**DEAD CHICKS.**  
 Saves Baby Chicks.  
 B. B. Goehner, Fauquier Co., Va.  
 writes: "I have used your 'Square Deal'  
 Chick Starter with excellent results.  
 Have lost less chicks since feeding than  
 ever before."  
**PREVENTS DIARRHOEA.**  
 Chas. S. Grason, Baltimore Co., Md.  
 writes: "I have by actual comparison  
 found that Bolgiano's 'Square Deal'  
 Chick Starter has a great advantage  
 over all prominent foods on the market.  
 It does not give the Baby Chicks Diarr-  
 hoea."

**WITHOUT AN EQUAL.**  
 Mr. C. E. Johnson of Atlantic Co., N.  
 J. on Oct. 27th, 1910, writes as follows:  
 I want to state that your three grades  
 of Poultry Feed, Chick Starter, Food or  
 Food and Scratch Food, stand without an  
 equal today. They are perfect mixtures and  
 sound in grain and pleasant to handle.

**BEST HE EVER PURCHASED.**  
 E. L. Griest, Cassena, Pa. writes:  
 Your 'Square Deal' Scratch Food or  
 Poultry is the best I have ever purchased  
 at my price. I have no trouble to sell  
 it, as my customers like it.

**SQUARE DEAL.**  
 Chick Starter, Chick Food, Scratch Food,  
 1st week, 2 weeks to 10 weeks, 10 to 15 weeks,  
 Make Hens Lay.  
**DON'T BE FOOLED.**  
 If your local merchant doesn't sell  
 'Square Deal' Foods, drop us a postal  
 and we will tell you who does. Send us  
 5 per cent in stamps to pay postage,  
 and mention the name of this paper, we  
 will send you a package each of 'Zany's,  
 Nasturtiums, Asters, Sweet Peas, Scarlet  
 Sage, also our Garner and Flower  
 Seed and Poultry Supply New 1911

**How To Raise Corn.**  
 The railroads of the country are  
 engaged in a campaign of education  
 for the farmer in scientific agricul-  
 ture. The B. & O. Railroad has  
 taken foremost interest in operating  
 educational trains. From the in-  
 structive report sent out by Mr. J.  
 Hampton Baumgartner we extract  
 the following:  
 Mr. Collier, whose home is at  
 Easton, is one of the most extensive  
 corn raisers in Maryland and he  
 stated to his audience that his expe-  
 rience had demonstrated that the  
 largest crops were to be obtained  
 by selecting seed from ears of me-  
 dium size cob, with a slight protru-  
 sion of the cob at the tip. This  
 character of ear, he said, will permit  
 of greater development and increased  
 yield. He recommended in this  
 connection to use the germinating  
 test box, which largely overcomes  
 the necessity for replanting parts  
 of fields or thinning out plants by  
 careless labor. The lecturer said  
 that he considers 100 bushels of  
 shelled corn per acre a standard  
 yield, and though this may seem  
 high, he believes it can be attained  
 on Maryland farms by systematic-  
 ally following scientific methods.  
 The method recommended in pro-  
 ducing a large corn crop was to lay  
 a foundation, seven or eight months  
 prior to planting, by preparing the  
 soil. This can best be done by  
 breaking the wheat stubble in July  
 and sowing scarlet clover. The  
 clover may be used for grazing pur-  
 poses early in the Spring and should  
 be plowed under when the crimson  
 tips are first noticed. Crimson clover  
 is one of the greatest renovat-  
 ers of the soil known to the science  
 of agriculture, forming a blanket to  
 the soil when most needed. A small  
 quantity of lime should be used  
 when plowing the clover under, and  
 for manurial purposes alone it is  
 worth about \$20 an acre. Commercial  
 fertilizers, the speaker has found  
 by experimentation to be a failure,  
 in corn raising. He also called at-  
 tention to the use of clover for pas-  
 turing stock.

**Gumption on the Farm.**  
 When you plant, this spring, sow  
 a few seeds of kindness. They will  
 flourish so and produce such an  
 abundant crop of good cheer that  
 you will be encouraged to plant  
 largely of this crop another year.  
 No crop pays better.  
 Your oats will not be so apt to  
 rust if you get them in early.  
 The more a man goes around, the  
 less he is apt to develop into a  
 crank.  
 Don't complain if you lose some  
 of your grain sacks at the mill—if  
 you have not marked them. Have  
 every bag plainly marked.  
 Don't be in too big a hurry. It's  
 unwise to work soil when it is soggy  
 and very wet. Wait until it  
 dries into crumbly, workable con-  
 dition.  
 The more corn the more stock;  
 the more stock the richer the land;  
 the richer the land the more corn—  
 and there you have the secret of a  
 rotation that is sure to bring suc-  
 cess.

