

Saint Mary's Beacon

A. F. KING, Editor.
LEONARDTOWN, MD.,
Thursday Morning, Oct. 15, 1914.

Democratic Ticket.

For the U. S. Senate:
JOHN WALTER SMITH
of Worcester County.
For Congress:
RICHARD A. JOHNSON
of Howard County.

Issue Panama Canal bonds, the republican peanut brigade cries—do anything but tax us one dollar per head per year. Do you mortgage your house to pay the mortgage?

What would you think of President Wilson, what would you think of the Democratic party, if President Wilson and the Democratic party did not take every possible precaution to protect the solvency of the United States Treasury.

"The Democracy is about to bring forward a war budget. The country at peace it puts in an emergency demand for additional revenue of \$100,000,000. Its fiscal measures have broken down and proved absolutely unresponsive. They have stuck in the mire." (Many partisan organs.)

"This," says the Louisville Courier-Journal, "is idiotic. It is characteristic of the dishonest, one-sided method of political discussion. Yet never a fool in all the land who does not know it to be in every intent and purpose an absurd lie. The war in Europe has cut our revenues at least \$100,000,000 annually. The loss must be made good or the Government goes to protest. What is to be thought of a newspaper that would print such stuff?"

THE WAR TAXES.

The administration is to be commended for its decision to impose stamp taxes, similar to those of Spanish War times, rather than a special tax on freight. The plans for taxation, as agreed to in the Democratic caucus, including a stamp tax on commercial and legal papers, and special taxes on banks, brokerage houses, theatres and other places of amusement—taxes which were applied during the Spanish War. There will also be a tax of 2 cents a gallon on gasoline, and special taxes on tobacco manufacturers and dealers, and on domestic wines and beer. It is estimated that \$105,000,000 will be obtained from these various sources—\$35,000,000 from the stamp tax; \$5,700,000 from banks and brokers; \$4,000,000 from tobacco; \$32,000,000 from beer; \$20,000,000 from gasoline, and \$8,000,000 from wines.

AMERICAN ROAD CONGRESS.

Postmaster General Burdon takes a deep interest in road improvement and has accepted an invitation to address the Fourth Annual Road Congress, which will be in session in Atlanta, Ga., during the week of November 9.

The Postmaster General, commenting on the subject, said:

"While it is true that the public road has always been of fundamental importance as a local utility, it has assumed a much broader significance within the past few years. The rural delivery service, with its great corps of 47,000 carriers, has done much toward the development of country life and this vast service is materially affected by the condition of the public road. The parcel post has already justified the most sanguine prophecies of its original supporters. A combination of parcel post and good roads cannot fail to materially advance the prosperity of the country dwellers and at the same time promote in a very marked degree the welfare of the city population. The automobile has graduated from a merely pleasure vehicle to a recognized utility, and there are now well over a million and a half automobiles and auto trucks in the United States.

"I feel therefore that the American Road Congress in Atlanta will be dealing with a subject paramount in its importance to the American people and I trust that the American people in a position to forward the movement for better roads will attend this great annual meeting. The impression seems to be quite general that the way to further the good roads movement is to get more money and still more money appropriated. While we could no doubt spend larger sums to advantage, our most pressing need is to place the administration of our present great outlay, estimated at not less than \$205,000,000, on a sound business basis. We should apply to the management of the public roads

Let us join hands and help nail the lies—and the liars.

ECONOMY IS WATCHWORD

A Washington dispatch to the Chicago Herald, by John Callan O'Loughlin, says:

"The administration is to impose the most rigid economy upon the Government during the next fiscal year.

"The preparation of estimates for expenses of the Government for that period has begun in every department. It is realized that even if the war should end during the coming winter the exhausting effect upon Europe will prevent an early recrudescence of industrial activity. This means that importations will remain at a comparatively low figure. If the war should continue custom receipts will fall.

"Moreover, the President and his advisers are anxious to bring about as early as possible the repeal of the emergency taxes which will be enacted during the next month.

