

THE TELLER. LOCAL INTELLIGENCE

THANKS to Mr. Danwell for pic-nic.

THANKS to delegate Fenn for public doc- uments.

AUCTION to-day, property of James Gage's deceased.

PORTLAND has experienced another fire with a loss of about 15,000.

RETURNED.—The papers announce the re- turn of Gen. Howard to Portland.

J. A. MILLER writes us that he is mar- ried and will soon be here with his bride.

Now's YOUR CHANCE to visit Almotia and have a good time. See the Excursion notice.

GOSE BELLOW—Gen. Wheaton of the Lapwai post, has gone to Portland to meet his family.

THANKS.—We are under obligations to Wm. Schivers, Steward of the Faxon for late Oregonian.

ARRIVED.—Mrs. M. H. Sprague and chil- dren arrived here on the steamer Annie Faxon last Sunday evening.

WAITING TIME.—When your corres- pondent assails North Idaho why do you withhold your exchange?

WAXING HOT.—The war between Gov Brayman, and some of the officials in Southern Idaho is waxing hotter and mor- hot.

SEEDS.—J. Alexander has just received a large quantity of fresh garden and grass seeds which he offers for sale, and war- rants good.

CHANGE.—Dr. McNeillan who for sometime past has been stationed at Lap wai, and who has practiced somewhat in this city and won many friends, left on the Faxon for Vancouver.

SOLID TRUSTS.—S. G. Reed Esq., vice president of the O. S. N. Company, has told some incontrovertible facts in relation to his company which we publish this week. Give credit where credit is due.

ON A LOOK OUT.—Among the passengers on the Annie Faxon, on Sunday night was Joseph Loewengart, Esq., from Portland who is on a look over the country in search of a good point to locate in business.

IN TOWN.—We notice in town this week J. T. Higgins, H. C. Brown and M. Rudolph and family from Camas Prairie. The lat- ter left on the Faxon Tuesday morning also Joseph Debucho from Spokane.

HUNTING.—We learn that Gen. J. Dick inson Esq. has been taking a hunt near the south fork of Salmon river, and found deer quite plenty, and succeeded in killing several. He has now returned to Warrens and reports very little snow there on the 6th inst.

WHEAT.—Considerable wheat has been brought to town during the past ten days. The prices here are not high, while in Portland they are fluctuating and no ex- ceptive buyers. Portland quotations range from \$1.65 to \$1.90 per cental, mostly from \$1.65 to \$1.70. The war prospect is so variable that there is no firmness in the market at an advanced price.

PROLIFIC.—Geo. Underwood is the for- tunate owner of a young cow not quite 3 years old which is the mother of 5 calves. When not quite two years old she pro- duced two calves, and this Spring when not quite 3 years old she produced three more. How is that for high in North Idaho.

NEW BILL.—We have received Senator Windom's new bill for extension of the Northern Pacific Grant, which is to take the place of Mitchell's bill reported from the senate committee on railroads. Win- dom's bill was referred by unanimous con- sent to committee on public lands, thus placing it beyond the reach of Mitchell's management. The bill is good.

PARDONED.—J. W. McLysie, who was convicted at the October term of the court in this county of the crime of appropri- ating government property to his own use, and sentenced to the penitentiary for two years, on a petition unanimously signed by the citizens of this vicinity, has been pardoned by the President and order for his release has been sent to Boise City, and as we learn, is now at liberty.

A MISAP.—A small child of A. Binnard Esq., while playing on the platform span- ning the Layton ditch in front of their dwelling on Monday and gazing at the water, by some unknown cause was im- mediately carried under the platform. For- tunately was discovered by C. C. Bunell Esq., who ran immediately to the place raised a plank of the platform and the child was rescued without further injury than a wetting. Had no one seen her fall she must have drowned.

NEW TOWN ON PAPER.—A new town has been surveyed and mapped, embracing the flat on the west side of Snake river near the mouth of the Assotin creek. It has two streets extending north and south and five extending at right angles to the first. Blocks are 300 feet square with alleys cut- ting them of 20 feet in width, north and south. Ten lots in each full block, each 60 feet by 140 feet. Mr. T. Schanck is the projector of this new town. It will uti- mately be a shipping point for the farmers of the Assotin country, and can be reached by steamers when they can reach Lewiston.

ELECTION IN WASHINGTON.—We have so far received but few returns from the elec- tion in Washington, not enough to deter- mine who is successful. The vote was light.

ANNE FAXON.—This steamer arrived on Sunday evening at 5 o'clock, bringing about a dozen passengers and 30 tons of freight, only 59 hours from Portland, a dis- tance of 401 miles, against the current of the Columbia and Snake rivers, and includ- ing all the portages and delays at landings. This we believe is the quickest through trip ever made from Portland.

