J. W. POE,  
Attorney-at-Law,  
AND DISTRICT ATTORNEY  
For 1st Judicial District. Office in Clark's Block 3d street Lewiston, I. T.

## THE COMMISSION AND COUNT

On the 14th inst. in joint session Congress received the report of the Commission on Louisiana. Objections were filed to the report of the Commission, and the Senate retired to consider the objections and had these under discussion for most of the day, and closed with the endorsement of the action of the commission, by a vote of 41 to 28, a strict party vote, and the secretary was instructed to so inform the House. The House instead of passing upon the question adjourned till the 20th by a vote of 140 to 180. On the 20th the House voted not to agree to the report of the commission by a vote of 182 to 99, a party vote except that Seelye and Pierce of Texas voted with the democrats. The Senate was notified that the House were ready to go into joint session. At 1-35 P. M., the joint session convened, and the President of the Senate declared that the two Houses not having concurred in rejecting the report of the commission, the eight votes of Louisiana would be counted for Hayes and Wheeler. When the count proceeded. The seven votes of Maine were counted for Hayes and Wheeler. The eight votes of Maryland were counted for Tilden and Hendricks. The eight votes of Massachusetts were counted for Hayes and Wheeler. Objections was then made to counting of the vote of Michigan, and the senate withdrew to consider. After the Senate withdrew a motion made in the House to adjourn till 21st was lost, 59 ayes and 192 nays, and afterwards voted to count Michigan and notified the Senate. The Senate also in separate session voted to count Michigan. At 5-20 P. M. the joint session was resumed and the votes of Michigan were duly counted. Then followed the counting of the five votes of Minnesota for Hayes and Wheeler, the eight votes of Mississippi for Tilden and Hendricks, the fifteen votes of Missouri for Tilden and Hendricks, the three votes of Nebraska for Hayes and Wheeler. Then came the three votes of Nevada, to which objections were duly filed and the Senate again retired for deliberation. After the Senate retired the House by a vote of 96 to 87 voted a recess till the 21st. Several republicans voting with the democrats for the recess.

DUTY OF A PUBLIC JOURNAL.—It is the highest duty of a public journal to give to its readers full and correct information on the topics and questions of the day. It is to tell the truth without fear or favor. It is to advocate the interest only of the whole people and not of any party, faction, clique or ring. It is to have no friends but the people, no favorites except those who, like it, strive honestly to serve the people. It is to calm evil passions, to defend the law, to demand order and frown down all attempts to create disorder or violence. Thus guided a journal cannot fail to have influence and power, because it will possess the confidence of a constantly increasing number of readers, who will look to it for instruction and trust its statements of fact even if they happen not to concur in its opinions on any given public question.—W. W. Statesman

## ARIZONA.

Mr. Vrooman writing to the *East Oregonian* from Florence, Arizona, speaks of the mines there in the following manner:

The mines here are perhaps the richest yet discovered and made known to the public. At present very rich ore is shipped to San Francisco; none less than worth \$500 a ton. Seven 14-mule teams have been here since I came and loaded with ore out of the "Silver King" in Globe district, that paid from \$1,000 to \$2,000 a ton. Half of this claim sold a few days ago for \$300,000. This ledge is 30 miles from Tazewell. Machinery for separating ore from the rock is on the way, and will be erected near the ledge. The Richmond claim is three feet wide, and twenty-three inches of it pays \$1 per pound and the balance \$100 per ton. The Chilson boys' claim is said to be very rich, two and one half tons of it paid \$2 50 per pound shipped to San Francisco. It is not unusual to find nuggets that is worth from \$6 to \$8 each. I have seen a 6 pound nugget that was three-fourths silver. Silver is to be seen in almost any rich rock. It is entirely different from Nevada in its formation and character. There are great placer diggings near Prescott which can be worked where they have water, or can be dry-washed without.

TREASURE FOUND.—It will be remembered that in 1874 the stage running between Boise City and Umatilla was robbed of about \$4,500 in transitu in charge of Wells Fargo & Co. The robbers were afterwards apprehended, tried and convicted and sentenced to ten years in the penitentiary, but the money was not found. After their incarceration they confessed and disclosed the place of the concealment of the money, which they claimed to be in the mountains near the head waters of McKay creek. Several unsuccessful attempts have been made to find it. Early last October Mr. Paige route agent of Wells Fargo, Lot Livermore agent at Pendleton and Mr. Maxon, father of one of the robbers repaired to the spot and after search of one hour discovered the lost Treasure between two logs, or a part of it amounting to \$4,000 consisting of a gold bar, two bags of gold dust and a yeast powder can containing gold notes and currency. Paige is an indefatigable and vigilant agent of that company and is entitled to the highest credit for his perseverance in this as in other matters belonging to that company. The *East Oregonian* furnishes the above news.

THE WEATHER.—During the entire winter, with the exception of a few days of bracing healthful cold, the weather has been mild and delightful. Bright sunny days have been largely in the majority, now the air is balmy and delicious and everything betokens an early Spring and luxuriant vegetation. The only regret in this connection is the very light snow fall in the mountains, and the probable correspondingly light yield of gold from the placer mines.—*Boise Statesman*.

A butcher recently found a shawl-pin in a cow he was cutting up into steaks. It is supposed the animal had swallowed a milkmaid.
