

**THE TELLER.**

**COAL INTELLIGENCE**

Mrs. Coffey's restaurant ad.

Warrens.—Grostein's pack train returned from a trip to Warrens.

The flouring mill of John is now in successful operation.

B. Morris from Mt. Idaho gave us call this week.

Trus, Esq., has returned from Walla on route for Warrens.

L. E. Harris of Dayton, and Henry Cook of Walla Walla, were in town this week.

Over Cases.—In the several cases against the city, the proofs and arguments of counsel have been submitted to the court.

Parity.—The number and extent of our articles in this issue is not as full as usually give. The editor has been busy at court.

Arrived Home.—Mrs. S. C. Thompson has been visiting friends in the east, and home on the Northwest, after an absence of several months.

Excursion for more surveys of our public land in north Idaho is being circulated. It is expected to sign it at the post office. It is important.

Verdict.—In the trial of the cause of the rearley vs Wesley Mulkey with a jury, a verdict was found for the plaintiff in the sum of about \$22.

Wed.—In this city, Oct. 19th, at the residence of the bride, by the Rev. McEwan, Mr. Thomas Hudson and Mrs. Clara L. Wright.

May happiness attend them through life.

Wagon in Ditch.—The Lewiston ditch has been thoroughly repaired and cleaned and water was turned into it this week and now runs a full head.

Older Vinegar, warranted genuine, at MCKEY'S DRUG STORE.

BANK of Dayton, W. T., sent us copies of Blank Deeds, Real Estate and Mortgages, which he has for sale at \$2500, adapted to the laws of Washington Territory.

Dead.—In Portland, Oregon, Oct. 5th, W. Lappeus, father of J. H. Lappeus, a member of police of that city, and of Mrs. Anderson of this city. Aged 77 years. He was a kind hearted old gentleman, affable in all his dealings and much respected by those who knew him.

WATER RICKS IMPROVEMENTS.—We learn by the steamer Northwest that three gangs of hands are at work taking obstructions from Snake river below. One gang at Five Rapids and the other two at Pine Tree.

The amount of drilling had been completed at Five mile, preparatory to being, and several large and bad rocks removed from the head of Pine Tree. One last task place just as the Northwest left, which did great execution.

Wagon can be supplied with good fresh hay sent by Mr. Cox to W. J. McCone, Co., Moscow, I. T.

FOR DRAW UPON THE TREASURY.—We authorized to any one who knows the Indian bureau have already secured \$25,000 for the benefit of Joseph's of Indians since they have located in the Esquimaux Territory. That is \$11,000 more than the government have expended for the white men and women of all Territory during the last 12 months. It would not be an Indian and get rations.

WATER RISK.—The late rains in the basin caused a sudden rise of the Snake river which showed itself at place on Tuesday night and Wednesday morning, and contrary to the expectation of many who had wood, saw-logs and exposed along the banks; as a consequence several hundred dollars worth of was drifted away. Many saw logs not belonging to the mill company, several rafts, some containing lumber angles were swept down the stream.

WEST.—The steamer Northwest, Stump, arrived here on Tuesday morning, bringing several passengers and tons of freight. She discharged freight along the river at points below. She had no other difficulty to encounter on the way here, save her detained days by reason of violent winds. She returned on Wednesday morning, and will come again to Lewiston so soon as she can load at Walla and make the trip. She has been repaired with new tubes in her boiler, and in several other respects and is in good trim for business.

DEBARMENT.—On Wednesday we received no mail for Lewiston Walla Walla, but received the Colfax instead. On Thursday very little mail came through from Walla Walla, and no Statesman from that place for two heretofore we have received our papers and papers via Colfax mail on several occasions. This thing is getting to be unbearable and it our down country masters who have the management of the mails don't soon attend better to their duty, there will be a row in camp soon, as there is no earthly excuse for such carelessness.

**What a Democratic Editor Thinks of a Brother Democratic Editor Just Before Election.**

The Dayton News, the organ of the Democracy of Columbia county, W. T., has the following in its issue of the 19th inst:

In rancorous malice and fiend-like envy the editor of the Walla Walla Statesman is without a rival. Possessed of talent of no common order, he is a strange combination of enlarged understanding with perfect selfishness;—of logical life with moral death;—and he stands in his spiritual deformity, at once potent, dangerous and inexorably contemptible. We trust it will be a long time ere the press of the Pacific coast is troubled with another such Mephistopheles.

Then in speaking of the Statesman's attacks on Judge Mix, it says:

And as we know that the Statesman editor hates Mix far more than he hates the "father of lies," and is determined to accomplish Judge Mix's defeat, by fair means or foul, we hereby tender to our friend M. the use of sufficient space in the News for his defence. The Democracy of Walla Walla county, having been betrayed by the old Ishmaelite of the Statesman, they are virtually without an organ; and we will do all we can legitimately to aid them in this their extremity.

Such compliments are merited and the boldness of the News in bestowing them indicate that the News editor has some conception of the duty of the press in all such cases.

**The Yakima Mines.**

Mr. J. A. Shoudy, the founder and principal owner of the town of Ellenburgh, in Yakima county, calling this morning, showed us some very fine nuggets of pure gold taken from the mines in Yakima county. One "rock" as large almost as a tea-cup, and weighing about three hundred dollars, is the finest native specimen we have ever seen. This and several smaller chunks came from the Swauk mines, about 24 miles from Ellenburgh, and upon which twenty-five men own claims and are doing well.