RETURNED.—E. L. Root Esq., of Warrens, came up on the Faxon enroute from Mas- sachusetts where he has been spending the Winter among friends. He says that all kind of business east is dull and the peo- ple are clamorous to get out West. Sali- citude about Indians deters many, and want of means keeps others in New England. The past Winter has not been very cold at the east and not the usual amount of snow.

FENCING.—A suit for damages was tried in the District Court this week, which de- veloped some important facts to be con- sidered by hog owners. One is that where a man has a proper fence to turn cattle and horses, he is not obliged to fence against hogs and sheep to entitle him to damages they may commit. The law vir- tually requires all hog and sheep owners to not suffer them to run at large, or be fully subject to pay such damages as they may commit.

COLD & FOG.—Five nights during the early part of this week were unusually cold and in many places ice was formed. The germ of the fruit in many places was killed, and in some instances garden stuff was in- jured by the frost. It is reported that some of the early Spring wheat which had shot out of the ground in Genesee valley had been cut down by the frost. The warm weather of March started vegetation a little too soon. It is to be hoped that the injury will not prove to be great or ex- tensive.

ALMOTIA.—This steamer arrived on Thurs- day at half past 11 A. M. bringing a few passengers and a small freight, and Portland dates to the 15th. We are indebted to the Steward of the Oregonian of the 15th inst. The dispatches from the east show the peace prospect growing much more dim. Great preparations for war are going on in Russia and England. Bismarck still has some hopes of securing the meeting of the Congress. In the present state of affairs either war or peace may be easily predict- ed, but nothing with certainty.

LEWISTON FURNISHES A CANDIDATE.—The Democratic State Convention of Oregon have unanimously placed in nomination for Gov. W. W. Thayer, Esq., a lawyer now practicing in Portland. Mr. Thayer was for several years a successful attorney practicing in Lewiston I. T. We are glad to know that his advent with the people of Oregon has won for him the confidence they have thus entrusted to him, and we believe he will make as upright a govern- or as the Democrats could have selected in case they can elect him.

THE FISHING PARTY.—To which we allu- ded last week returned on Friday night to Lewiston. It consisted of Capt. Troup and the Purser of the Almotia, Mr. Barrell and wife, Mr. Smith, Gen. McMicken, Lott Wiggins and Mr. Boyd. They reached the ranch of Shisler & Sires at about 11 o'clock A. M. and all were hospita- bly entertained by Shisler & Sires who seemed to do all in their power to make their trip a pleasant one. They went to the lake and spent about three hours in trout fishing, during which time the party caught about 200 fine lake trout. The day was quite raw and windy, and considerable snow was apparent about the lake and the water somewhat high and very cold, hence their success in fishing was better than they had expected. A little incident occurred worth relating. Our friend Barrell who, by the way is travelling for his health, became induced to step off a log very sud- denly into the lake, completely submerg- ing him. By dexterous movements he suc- ceeded in extricating himself from his un- expected bath, and presented himself be- fore his wife in quite a dripping plight, and none too comfortable from the low tempera- ture of the water. He only lacked the hot bath to make things evenly balanced, and a change of raiment soon righted things. He thinks this sudden immersion will im- prove his health, but he does not wish it generally understood that he fully believes in involuntary immersion in the ice water of a mountain lake early in the month of April. The whole party returned highly pleased with what they saw in and about the lake, and the view of the country from that point, their success in fishing, and the courteous treatment they received from Messrs. Shisler & Sires, and it is reason- able to expect that their report of their trip will induce other parties to visit the lake later in the season. The scenery is there, the fish are there, the game is or near to be there, the air is pure, and the view of the mountains in close proximity; enough to attract health and pleasure seeking parties from any part of the country.

LEWISTON APRIL 15th, 1878.

EDITOR TELLER.—Many think that a local newspaper should frankly speak of evils in a community that effect the public. I believe you were not present at Clark's Hall on Friday evening last, to witness the attempts of a native mis- trel troupe. Others were and went with the best of intentions. It was soon apparent that certain parties went there to disturb the performers, as evinced by the distributing of eggs in the audience. Whatever skill or abili- ty the performers might have exhibited had they been civilly treated, certain it was that they had not the opportunity, for no sooner had they commenced, than a shower of eggs greeted them upon the stage and the noise of bedlam itself greeted them from the audience, eclipsing all the performers could make. Orderly and sensible people were forced to leave the house, and leave hoodlumism masters of the field. Whatever these hoodlums had to revenge upon these performers, certain it is that a promiscuous public assembly was no fit place. If it were known to any that the performers were not capable of properly entertaining an audience, such should have remained away, and those who did not know and went would soon have found out their mistake. A little reflection would have suggested this.

