Children under the direction of Miss Madge Fenwick are setting a very commendable example in cleaning up the sidewalk from Carroll Hall to the Church. The Town Commissioners might take notice of this and, perhaps, interest the Boy Scouts in cutting the weeds and grass in the plots in the center of town. The condition of this is little short of a disgrace to the town.

Essien Morsell Loker was graduated on June 2nd at the Naval Academy, Annapolis, in a class of 200. Among those from this county who attended the exercises were: Mr. and Mrs. Geo. F. Loker, Mrs. R. C. Baseball News

The Leonardtown team opened the season on Saturday last by beating the Pine Point Torpedo Station Club, 13 to 6. The starters, a free-hitting aggregation, started the hitting in their half of the first inning, but Leonardtown soon took the lead and put the game "on ice." It was a much better game than the score would indicate, and the boys proved themselves good sportsmen, and gentlemen who will be accorded a hearty welcome on their next appearance in the county seat.

Harris Camilleri and Marion Gough pitched for the locals, with Harry Davis catching. Smith and Roberts did duty for the sailors, with Gunwall caught. Umpires—Mr. Combs and Mr. Bernard.

The game on Sunday was a disappointment to a very large crowd that expected Bryantown to furnish a lively contest. The manager of the latter team was unable to get his regular men together, and it was only by the use of two sailors from Pine Point, two of the Leonardtown boys and Ed Stoen, of Great Mills, that the Charles Combs team were enabled to furnish any thing approaching real competition. The final score was 10 to 7 in favor of Leonardtown.

Batteries—Leonardtown: Henry Camilleri and Brubacher; Bryantown: Aton and Stoen, Montgomery. Umpires, Mr. Combs and Mr. Jackson. This might be a good place to add that in the future Leonardtown will not accept challenges or requests for games from any team that is not regularly organized and uniformed.

In a good game at Mechanicsville on Sunday, the home team lost to Belmont 6 to 0. The starters for Leonardtown were a pitcher's duel, neither side scoring.

On Sunday at Orville the Compton team was defeated 2 to 0. Harrough and Wood pitched for Orville and Pilkerton caught. Battery for Compton: Sol Abell, Bassler and Cryer.

Next Sunday, June 12, Leonardtown will play Mechanicsville at Leonard Hall. This should be a game worth going to see, as there is a great deal of rivalry among the two clubs over which team will be the representative one of the county. Sunday's game will be the first of a series to be played between the two teams during the season. Mechanicsville, having gotten an even break in a two-game series with the strong Bel Air team, winning the first and losing the second, will come to Leonardtown seeking for a good game, and Leonardtown is just as sure that it has the measure of the Mechanicsville team as the county seat team will average up very well in the game. The game with Mechanicsville on Sunday will prove whether the boys are improving with every practice. The game with Mechanicsville on Sunday will prove whether the boys will have a chance against the stronger Southern Maryland clubs, all of which will be seen in action on the local diamond during the summer.

The Leonardtown and Compton clubs will play a practice game at Leonard Hall on Saturday, June 11. This is not a match game and the public is cordially invited to witness it without charge.

An Artistic Roof for Your Home—

The possibilities for artistic treatment afforded by Johns-Manville Transite Asbestos Shingles have thus far been but partially developed. The different colors, shapes, sizes and thicknesses of this modern roofing and the opportunities to vary methods of laying to obtain distinct and attractive roof effects, prove this a rich field for study.

Nor is it difficult to foresee the time when inflammable roofings will be generally prohibited by law, as evidenced by many recent city ordinances.

In Johns-Manville Transite Asbestos Shingles you can have a distinctive roof, free from the threat of communicated fire. It will neither burn, rust, nor demand periodic and costly repairs.

Johns-Manville Transite Asbestos Shingles are examined, approved, and labeled by the Underwriters' Laboratories, Inc., under the direction of the National Board of Fire Underwriters.

Let us show you samples and quote prices.
