PROCLAMATION

Proposed Amendment to the Constitution of Maryland.

WHEREAS, at the January Session of the General Assembly of Maryland, held in the year of our Lord One Thousand Nine Hundred and Fourteen...

AN ACT to amend Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 1. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 2. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 3. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 4. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 5. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 6. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 7. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 8. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 9. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 10. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 11. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 12. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 13. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 14. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 15. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 16. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 17. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 18. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 19. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 20. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 21. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 22. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 23. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 24. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

Section 25. Be it enacted by the General Assembly of Maryland, three-fifths of all the members of each of the two houses concurring, that the following section be and the same is hereby proposed as an amendment to Section 44, Part VII, of Article 4, title "Sheriffs," of the Constitution of this State...

SCHWARTZ & FRIEDMAN

Well Known Tailors

447 7th St. S. W., Corner E Street, WASHINGTON, D. C.

When you see a well-dressed man ask him who makes his clothes, and one out of every ten will say "Schwartz & Friedman."

Mr. Schwartz will visit Leonardtown once a month, usually around the first.

Our Suits are Perfect Fit; fine Workmanship Guaranteed.

NOTICE

The following applications for oyster grounds in or adjacent to St. Mary's County are now on file in the office of the Board of Shell Fish Commissioners of Maryland.

Published charts of the natural oyster bars of St. Mary's County are filed with the Clerk of the Circuit Court of said County.

Notice is hereby given that all projects against the granting of said leases must be filed in the Circuit Court of St. Mary's County on or before the 12th day of October 1914.

Applicant Address: Chas. Benton Barnes, Sand Gate, Md. 5 Located in Patuxent River, on the southerly side thereof, northwesterly of "Lower Forest" natural oyster bar as shown on published chart No. 19.

L. C. Davis, Hollywood, Md. 2 Located in Mill Creek, a tributary of Carroll Creek, from abstract of Deoey's landing around the Chestnut Tree Point, in St. Mary's County, and shown on published chart No. 20.

S. Bernard Burch, Mechanicsville, Md. 3 Located in Jones Creek, a tributary of Washington Creek, which is a tributary of Patuxent River, about the center thereof, and shown on published chart No. 19.

Joseph F. Rohrbach, Piney Point, Md. 10 Located in St. George's River, in a cove locally called "Princes" and on the northeasterly side thereof and adjoining natural oyster bar "St. Georges" in the waters of St. Mary's County, as shown on published chart No. 21.

John Phillips, Porto Bello, Md. 5 Located in St. Mary's River, on the westerly side thereof, off Pagan Point, and shown on published chart No. 21.

Chas. J. Gatten, Hollywood, Md. 19 Located in Crockfolds Creek, a tributary of the Patuxent River, on the shore of Frank Dent, and shown on published chart No. 20. 8-20-14.

JOHNS HOPKINS UNIVERSITY

State Scholarships in Engineering Courses.

Application for scholarships in the Department of Engineering, established in the Johns Hopkins University, under the provisions of the Laws of Maryland, Chapter 90, 1912, should now be made.

Entrance examinations for all students will be held in McCoy Hall, the Johns Hopkins University, Baltimore, September 22-25, 1914, beginning at 9 a. m.

If there is more than one applicant for a particular scholarship a competitive examination will be held at the University on the day following the September entrance examinations.

Each county of the State and each Legislative district of Baltimore city will be entitled to one or more scholarships for the year 1914-15, in addition to those which have already been filled. There will also be vacancies in the scholarships awarded to the graduates of Loyola College, Maryland Agricultural College, St. Mary's College, Rock Hill College, St. John's College, Washington College, and Western Maryland College, and in the scholarships "Al. Large," which may be filled in October, 1914.

Applicants should address the Registrar, the Johns Hopkins University, for blank forms of application and for further information as to the examinations, award of scholarships and courses of instruction. 8-27-14.

EUGENE ROBINSON

A Native of St. Mary's County, is now Representing the

Old Established Shoe Firm

Clark-Hutchinson Co., 121 to 125 Duane St., New York.

