DENTISTRY

Teeth Without a Plate
In the greatest boom of modern times, I wish you could understand the difference between having teeth with a plate and teeth without a plate. One is firm, comfortable and lasts a lifetime; the other covers the roof of your mouth, destroys the best part of the taste. One never falls down; the other often does.

Where it is necessary to wear a plate, DR. SYDLEMAN will make you one that will fit.

HOURS:
8 a. m. to 8 p. m. Sunday, 10-2.
