what has become of the "Little Girl" who used to write for your paper. I never see any of her communications now. Has she grown to be a large girl? Perhaps so, too large I reckon to assume the name of "Little" girl. I would like to become acquainted with her, and hope in the future we may meet and consult with each other what to write about.

Very respectfully yours, LITTLE BOY. (Correspondence of the Reason.) BALTIMORE, July 30, 1883. Messrs. Editors:—As compared with the preceding week receipts show a large increase of wheat, both Southern and Western. Corn receipts have also improved, particularly of Western. Oats and rye were in moderate supply. Southern wheat has been in moderate demand from both millers and shippers and prices show an advance over previous week of 1/2c. per bushel. The market for No. 2 Western red, after closing our last report, sold at \$1.17 for red and white, but suddenly dropped to \$1.15, receding to \$1.16 1/2, which is a fraction off the previous week. I give closing quotations, viz: Southern Fultz, 115 to 118; longberry, 114 to 120; Western spot and July, 114 to 117; August, 115 to 115 1/2; September, 116 to 117; October, 119 to 119 1/2; November, 120 to 121. Damaged and damp lots sold lower. Southern corn 61 to 65 cents; Western spot and July, 56 to 62; August, 61 to 62; September, 62 to 63 cents; Western spot and July, 56 to 62; August, 61 to 62; Good prime rye, 58 to 60, and oats from 37 to 44 cents.

Tobacco—Receipts of Maryland are moderate for the season, and the demand for the better grades continues brisk, with tendency of prices in favor of sellers. Of Ohio, 87 bbls. reported for export, with good inquiry for yellow and spangled. Nothing has yet transpired in reference to the Ohio leaf needed by France. I quote quotations as follows: Inferior and frosted, 300 to 300; sound common, 350 to 400; good do, 400 to 500; middling, 600 to 750; good to fine red, 100 to 100, and 600 to 1200.

Miscellaneous selling in demand at usual prices. N. ADVICE TO MOTHERS. Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of MRS. WIGGLESWORTH'S SWEET SYRUP FOR CHILDREN TEETHING. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. WIGGLESWORTH'S SWEET SYRUP FOR CHILDREN TEETHING is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

On Thirty Days' Trial. The VICTOR BELL CO., Marshall, Mich. will send Dr. J. C. Celebrated Electric Velocit Helix and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with nervous debility, lost vitality and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. N. B.—No risk is incurred, as thirty days' trial is allowed.

THE QUESTION HAS OFTEN BEEN ASKED, Can—Rupture—(abdominal hernia) be cured? YES. That this part of the body offers good ground for the physiological laws which govern the whole physical economy and it makes not a particle of difference between the age of the Rupture is one year or a hundred years in the proof of this send for a Free Book on Rupture to the Excelsior Rupture Cure Mfg Co., Ogdensburg, N. NOTICE. Having leased the property known as Moore's Hotel, Leonardtown, Md., for two years, commencing the 1st of January, 1883, I respectfully inform the public that its management will now be under my exclusive direction and that no pains or expense will be spared to maintain the high reputation as a public resort it has obtained in the past and to increase it in the future. Thankful for the liberal patronage which has heretofore been extended to the House, I respectfully solicit a continuance and increase of the favors of the traveling public. All parties indebted to Mrs. M. J. Moore on Hotel account are reminded that the accounts due from them to her have been placed in my hands for settlement and that no further indulgence can be allowed them. HERBERT F. JOHN M. LLOYD, Agt. ROBERT OBER, JNO. A. HAMBLETON, J. K. OBER, PRESIDENT, VICE-PRESIDENT, SEC'Y AND TREAS.

G. OBER & SONS CO., MANUFACTURERS AND PROPRIETORS OF THE HIGH STANDARD Ammoniated Super-Phosphate of Lime, Dissolved South Carolina Bone Phosphate, "Special" Tobacco Compound, Locust Point Compound, Pure Dissolved Bone, Land Plaster, and all Fertilizing Materials.

Office, 89 EXCHANGE PLACE, Factory, Locust Point, BALTIMORE.

I deem it entirely superfluous to say anything of the quality of our fertilizers, as they have stood successfully a test of nearly 27 years, and no fertilizer can show better field results. Suffice it to say, the Company uses the most improved labor-saving machinery and the best crude material and pays cash for same. With these advantages I am prepared to offer the farmers of Southern Maryland our High Standard Fertilizers at prices that defy competition for the same class of goods. I feel truly grateful to my friends and customers for their very liberal patronage in the past and hope, by keeping our goods up to their known high standard, I may merit a continuance of the same. I am now making my usual trip through Southern Maryland, and should I fail to see all of my customers, please remember that all responsible orders sent direct to the firm will receive prompt attention. Yours very truly, JOHN M. LLOYD, March 15, 1883—4m.

LEADER and REX, STANDARD FERTILIZERS OF ESTABLISHED REPUTATION. LEADER for Tobacco—REX for Grain, Potatoes, &c.

The "LEADER" is now too well known to require certificates, but the "REX," being less known, we append a few of the many certificates we have received as a better recommendation than any words of ours: St. CLEMENT'S BAY, January, 1883. Your "REX" is the best guano I ever used. I put it on my corn last Spring on very poor land, one bushel to three hills, and made 6 barrels per acre. THOMAS P. GUY.

VALLEY LANE, St. Mary's Co., 1883. I used your "REX" on corn last Spring, and though the season was very dry, I think my crop was doubled by the use of it. The corn kept green all the time. HENRY WATTS.

CHARLOTTE HALL, January, 1883. Your "REX" worked like a charm on my corn last year. I can cheerfully recommend it for corn. THOMAS H. LATIMER.

Quality guaranteed Equal to any heretofore sold by us. FRANCIS NEALE & SONS, Commission Merchants, 103 S. Charles St., Baltimore. Feb 23—3m.
