Why Few Love at First Sight. Oliver Wendell Holmes Has Well Portrayed Situation.

I understand we were speaking of love at first sight—I remarked, mildly. Now, as all a man knows about a woman whom he looks at is just what a picture as big as a copper, or a "nickel," rather, at the bottom of his eye can teach him. I think I am right in saying we were talking about the pictures of women.

Why Musicians Wear Long Hair. "Why do musicians wear long hair?" said the barber. "Pshaw, I thought everybody knew that. They wear long hair to protect their ears, of course—their sensitive ears. All depends, with musicians, on the ears, the same as all depends on the eyes with painters. And the ears of musicians are delicate, liable to take cold, liable to ache, inflammations and what not. So they protect them with long hair, and you have no more right to laugh at the mane of a pianist or violinist than at the protective shields and pads of your favorite halfback."