Entirely too many people in this  
 world are making themselves cross-  
 eyed looking for the street of easy  
 money. This is as vain and foolish  
 as hunting for the pot of gold at the  
 end of the rainbow.  
 Just as soon as the frost is out of  
 the ground it will do to sow onion  
 seed and peas. Beets, early pota-  
 toes, spinach, radishes and lettuce  
 may be planted early, too. Tender  
 vegetables should wait until April  
 or May.  
 It is a mistake to plant the same  
 types of vegetables in the same spot  
 year after year; keeping them mov-  
 ing to prevent insects and diseases  
 from getting a foothold, and it is a  
 mistake to forget that a garden  
 needs plant food in order to nourish  
 vegetables properly. Stable manure  
 and a sprinkle of bonemeal will  
 do, nicely.—Farm Journal.

**How Good News Spreads.**  
 "I am 70 years old and travel  
 most of the time," writes B. F. Tol-  
 son, of Elizabethtown, Ky. "Every-  
 where I go I recommend Electric  
 Bitters, because I owe my excellent  
 health and vitality to them. They  
 effect a cure every time." They  
 never fail to tone the stomach, re-  
 gulate the kidneys and bowels,  
 stimulate the liver, invigorate the  
 nerves and purify the blood. They  
 work wonders for weak, run-down  
 men and women, restoring strength,  
 vigor and health that's a daily joy.  
 Try them. Only 50c. Satisfaction  
 is positively guaranteed by J. J.  
 Norris, Leonardtown, Md.

**Saved a Soldier's Life.**  
 Facing death from shot and shell  
 in the civil war was more agreeable  
 to J. A. Stone, of Kemp, Tex., than  
 facing it from what doctors said was  
 consumption. "I contracted a stub-  
 born cold," he writes, "that develop-  
 ed a cough, that stuck to me in spite  
 of all remedies for years. My  
 weight ran down to 130 pounds.  
 Then I began to use Dr. King's  
 New Discovery, which completely  
 cured me. I now weigh 178 pounds."  
 For Coughs, Colds, La Grippe, Asth-  
 ma, Hemorrhage, Hoarseness, Croup,  
 Whooping Cough and lung trouble,  
 try supreme 50c and \$1. Trial  
 bottle free. Guaranteed by J. J.  
 Norris, Leonardtown, Md.

**The Poultry Yard**  
 The March hatched pullets will  
 be the early fall layers.  
 Many incubator chicks are killed  
 with kindness by being overfed and  
 kept too warm.  
 You need not be afraid the hens  
 will eat too much crushed shells.  
 Let them have all they want.  
 Make it a rule to count the biddies  
 every day. Some folks never do  
 this. They might be robbed and  
 never know it.  
 I have heard the advice given to  
 feed the chicks all they will eat up  
 clean. That won't do. They will  
 eat up clean (the first week or two)  
 more than they have any business  
 eating.  
 Hard enough to sit for weeks with-  
 out having to be gnawed all the  
 time by insect pests. Look at your  
 sitting hens once in a while and be  
 sure they are free from enemies of  
 this kind.  
 You can make money by getting  
 a good rooster right now. Mate  
 him with some of your best hens  
 and set the eggs. Your basket will  
 get full a lot faster after those pul-  
 lets get to laying.

Particularly at this season of the  
 year, do not set a hen until it is  
 positive that she is thoroughly  
 broody. If she does not have the  
 full fever, she is apt to desert her  
 charge, after sitting a week or two.  
 As the weather is still cold, not  
 more than eleven eggs should be  
 given a hen. When a large num-  
 ber is allowed, the eggs are not  
 sufficiently covered, and those on the  
 outer edges of the clutch are likely  
 to become chilled.  
 From MARCH FARM JOURNAL.

