The public is not asleep in respect to sewing machines, and a lady, now-a-days, buys a machine, not because it had a good name fifteen years since but selects the machine that pleases her best; has the most improvements, and does its work in the most quiet and ladylike fashion. The New High-Davis, with its vertical feed, fills the above requirements, and is said to combine all the advantages of other machines, with many that are original and peculiar to the "Davis." Indeed, any lady who is the possessor of one, may rest assured she has a treasure.

FIVE FUNNY FACTS.—The conductor is always prosperous—that is to say, he gets along fairly well. If some men were half as big as they think they are, the world would have to be enlarged.

The mixed drink frequently furnishes an illustration of how utility may be sacrificed to art. If as much nonsense were spoken as is written, the number of insane asylums would be increased at once.

People who are in a hurry to go to law sue frequently in twice as much of a hurry to get away from it.

Editor Great Magazine—"Here is a fine article on 'Modern Art,' but it is written by some unknown jay who lives in Pumpkinville."

Assistant—"All right; I'll go out and find some great artist willing to put his name to it. I guess one will do it for \$100."

"Very well; I'll send the jay fifty cents and tell him to keep quiet, and that may be we'll take another article from him some day and let him use his own name."

THE NEED ALL THE GREATER.—Prisoner—"It's a shabby assault on my character, sir."

Judge—"You have very little character."

Prisoner—"That's just why it needs vindicating, your honor."

Mother (suspiciously)—"If you haven't been in swimming how did your hair get so wet? Little Dick—'That's preparation—runnin' away from bad boys'—you wanted me to disobey you so' go in swimmin'!"

Tommy (who had been forgotten until nearly 11 o'clock)—"Paw, what is a jiffy?"

Father—"It's just about the length of time you've got to get to bed without a licking."

O. A. Brown—"Miss Ida, I love you—Will you be my wife?" Miss Ida—"There is my sister Emily, who is two years older than I, and it seems to me she should be sacrificed first."

It is the law of development, that the new shall succeed and displace the old. This law applies to the New Davis Vertical Feed Sewing Machine. Have you seen it?

IT IS THE ONLY ONE Published at the National Capital.

It Has More Distinguished Contributors than Any Other Paper.

A Splendid Eight-Page, 56-Column Paper, Printed on fine white paper, edited with singular ability, and filled with the most interesting matter that can be procured.

ONLY \$1 A YEAR—TWO CENTS A WEEK.

The National Tribune is the result of years of earnest, thoughtful effort, accompanied by a heavy expenditure of money, to build up at the Capital of the country.

A GREAT FAMILY NEWSPAPER which should be a welcome weekly visitor at every fireside from the Atlantic to the Pacific, and champion effectively the cause of loyalty and good government, and of justice to the soldiers and sailors of the late war, their widows, children and dependent relatives. How well this has been done is best indicated by the wonderful success of the paper, which has attained popularity and circulation more rapidly than any other in the history of American journalism.

FEATURES OF THE PAPER.

The National Tribune makes a special feature of the history and reminiscences of the war for the preservation of the Nation.

It publishes in fact the

Only Genuine History of that gigantic struggle, for its history is not a warped and biased panegyric of some particular man or men, who are given credit for everything that succeeded. It is made up of the testimony of a multitude of witnesses, of the plain and unvarnished story of the men in every rank and degree who did the marching, fighting and shooting and carried forward the war through all its various phases to a glorious success. The great value of The National Tribune's history is everywhere recognized, and its files are carefully preserved in every large library and historical collection in the country—North and South.

A fascinating story by Col. Thos. Knox, the brilliant writer of popular books, is now running in the paper.

An entertaining historical romance, by Frances Williams (Fannie Williams), now appearing, is exciting great interest among the young folks, with whom Miss Wilson has always been a great favorite.

Back numbers containing these will be furnished.

Very many distinguished men and women constantly contribute to its columns.

It is favored in this way more than any other Great Weekly in the country.

John McElroy, who has written so much and so acceptably for the soldiers, will soon begin another war story.

Besides this it presents every week a splendid array of Editorials on Current Topics—Stories by the best Authors—Wit, Humor and Information—Agricultural Notes of the Greatest Value—Household Hints and Suggestions—Synopsis of the News of the Week—Answers to Correspondents—Bright Miscellany, etc., which will interest, amuse and instruct every member of the family.

Send for Sample Copies. Sample Copies sent free.
