Business Men's Association Holds Annual Banquet at the Springs House.

The annual banquet of the Stafford Business Men's association was held at the Springs house Wednesday evening. Judge Banks, speaker of the occasion, represented the association in person, but the speakers who did come were among the best the association has had. The dining hall was beautifully decorated with the national colors and numerous additional electric lights added to the brilliancy of the place. The word "Welcome" appeared in large letters over the entrance. Guests began to arrive at 8 o'clock, and from then until 9 there was a reception in the hotel parlor. A few minutes after 9 the doors of the dining hall were thrown open and the banqueters marched in and took their places at the tables. Grace was said by Rev. Felix J. O'Neill and then one of the waiting waiters, ever served at the hotel was brought on. The regular waitresses were assisted by several local young women and by colored waiters from Springfield. Music was furnished by Lynch's orchestra.

Gilbert S. Baker, president of the association, introduced the toastmaster, Mr. D. O'Connell, who in turn presented the speakers. Lieut. Gov. Frank B. Weeks spoke in behalf of the state and although his address was short it was very interesting. He was followed by Hon. Joseph L. Barbour of Hartford, who gave a logical talk on business and commercialism and told many amusing stories. Between the courses there was singing under the direction of Richard W. Ellis.

Horace Myott's Team Struck by Electric Car at Crossing—Driver's Collarbone Broken—Horse Killed—Borough Notes.

Another accident happened at the railroad crossing at the lower end of Jewett pond Thursday morning. Horace Myott, who drives a team for Dearney & Clarke to Plainfield each week, was on his way there at about 8 o'clock, thinking the trolley car which is due at Jewett City at 8:18 had passed, he attempted to cross the track. The trolley was late, and before Mr. Myott realized it struck the team. He was thrown into the air, and picked up, in an unconscious state, quite a distance from the crossing. The horse was instantly killed and the wagon and nearly all the contents were heavily loaded with groceries, destroyed.

The car was reversed and carried Mr. Myott to the Jewett City station, and he was taken to his boarding place at P. B. Driscoll's. Dr. G. H. Jennings found Mr. Myott in a dazed condition, with a cut on his head and a broken collarbone. Later Dr. Byron Sweet was called, but found no more broken bones. Mr. Myott had a miraculous escape. He was taken to the hospital, moved to his brother's, Nelson Myott's, on Aspinock street. The distance from San Francisco to Washington, the sea route, is about 2,600 miles, and via Honolulu, 2,263 miles; from San Francisco to Auckland, via Tahiti, is 5,880 miles, and via Honolulu, 5,950 miles.

The indications point to an unusually large cocoa crop for the coming year in San Domingo. This year has been favorable in every way and without accident the fruit will be ready for the first gathering in April. The cacao plantations of mature trees permit of a second crop in August.

Mrs. J. L. Parks of Los Angeles, married at 15, has 17 living children, nine of whom are caring for themselves out in the world and eight are now at home with her. She is now 48, and has just been "investigated" by the City of Los Angeles society for speaking crossly to her brood.

The banana trees in San Domingo, which were necessary to replant owing to the cyclone of August, 18, are growing well, and if the season continues propitious this district should market at least two-thirds of the average annual crop. The first steamer will probably be ready for shipping early in April.

Lord Clifford of Chudeigh, who has come to this country with his wife and daughter, is one of the wealthy Roman Catholic peers of England, and lately bought the abbey of Marmoutier, in Touraine, to save it from conversion into a factory. It is interesting to note that in the recent tax roll in New York Mrs. Russell Sage is assessed for twice as much as John D. Rockefeller. Mrs. Ida A. Flager is down for \$2,000. John T. Lynch has been chief of the Holyoke fire department for 24 years now. "We of the present generation," said the Holyoke Transcript Monday evening, "never knew another chief than the courteous, handsome, hair-curling, tender hearted man, who is as brave as he is beloved, as intelligent as he is experienced, and who, without our knowing it, is unflinchingly doing his best work in fighting fire by working to prevent it."

Dr. Shanklin, previous to his election as president of Wesleyan, had been president of Upper Iowa university, at Fayette, Ia.

J. Franklin Adams, F. R. A. S., has undertaken the gigantic task of counting the stars and assigning to each its proper magnitude. The counting will be done from photographs, and plates covering the whole southern hemisphere have been secured. These number some 200, and each is 15 inches square and records the image of from 20,000 to 200,000 stars. To facilitate the counting the plates will be moved across a graduated grating in the field of a microscope, so that the stars may be counted in strips.