PERMANENT ADDRESS

CRIMSON CLOVER

Throughout St. Mary's county the growing of crimson clover has increased by leaps and bounds.

The past spring many farmers that were delayed in turning under the crop found it very difficult because of the dry weather.

For this reason some have unwisely decided to discontinue its use. With the view of aiding the farmers to overcome this objection by the proper handling of the crop and to impress upon them the great value of crimson clover to our depleted soil by supplying humus to retain moisture so much needed this summer, as well as the fact that every good crop of crimson clover adds to the soil that important and expensive plant food (nitrogen), which when bought costs from 20 to 25 cents per pound.

We give below the results of certain investigations conducted by the Delaware Experiment Station on many farms in that state, and urge the careful consideration by our farmers of the results obtained.

DOES FALL GROWTH PAY? On 24 farms, at the average date of December 14th, the following pounds of nitrogen per acre were found stored in the tops and first six inches of roots:

Most perfect stand and growth found, 87 pounds.

Thinner stand (even, but considered 1-4 stand), 45 pounds.

Thicker stand, (even, but not perfect), 68 pounds.

At the Cornell Experiment Station, Ithaca, New York, crimson clover sown in late summer, by November 20th and stored 155 pounds of nitrogen per acre.

The above shows that the fall growth paid, even though it might have been winter killed.

Under what conditions will it pay to turn under Crimson Clover early in the Spring?

The following table will show the gain in pounds of nitrogen per acre with thinner and thicker stands of crimson clover, which is half grown 30 days before full bloom.

Table with 4 columns: Stand, Half Bloom, Full Bloom, Gain. Rows A, B, C.

Thinner Stand (Half Bloom) 23 55 32. Thicker Stand (Half Bloom) 71 97 29.

Thinner Stand (Full Bloom) 33 94 61. Thicker Stand (Full Bloom) 111 102 -9.

Thinner Stand (30 days before full bloom) 31 75 44. Thicker Stand (30 days before full bloom) 78 131 53.

Wt. of Tops per Acre Av. 834 3244 2410 2382 4562 2180

(Note: The New Jersey Experiment Station reports crimson clover 6 inches high April 24th, had stored 92 pounds of nitrogen per acre.)

This shows that with a thicker stand the gain of nitrogen the last 30 days is small; and that there may be a loss to the plant itself by bedding or loss of leaves. This loss, of course, is not to the field. When the stand is thin there is a relatively larger gain of nitrogen. This seems to indicate that thicker parts of crimson clover fields should be plowed first, allowing the thinner places to grow and store up nitrogen.

The table shows weight of tops cut off at the ground is given to answer any question regarding the gain of tops during the last 30 days.

Further investigations showed that the clover turned under 30 days before full bloom was so completely disintegrated within four weeks that no trace of it was found, while all the coarser parts of that turned under at full bloom were to be found at three months. This would indicate that plant food stored in this plant is more readily available when the clover is turned under early, and that some of it is unavailable even in midsummer, if turned under at full bloom. May we not assume that much more of the plant food is rendered available when turning under the young, easily decomposed crimson clover?

AMOUNT OF NITROGEN STORED IN CRIMSON CLOVER

In 54 tests made, an average of 121 pounds of nitrogen per acre at full bloom was found. This, converted into terms of nitrate of soda, tankage, dried blood or cottonseed meal, will show a value of from \$20 to \$25 per acre. What per cent. of this nitrogen is fixed from the air is hard to determine, and any assumption here would be out of place.

WHERE IS NITROGEN STORED IN THE PLANT?—PER CENT. IN TOPS AND ROOTS.

Table with 4 columns: Fall, Mar., Apr., Full Cut for. Rows 1, 2, 3.

Fall, Mar. Apr. Full Cut for (Dec.) 15 15 bloom Hay

VACATION PLANS

By CECILIA HAMBURG.

The members of the Commuters' Crochet club were seated in their facing seats on the 7:55 and the 8:00 a. m. trains. The lunch box dolly was strong upon them.

Mabel had started out with the intention of making only one which should serve as an isolated table-mat for a distant cousin, but so great was the fascination of the work that she had kept on, and was now putting the piece edge on the fifth.