The Pelastin quartz mines, seventeen miles from the Swauk, are paying well, and Mr. Shoudy brought with him about two hundred and fifty ounces of retorted fine gold to prove the statement. About twenty-five men are engaged at these mines, and six or seven small mills are being successfully operated.

In agriculture, stock raising and general business, as well as in mining, Yakima is prosperous. A great many people of industry and vim have moved in during the summer just past, and the county will soon be one of the most wealthy in the Territory.—Oregonian.

**Such Ignorance!**

The Advocate tells the following: "Father Wilbur, who has just returned from testifying before the commission of Indian affairs at St. Louis, has gained a fresh notoriety. This is the way the St. Louis Daily Times reports him: "The testimony of Rev. Jas. Wilbur, a Catholic priest, who is in charge of the Esquimaux in Washington Territory, was very interesting." He further says, "Father Wilbur went out from New York in 1860, and that last year the government issued only sugar to this reservation. Rather a sweet set of Esquimaux, it seems to us. This reporter better never come into Washington Territory, or he might find some of the Esquimaux ready to carry out the scripture to his sorrow. 'I was a stranger and ye took me in.' How Father Wilbur could ever be induced to let out these profound secrets is a mystery to us. Certainly nothing but the Inquisition could ever extract such a confession; but we have always supposed these Washington investigations were next to it, and he is doubtless excusable."—Oregonian.

**A Rush of Riches.**

During the eight months ending August 31, 1878, the exports from the United States exceeded the imports by \$188,501,087, or at the rate of \$23,502,636 per month. All of this had to be paid for either in national bonds or gold; and the prospect now is that the exports for the next eight months will much exceed those of the last. The excess of exports over imports (gold and silver included) are now at the rate of nearly \$200,000,000 a year—with the greatest grain crop ever raised in the country nearly all behind. In short, with all the noise and confusion about "hard times," it may be doubted that the country was ever at any previous time as rich and prosperous as now.

PATENTED.—Mr. John Gates, chief engineer of the O. S. N. Co., has received a patent on his new steam or hydraulic steering apparatus, which is now being used in the new boats of that company.—Mountaineer.

**Don't Cut to Sell.**

Last week the readers of the Union were given an extended account of the ways and means to be taken to acquire title to timbered lands under the act authorizing their sale in California, Nevada, Oregon and Washington Territory. Since then a number of entries have been made at the Walla Walla Land Office under the law. The fourth and fifth sections of the law make it "unlawful to cut, or cause or procure to be cut, or wantonly destroy, any timber growing on any lands of the United States, in said States or Territory, or remove, or cause to be removed, any timber from said public lands, with intent to export, or dispose of the same; \* \* \* and any person violating the provisions of this section shall be guilty of a misdemeanor, and, on conviction shall be fined for every such offense a sum not less than one hundred nor more than one thousand dollars."

A strict construction of this law renders all persons who cut wood or rails on the government land for sale, either where cut, or in tow; all saw mill men who cut, saw up and dispose of the timber on government land; and all others who cut or wantonly destroy any such timber, liable to arrest and fine. The circular from the General Land Office on this subject says: "In the States and Territory mentioned, the effort of the Executive will in the future be directed to the proper punishment of parties who may cut for purposes not authorized by the statute under consideration, and to the prevention, so far as practicable, of further trespass against the general law.

Our farmer friends, however, may take heart. Their supply of rails, building material and fire wood is not cut off by the law; because in the same fourth section it is expressly "provided. That nothing herein contained shall prevent any miner or agriculturalist from clearing his land in the ordinary working of his mining claim, or preparing his farm for tillage, or from taking the timber necessary to support his improvements." While it would be a good thing for every prairie farmer to own forty or more acres of timber land, yet under this law he is not compelled to buy it, nor does he become liable for trespass if he cuts rails, firewood or building timber on government land "to support his improvements."—Union.

**Let Him try it.**

He stands in the stores with his back to the stove and tells how he could run a newspaper; how he could be an independent as a leg on ice, and call things by their right names; how he would expose corruption in high places; how he would write good common sense and none of your frivolous, try-to-be funny stuff. Then he criticises other people's methods of conducting newspapers, and just wishes some one would give him a chance to show his journalistic ability. The way to cure one of these chaps is to get him to agree to write a sensible article every day for a week. Before the week is out he is sure to be pumped dry, and will gape worse for an idea than a chicken does with the pip.—Wattsburg Times.

**Statesmen Not All Dead.**

If anybody believes that the statesmen are all dead because Jackson, Webster, Clay, Calhoun and Benton have passed away, let them peruse with care the great argument which Mr. Schurz presented at Cincinnati for the consideration of the people of the United States, and he will be convinced that now, as heretofore, in the history of the country during times of peril and disaster, there still exist those whose clear perceptions can guide aright the wandering footsteps of the people through fog and storm and darkness as they have been guided before.—Boston Herald (Ind. Dem.)

**They all Take It.**

When the system is run down to that extent that you pass sleepless nights, are nervous and irritable, have gloomy forebodings, sour stomach, sick headache and coated tongue, do not enroll yourself as high private, in the rear rank, under General Debility, but cheer up and try White's Prairie Flower, The Great Liver Panacea, now for sale in every city and town on the Continent. No medicine ever compounded is half its equal for the cure of DYSPEPSIA and LIVER COMPLAINT. It has a specific power over the liver, and by curing the liver, Dyspepsia and all other diseases arising from it, vanish as if by magic. Sample bottles are sold at the small price of 25 cents that will convince you of its merits. Large size bottles 75 cents for sale everywhere.
