This steamer arrived here on Monday morning at half past 7 bringing quite a load of freight and several passengers, among them we noticed, R. Grostein of this city, L. Kuhn, of Colfax, and Levi May, of Portland. Steamer returned on Tuesday morning.

From C. C. Burnell we received the following, which he took from a bulletin board at Dayton, on the evening of the 26th:

Indians and soldiers engaged at Stein's Mountain, Buffalo. Here one other Indian killed. Rube Robbins killed, he had charge of B snooks last Summer. Report of Canyon City being taken is false.

We have been told that on Tuesday of this week seven Indians made their appearance in the vicinity of Lapwai, and they ventured to go into the post when they were recognized as being some of White Bird's band and were arrested and lodged in the guard house. It is also stated by Indians that they came across the La-La trail on foot and were making their way for the north.

We have noticed for the past few days quite a number of Indians in our city during the fore part of the night, some intoxicated and some not. We ask what business they have here after sundown, and why are they allowed to be here, no matter what their business is? Keep them where they belong and then it there is any trouble we will know who are friends and who are not.

A soldier at Fort Lapwai who had not been in the habit of drilling was called upon one day this week for practicing on horse-back with blank cartridges, whereupon two companies were facing each other one mounted and the other dismounted. The order was given to fire and it was ascertained that this man had full cartridges and one of his shots took effect on one of the opposite men, the ball passed through both legs. It is supposed that one of the bones in one leg is fractured.

WOOD'S BINDER IN THE FIELD.—Quite a number of the farmers of the surrounding country and people of town went to-day to the farm of Mr. Thompson, near town, to witness the starting, by Austin & Jones, of Wood's Self Binder. The farmers present were unanimous in the opinion that it is the machine they want for this country. It does its work well, in fact for clean work and tight binding it far exceeds hand binding. We are informed by Austin & Jones that they sold the machine to some men present who had come to see it work and took orders for other similar machines. They were both present and seem to understand their machine thoroughly. See opinion in another column of men present.

WALLA WALLA, June 25th. WALLA WALLA, June 25th. The Indian laws here is meagre. Reports are whispered around that some reverses have been lately suffered by the troops in the field, but I can get nothing reliable and therefore am very incredulous. Just received a few lines from Col. McConville stating the means he is employed to place the people of our Northern counties in as good a state of defense as possible. I am glad that he is on the alert. His services and those of his men may never be required in the field, but a readiness to go at the first genuine alarm is no more than prudent. I have just seen Gen. Wheaton who says that no important news has reached him from the south, but good reports of the quietude of the Indians north including Moses and the Colvilles.

Letter from Genessee Valley.

GENESSEE VALLEY, June 25th, 1878. ED. TELLER.—An outrage on the people of North Idaho is being perpetrated by your city government. In these troublesome times, what safety can we expect for ourselves and families, when bands of Indians are allowed to roam through your streets, spying upon the actions of Col. McConville and his men, and otherwise endangering the safety of our people. We look upon Lewiston as our commercial centre, and expect that the city officials will clear the town of Indians, and keep it clear until the present Indian war is ended.

E. F. WALSH, alias GENESSEE.

The President's Approval of Appropriations.

WASHINGTON, June 17.—A rumor is afloat to night that the president will accompany his expected approval of the river and harbor appropriation bill with a notification that he will suspend its operations, except so far as it provides for improvements of unquestioned national character and importance. President Grant adopted this course in regard to the river and harbor bill of 1876, and a large number of appropriations were not used until last year.

THE IDAHO INDIAN WAR.

BY TELEGRAPH TO OREGONIAN.

Friendly Indians Enroute to Fort Hall—A Squaw Man Killed.

BOISE CITY, June 21.—Parties arrived here to-day from Fort Hall and Lemhi via Wood river and the Big Camas prairie, report having seen 200 Indians at Wood river, about 200 miles east of this place, who claim to be friendly and on their way to Fort Hall Agency. These Indians stated that Jas. A. Demsey, a white man, who has an Indian wife and who has lived many a year with the Indians, and who was in the lava beds at the commencement of the outbreak, had been killed by the war party before they left the lava beds on their riding tour across the overland road and Snake river.

Movements of the Hostiles. Small parties of Indians and traces of larger bodies are daily discovered in the country bordering on the overland stage roads. The Indians are no doubt scouts and straggling reinforcements on their way from the east to join their main body, now in the neighborhood of Stein's mountain. They are keeping up a regular line of communication between the lava bed region and the place of rendezvous, and watching the movements of the troops.

Leaving the Stage Road Unprotected. Major Sanford, who is to-night at Canyon creek, 40 miles east of this place will arrive here to-morrow night and go with Gen. Grover to join Howard in the Malheur country. This arrangement will leave Idaho without troops, and the stage roads and settlements again exposed to the raids of roving bands of Indians who are known to be in the country. For this there is no present remedy, as the entire force now being concentrated under Gen. Howard is much to small to meet the exigency likely at any moment to arise in Oregon.

More Indians Joining the Hostiles. SAN FRANCISCO, June 22.—A Palisade dispatch says 25 well armed Indians crossed the railroad track at Argenta this morning going north. Constant reports come in from the line of the Eureka and Palisade railroad of small parties of Indians passing north, nearly all such armed.

Utahians all leave their Reservation. A Silver City dispatch says the Utah Indians have all left their reservation. The Blue mountains are full of them.

[This is probably a rumor. Latest advices from Utah reservation indicate nothing of this kind. We here of no departure of Indians from there. The Pendleton Independent of Thursday says the agent, Major Cornoyer, has received orders to keep the Indians on the reserve, and no Indian away from there without his pass is entitled to protection.—Ed. Oregonian.]

The Malheur agency is burned to the ground.—World, June 21st.
