Saint Mary's Beacon

VOL. LIV. LEONARDTOWN, MD., THURSDAY, JANUARY 10, 1895. NO. 725.

JOB PRINTING,
SUCH AS
HANDBILLS,
CIRCULARS,
BLANKS,
BILL HEADS,
EXECUTED WITH NEATNESS AND DISPATCH.

Parties having Real or Personal Property
for sale can obtain descriptive hand-
bills neatly executed and at City Prices.

NEWS IN BRIEF.

Wednesday, January 9, 1895.
Mr. Levi P. Morton took the oath
of office as Governor of New York.

In New York city Col. Strong
was sworn in as mayor. He told
Mr. Gilroy, the retiring mayor,
that he was one of the best execu-
tives the city ever had.

The Florida fruit and vegetable
crop for the recent cold snap
is estimated at \$5,000,000.
One compensating fact is the ex-
tinction of several orange tree pests.

John Banks entered on duty as
treasurer of the County of Prince
George's, Md., and was appointed
Manly Drennon assistant
treasurer, who will, ex officio, be
the clerk of the county commission-
ers.

The Delaware Legislature met at
Dover yesterday. The democrats
organized the Senate and the re-
publicans elected the officers of the
House. Governor Reynolds's mes-
sage was read. He condemns the
purchase of votes and asks the Leg-
islature to suppress the practice.

Notices of contest were filed against
the three republican Senators from
Sussex county on the ground that
they agreed to vote for J. Edward
Addicks for United States Senator
if he would pay their campaign ex-
penses.

Thursday, January 10, 1895.
Ice impedes navigation on the
Chesapeake bay and tributaries.

Comptroller Smith says his forth-
coming annual report will show a
healthy financial condition of the
State treasury.

The dwelling of Congressman-
elect Joshua W. Miles was burned
in Princess Anne and he had to be
removed from a sick bed to the
house of a friend and neighbor.

Judge John T. Vinson, of Mont-
gomery county, formally notified
Governor Brown that his judicial
term will expire by age limitation
next Sunday.

John M. Thurston was unani-
mously nominated for United
States Senator by the republican
legislative caucus of Nebraska.
This is equivalent to an election.

John Drone and Charles Bowers,
both colored, made desperate efforts
to marry Sarah Davis, of Baltimore,
also colored, which were ended by
John Drone getting her.

Mr. F. Eugene Wathen has been
appointed school examiner of Anne
Arundel and has resigned the super-
visorship of elections, which is now
a bone of contention.

United States District Attorney
Marbury is looking for Don Carlos
Abrams, colored, a Navassa Island
laborer, who charged in a letter to
the Secretary of the Navy that one
of his comrades is forcibly detained
at Navassa.

Governor John Young Brown, of
Kentucky, has refused to give a
pledge to Judge Buchwalter, of Cin-
cinnati that a colored man for
whom a requisition had been made
would not be lynched if he was sur-
rendered to the Kentucky authori-
ties. Governor Brown says the
man is in no danger of lynching,
and that the Judge, in imposing
such a pledge as a condition of the
surrender, contravenes the constitu-
tion of the United States.

Carlton Cornwell, foreman of the
Gazette, Middletown, N. J., believes
that Chamberlain's Cough Remedy
should be in every home. He used
it for a cold and it effected a speedy
cure. He says: "It is indeed a
grand remedy, I can recommend to
all. I have also seen it used for
whooping cough, with the best re-
sults." 25 and 50 cent bottles for
sale by Wm. F. Greenwell & Son,
Leonardtown, Md.

A little bit of cheese and an elec-
tric wire form the latest rat-trap.
The cheese is fixed to the wire, and
the instant the rat touches the
cheese he is shocked to death.

Lightning travels in a zigzag
course because it passes through
different strata of air, and, being
restrained in its passage, turns from
side to side to find the easiest path.

the movement was so sudden and
rapid that they had not time to
realize the situation, and then it
was only a "squaw." A tablecloth,
containing the contents of the keg
of powder, was hurriedly fastened
about her waist, and she started
upon her return trip, running with
the fleetness of a fawn towards the
fort, her long glossy curls floating
back from her bare head, upon
which the mild rays of the early
autumn sun fell so cheerfully. The
wary savages, who were watching
her movements, now sent a volley
of bullets after her, but not a one
of them touched her. The noble
girl entered the fort in safety with
her valuable prize. A prolonged
shout of welcome greeted her, and
every man, inspired by her heroism,
resolved to repulse the foe or die in
the attempt.

During the following night Col-
onel Swearingen and 14 men ar-
rived and fought their way into the
fort without losing a man. And
at daylight Major McCulloch ar-
rived with 40 mounted men. His
followers entered the inclosure in
safety, but he, becoming separated
from them, was obliged to flee to
the open country and narrowly es-
caped falling into the hands of the
savages, who thirsted for his blood,
for he was one of their most deter-
mined enemies. Girty entertained
a bitter hatred for him and yearned
to subject him to the keenest of his
tortures. After this increase to the
forces of the garrison Girty and his
followers abandoned all hope of
capturing the fort, and after setting
fire to the houses outside the pick-
ets and killing the stock belonging
to the settlers they raised the siege
and withdrew to the wilderness.

Elizabeth Zane lived to be a very
old woman, beloved and respected
by all who knew her. She resided
on the banks of the Ohio river near
the scene of her daring exploit.

WHAT DOLLAR BILLS WEIGH.—
Several customers were chatting in
a Lafayette-avenue grocery store
one evening recently, when the
grocer pointed to a half-barrel of
small beans and asked how many
of them it would require to make a
bushel. Various estimates were
offered. One man recklessly put
the number down at 50,000, which
occasioned a laugh from all the
others, who had guessed a much
lesser quantity, ranging all the way
from 5000 to 20,000.

"Well, gentlemen," remarked
the grocer, "you are all wrong.
There are approximately 119,000
beans in a bushel."

No one was inclined to believe
him until he showed them that it
took 60 beans, selected at random,
to weigh half an ounce. The rest
of the calculation was simple.

"Now, then," said one of the
party, "since we are engaged in
guessing contests; how many dol-
lar bills would it take to weigh as
much as a silver dollar?"

One said 100, another said 75
while the grocer, who knew all
about beans, put the figures at 300.

"All wrong," remarked the man.
It takes just 22." This was proved
to be the case by experiment.

There is good reason for the popu-
larity of Chamberlain's Cough
Remedy. Davis & Buzard, of West
Monterey, Clarion Co., Pa., says:
"It has cured people that our phy-
sicians could do nothing for. We
persuaded them to try a bottle of
Chamberlain's Cough Remedy and
they now recommend it with the
rest of us." 25 and 50 cent bottles
for sale by Wm. F. Greenwell & Son,
Leonardtown, Md.

JAPANESE RAILROADS.—Japa-
nese railroads are solidly construct-
ed and carefully run. It is stated
that the gauge is 3ft. 6in., and the
cars are generally 18ft. long. There
are first, second and third classes,
and the fares are for the several
classes, one, two and three sen
(cents) a mile. The Japanese are
great travelers, and more than nine-
tenths of them use the second and
third class. The rate of speed is
uniformly about 20 miles an hour.

the movement was so sudden and
rapid that they had not time to
realize the situation, and then it
was only a "squaw." A tablecloth,
containing the contents of the keg
of powder, was hurriedly fastened
about her waist, and she started