"Therefore, the administration proposes to husband the resources of the country and to keep expenses down to a minimum. x x x

"If the war should continue, anything like an accurate forecast of the revenue of the Government during the next fiscal year will be extremely difficult to make. It is recognized that Europe will be forced to buy our foodstuffs, but little else, and, unable to buy as formerly, she will be unable to export to us as in the past. This means less customs revenue.

"The Department of Commerce has just issued a review of consular reports showing the far-reaching effects of the war on our trade. Great Britain bought three billions' worth of goods in 1912. The United States furnished 20 per cent. of this total.

"Germany purchased two and a half billions the same year, 15 per cent. of which came from the United States.

"Eleven per cent. of the billion and a half dollars' worth of products bought by France came from the United States.

"During August this country sold \$110,337,545 worth of goods to foreign nations. During the same month of the preceding year it sold products valued at \$187,009,020.

"The way our import trade has suffered is a matter of grave concern to the Treasury because of the effect on revenue. For the first eighteen days of September there was collected at the various custom houses \$10,845,578 while during the corresponding period of the last fiscal year there was received \$17,674,974.

"The customs revenue for the present fiscal year is \$22,200,000 less than it was during the last fiscal year. That is to say, there will be easily a loss of \$100,000,000 during the present fiscal year, and perhaps more. Officials hesitate to think what the loss will be during the fiscal year 1916 if the war continues.

"Consideration of these facts brought the President and his advisers to the conclusion that the strictest economy must be practiced. Consequently the word has gone down the line to cut out of the estimates everything not absolutely necessary."

NEW ADVERTISEMENTS

For Sale

A few Thoroughbred Registered Duroc Jersey Boars; Cheap.
JAS. C. GREENWELL,
10-15-1m. Beauvoir, Md.

For Sale

—Fine Corn, \$4.00 per barrel; Oats, 2 cents bushel; Laid Timothy Hay, \$3.00 ton. Corn Fodder.

J. W. FREEMAN,
Great Mills, Md. 10-1m.

the same sort of common sense that is applied in the management of other business enterprises, or, in other words, we should employ a sufficient number of skilled, qualified men, provide them with necessary assistance and equipment, place at their disposal sufficient funds, and hold them responsible for results. This would be vastly better than our present system of depending upon tens of thousands of road officials whose knowledge of road building, if it exists at all, is incidental to some other occupation."

WHEAT AND VETCH SEEDS NOW WILL PROVIDE NEEDED ROUGHAGE IN SPRING.

NICKOLAS SCHMITZ,
Maryland Agricultural Experiment Station.

After such a dry season as we have had this year, we may naturally expect a shortage in the supply of hay and roughage early in the spring. Hence it is quite important that we plan our farming operations this fall so that we will be provided with plenty of good feed while waiting on the next hay crop.

For this purpose there is probably nothing better than a mixture of winter oats and vetch or wheat and vetch. The vetch and wheat can be mixed and seeded with the wheat drill. A good mixture to sow is 20 to 25 lbs. of vetch and about 1 bushel of wheat or oats per acre. This will grow up early in the spring and can be used as a soiling crop or cut for hay when the grain is in the soft dough stage. It makes a good yield of an excellent quality of hay.

Vetch vetches well by itself, but owing to its viney habit of growth, it is best sown with wheat or winter oats.

"Maryland Week" has become a feature in the State which is looked forward to by both city and country people alike. It affords an opportunity for the display of the State's agricultural resources and a meeting place for our city and rural people.

Beware of Ointments for Catarrh That Contain Mercury

—Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free. Sold by druggists. Price 75c. per bottle. Take Hall's Family Pills for Constipation. 10-15-1m.

Toned Up Whole System.

"Chamberlain's Tablets have done more for me than I ever dared hope for," writes Mrs. Esther Mae Baker, Spencerport, N. Y. "I used several bottles of these tablets a few months ago. They not only cured me of bilious attacks, sick headaches, and that tired-out feeling, but toned up my whole system. For sale by all dealers.—Adv.
