LEONARDTOWN, MD.  
FRANCIS W. KING, Editor.

THURSDAY MORNING, April 20, 1911.

In a recent issue of the Baltimore News, we note a labored effort to convince some of its readers, of presumed weak intellects, that it is all right to vote in a party primary and then to vote the opposition ticket at the general election. Let's see about this!

Section 160E of the Primary Election law, says: "Every person offering to vote at a primary election shall be required to state to which party he belongs and which party's candidates he intends to vote for at the State, City or County elections, and every qualified person offering to vote in the several counties of the State at a primary election shall be permitted to vote in the primary election of that party to which he belongs and which party's candidates he intends to vote for at the State or county election." In Baltimore the voter is allowed to vote only in the party primary of that party with which he is affiliated.

What is the logical and sensible construction of such language? There is but one possible conclusion, and that is that the man who votes in a party's primaries and then votes against its candidates, fairly and honestly nominated, is a self-proclaimed liar with all the qualifying adjectives decency will permit to be added. And, no self-respecting man is going to vote in a party primary and then bolt the nominees, unless he be convinced that there has been palpable fraud in their choice. Did the legislators who passed the legalized primary Act and the reformers and non-partisans who urged its passage, intend and have in mind to legalize lying? We hope not.

The law is on the books and ought to be enforced and obeyed. And the more rigidly it is enforced, the sooner we will get rid of it and its needless expense.

### WASHINGTON LETTER.

Washington, D. C., April 20, 1911.  
By CLYDE H. TAVENNER.

Revision downward on the things the farmer must buy, as well as revision downward on the things he produces!

This is the keynote of the democratic reciprocity and tariff program.

It differs radically from the reciprocity program contemplated by the Republicans, which was: Greater downward revision on the products of the farmers than on the products of the trusts.

Here are the articles that will go on the free list under the democratic program, each of which would have remained heavily taxed under the republican program:

Lumber, dressed meats and meat products, flour, boots and shoes, sewing machines, saddles and saddlery, wire fencing, baling wire, cotton bagging and ties, burlaps and agricultural implements, including plows, harrows, reapers, binders and mowers.

This is not all of the democratic program for the extrassection. Following as soon as possible after the passage of the reciprocity and free list bills, the tariff will be revised downward on woolen and cotton goods.

The articles in these schedules on which the greatest reductions will be made will be blankets, underwear and man's, women's and children's clothing. The Democratic idea contemplates the placing of the lowest tax on the cheaper grades of wearing apparel used by the poor. Under the Payne-Aldrich law articles used principally by the poor are taxed twice as much as the higher priced articles used by the rich.

In addition to reciprocity and tariff revision downward will come bills providing for the direct election of United States senators, publicity of campaign contributions before instead of after election, and separate statehood for Arizona and New Mexico.

### LA FOLLETTE, THE PROPHET.

While Senator LaFollette of Wisconsin was making his famous railroad speech five years ago, Senator Aldrich and Hale, to show their contempt for the views being expressed, retired to the cloak room. As they passed out of the chamber LaFollette said:

"Mr. President, I pause in my remarks to say this. I cannot be wholly indifferent to the fact that Senators by their absence at this time indicate their want of interest in what I may have to say upon this subject. The public is interested. Unless this important question is rightly settled, seats now temporarily vacant may be permanently vacated by those who have the right to occupy them at this time."

April 13-1m. Leonardtown, Md.

was under discussion, LaFollette was insulted, and he said: "I warn you that if you refuse to consider every proposition advanced in behalf of the public and carry out your determination to make this tariff legislation but the instrument by which special interests may enrich themselves by unjust exactions from the public, the public will hold you responsible and prove its resentment as certainly as elections are held."

When the Senate convened on April 4 LaFollette's name was called and he answered. But the names of Aldrich and Hale were not called.

**WHITE HOUSE ECONOMY.**  
"Economy in public expense, that labor may be lightly burdened," is evidently not a Taft policy. While the Democrats have been endeavoring to abolish every useless office in the House of Representatives, President Taft has just made increases in the salaries of White House employees as follows: Rudolph Foster, assistant secretary, salary increased from \$3,000 to \$4,000; C. C. Wagner, confidential stenographer to the President, increase from \$2,000 to \$2,500; H. P. Webster and F. M. Henricks, expert stenographers, increases from \$2,000 to \$2,500.

**THE DEMOCRATIC PROGRAM.**  
"The Democratic legislative program," says Gilson Gardner, friend of Roosevelt and one of the veteran Washington newspaper correspondents, "is one more in the interest of the people and less in the interest of special privilege than any program outlined in Congress for many years. The new ways and means committee for change is made up of men who are not committed to special privilege."

**A SUIT OF CLOTHES.**  
A speaker told the National Wool Growers' association: "The suit I have on cost me \$60, and it contains just \$8 worth of material. All we want in this tariff business is a square deal." The difference between the price the producer gets for the raw material and the price the consumer pays for the finished product is, then, \$52 on a \$60 suit. It has been pretty easy money for the combination of wool manufacturers.