Sadie alone was engaged in work, but sat very still in her corner by the window, absorbed in a bright colored circular. Other circulars like it were strewn over her lap and passed from her hand.

"What's that you're reading?" asked Mary looking up from her work.

"It's a pamphlet on Bermuda," said Sadie.

"Are they all about Bermuda?" asked Anna.

"Oh, no," said Sadie. "There's one on Newfoundland and one on Nova Scotia and one on the Thousand Islands and one on the Adirondacks and another on a trip through the Canadian Rockies and a tour through Yellowstone Park and—"

"Why, what a lot of places to choose from," said Mabel. "I think it takes a great deal of energy to get a trip like one of those all planned out and know just when your train leaves or your boat starts and get all your connections worked out and know what clothes you are going to take."

"Sadie began to trace with a hot little finger an intricate route on an orange map. It evidently glided over hill and dale and included a glimpse at most of the world's great cities."

"Leaving New York at 4:30 on Friday, I would reach Hillsburg at 7:15 on Saturday morning, making a quick connection, I would get to Plainsville Junction at 1:15, and from there—"

"Mercy, how complicated," said Mabel.

"Yes, that would be," assented Sadie. "I think perhaps I would prefer the sea trip to Bermuda. They say that you can have a wonderful time there if you go to one of the houses in the country where they take visitors and then hire a bicycle and see the island for yourself."

"However, I've always wanted to see Nova Scotia, and that gives you a fine voyage, too. If I do go by sea, would you take just a suit case, or would you take a steamer trunk along? I think the dark suit and a big coat and two dark waists and one dressy waist and—"

"How long is your vacation?" asked Mabel in her practical way.

"Two weeks," said Sadie.

"How much money are you going to spend on your trip?"

"Not more than twenty-five dollars, any," said Sadie.

"Well, I don't believe you can go to Bermuda or Nova Scotia or Newfoundland or—"

"Of course, I can't," said Sadie. "I am only planning my vacation. I always plan it every year, and then I spend two weeks with my grand-mother who lives on a farm in Mills, Mass. But at least I have the fun of making believe I'm going somewhere else."

"With this vacation confession, the girls stopped, and the girls rolled up their work and left to their train. Sadie searched on ahead and, as the ferry boat swung out of its dock, she looked longingly down the harbor and pretended she had decided on Nova Scotia."

GREEN LIGHT TO TEST SUGAR

Cube sugar and test plans keys are inspected under the ghastly greenish rays of mercury vapor lamps with greater speed and accuracy than can be attained in ordinary daylight.

The color of ivory varies from the outside to the center of the tusk to such an extent that manufacturers sort the pieces into 15 different shades. Formerly this sorting could be done only in bright daylight, but with the light of the mercury vapor lamp grading can be done without limitation at any hour of the 24.

Infantile. The essay writer who sent a half dollar to the fellow who advertised "to be a way to prevent swimmer's cramps," received this answer: "Don't swim."

Had Been Dabbling. He—You understand what a margin in stocks is, don't you? She—Oh, yes. That's the money you put up and lose.

SQUABS REQUIRE CARE

HOUSES MUST BE KEPT CLEAN AND BIRDS FED DAILY.

To Make Success of Industry Person Must Know There Are None But Working Pairs in Loft Guard Against Vermin.

The amount of information that has been published, showing what wonderful profits are to be made in the squab business by professional dealers in squab breeders has been enormous.

While much of it has been the main correct, many misleading statements have, however, been made, statements that probably would cause a business man to study the subject more carefully, but which the average person, to whom this literature has been sent, has read eagerly and quoted as gospel.

The result has been that many a widow has placed her thousand-dollar life insurance in squab breeders and equipment, expecting at least a thousand dollars in dividends within a few months, since the greater portion of this literature says, "They will pay for their feed from the start of course, being properly mated." As a rule the investment not only has failed to produce the dividend expected, or even to pay for the feed that has been eaten, but also has given a considerable amount of work, and the stock would be hard to change into cash at a loss of seventy-five cents on the dollar.

Some advertisers claim that pigeons require little or no care. This statement is not correct. Not only must the houses be kept