ANTI HOODLUM. District Court.

Grangeville School.

April 6th, 1878.

MR. EDITOR: Last Fall the Grange ville school on Camas Prairie was open- ed with 60 pupils of all ages, and differ- ent degrees of attainment. It closed on the 29th of March with a public liter- ary entertainment. The term has been a pleasant one throughout. The little folks acquitted themselves creditably in dialogue and declamation. The music was unusually good, a new Organ has been purchased for the school. The duet rendered by Mrs. Scott and Miss Reinhardt and entitled "Charity" is deserving of special mention. Miss Al- lie Crooks delivered the Salutatory ad- dress, and Miss Maggie Robinson, Mrs. Noyes read highly creditable essays.

The weather on the prairie is im- proving and mud drying up. Farmers are putting in their seed, and every- thing bids fair for a good crop of the cereals. We hope to experience no more Indian war in our midst, and if our people can have timely notice of its approach, they will see to it that it be of very short duration. We have room for many more settlers on this prairie.

LATE TELEGRAMS. Hopeful of Peace.

LONDON, April 12.—The tone of comments on the political crisis is much more hopeful. The conviction is that Russia is preparing to accept Germany's help to get out of the present dead lock, by such concessions as will secure a meeting of the congress. At Vienna Prince Gortschakoff's reply created an impression of Russia's willingness to find an acceptable method for opening ne- gotiations. This moderate spirit is be- lieved to be in a great measure due to the altered tone of the comments of the German, French and Italian press and politicians concerning the treaty of San Stefano, which points to the probabili- ty of Russia instead of England being isolated in case of a rupture.

Germany Ready to Help Austria.

The Post publishes the following dispatch from Berlin: Germany has not only refused Russia's request to guarantee the neutrality of Austria in the event of war, but is further report- ed to have declared that she is prepared to interfere if any attempt is made to hinder Austria from protecting her in- terests.

German Efforts for Peace.

LONDON, April 12.—A correspond- ent at St. Petersburg says: Notwithstand- ing the gloomy news of leading Russia newspapers it is believed in official cir- cles that the Congress will shortly meet. Germany has not abandoned the inten- tion of using her influence in favor of peace.

Austria's View Presented.

A Vienna dispatch states that Austria in a written statement of her views which was sent to St. Petersburg, not only insisted on the European character of the questions at issue but distinctly rejected the idea of a separate settle- ment.

Turkey Issues a Circular.

CONSTANTINOPLE, April 12.—The porte has issued a circular to its repre- sentatives abroad. It recognizes the treaty of San Stefano as the result of the reverses sustained by Turkey in the late war, and expresses a determination to carry out the terms of the treaty, but declares the porte would nevertheless accept as opportune any modifications which might be made by the benevolent intervention of the powers and modera- tion of Russia. The circular concludes by stating that whatever may be the issue of the present negotiations, the por- te declines itself to carry out the projected reforms.

Considered.—Washington, 12.—The Senate committee on public lands to-day agreed to take up Windom's Northern Pa- cific bill next Tuesday and hear arguments in its favor from Col. Gray, attorney, and Billings, director of the railroad Co. The arguments will be mainly on behalf of the railroad company having entire control of its land grants.

New Bridge.

We learn that it is the intention of the government to build a bridge at the upper Spokane Falls. The chasm through which the water runs, immediately below the Falls, is less than 50 feet in width, and can be made with one span, with firm rock abutments on both sides. The cost will not exceed \$200 at that point. Three stringers with A braces and rods on either side, and plank for the flooring is all that will be needed to complete it.—Union.

Tortures that Need not be Endured.

People suffer a great deal of pain unnecessa- rily. Among tortures that need not be endured are those inflicted by the rheumatism and gout, a new acid element in the blood which pro- duces them by contact with the sensitive cov- ering of the muscles and joints may be eliminat- ed by the use of that matchless depurant, Hostler's Stomach Bitters, before the inflammatory symptoms are developed to any great extent. When it is considered what excruciating tor- tures rheumatism inflicts, and what a tendency it has, when fully developed, to attack the heart, the advisability of an early use of such a reliable antidote becomes at once apparent. The rheu- matic virus is expelled from the blood by the in- creased action of the kidneys—which act as strainers—produced by the Bitters, and the suffer- er will find, if he uses this supreme defensive agent, that he will be protected against a return of the agonizing complaint. Dyspepsia, fever and ague, liver and bowel complaints and other maladies, are also cured by this admirable reme- dy. 25-1w