**Production of Cement in 1910.**  
 The production of Portland ce-  
 ment made a new high record in the  
 year 1910. From statistics and es-  
 timates received by the United  
 States Geological Survey from about  
 20 per cent. of the companies man-  
 ufacturing Portland cement, repre-  
 senting nearly half of the entire out-  
 put of the country, it is estimated  
 by E. F. Burchard of the Survey  
 that the quantity of Portland ce-  
 ment manufactured in the United  
 States in 1910 was between 73,500,-  
 000 and 75,000,000 barrels, as com-  
 pared with 63,508,471 barrels pro-  
 duced in 1909—an increase of 10,-  
 000,000 to 12,500,000 barrels, or 15  
 to 30 per cent. The figures at hand  
 are derived from all parts of the  
 United States, and are therefore con-  
 sidered to be representative of the  
 country at large rather than of any  
 single section or district.  
 Although the average values for  
 1910 appear, from returns received  
 thus far, to have been slightly high-  
 er than in 1909, prices were far from  
 satisfactory, especially to the large  
 manufacturers in the Lehigh Valley  
 district and in certain of the East-  
 ern States. The year 1911 opens  
 with prices cut 5 to 10 cents a bar-  
 rel lower than those prevailing in  
 1910. The construction of several  
 new plants has been pushed during  
 the year, and several plants that  
 were under construction in 1909, so  
 that the kiln capacity remains far in  
 advance of the demand.

**An Awful Eruption**  
 of a volcano excites brief interest,  
 and your interest in skin eruptions  
 will be as short, if you use Buck-  
 len's Arnica Salve, their quickest  
 cure. Even the worst boils, ulcers,  
 or fever sores are soon healed by  
 it. Best for Burns, Cuts, Bruises,  
 Sores Lips, Chapped Hands, Chil-  
 blains and Piles. It gives instant  
 relief. 25c at J. J. Norris, Leonard-  
 town, Md.

**Mrs. Clark at 107.**  
 "Death of the oldest woman in  
 England" was the heading of a para-  
 graph sent out by a news agency  
 reporting the demise, at the age of  
 105, of Mrs. Hannah Rowlands, of  
 East End, Pembroke  
 The late Mrs. Rowlands, however,  
 was not the oldest woman in Eng-  
 land. That distinction belongs to  
 Mr. Rebecca Clark, of Wood Green,  
 who is now in her one hundred and  
 seventh year and still "going  
 strong."  
 Mrs. Clark walks sturdily to the  
 postoffice every Friday to draw her  
 pension. Her eyesight is so good  
 that she can thread a needle, and  
 her digestion is more than equal to  
 a chop and a suet pudding. She  
 is probably the only woman alive in  
 England who was born before the  
 battle of Trafalgar, fought on Octo-  
 ber 21, 1805. One of the secrets of  
 long life, she declares, is being con-  
 tented and making the best of things  
 you have.

**Bent The Other Way.**  
 "So that's the baby, eh?"  
 "That's the baby."  
 "Well, I hope you will bring it up  
 to be a conscientious, God fearing  
 man."  
 "I am afraid that will be very dif-  
 ficult."  
 "Pshaw! As the twig is bent  
 the tree's inclined."  
 "I know, but this twig is bent on  
 being a girl, and we are inclined to  
 let it go at that."—Houston Post.

**More Homelike.**  
 Hospital Physician—Which ward  
 do you wish to be taken to? A pa-  
 ward or a  
 Maloney—Inv of them, Doc, that's  
 safely Democratic.—Pack.  
**A Medical Compromise.**  
 "You had two doctors in consulta-  
 tion last night, didn't you?"  
 "Yes."  
 "What did they say?"  
 "Well, one recommended one  
 thing and the other recommended  
 something else."  
 "A deadlock, eh?"  
 "No, they finally told me to mix  
 'em!"—Cleveland Plain Dealer.

**Stubborn as Mules**  
 are liver and bowels sometimes  
 seem to be a bit stubborn. Then  
 there's trouble with a cold, Appetite-  
 Indigestion, Nervousness, Despon-  
 dency, Headache. But such trou-  
 bles fly before Dr. King's New Life  
 Pills, the world's best Stomach and  
 Liver remedy. So easy. 25c at J.  
 J. Norris, Leonardtown, Md.  
**Traveller.**—"It seems won-  
 derful that Japanese dentists can  
 take out teeth with their fingers."  
 "Little Jack."—"Auntie can take out  
 hers with her fingers—every one of  
 'em!"—Tit-Bits.
