Wants His Son to Attend Natchaug School.

Franklin P. Brown, in a petition to the town school committee, requests

that his son, Howard F., aged 15, be permitted to discontinue his attendance at the Windham street school and be allowed to attend the Natchaug school. The petition is of the opinion that the son will be benefited by the change and that it is for his welfare and asks a hearing before the committee.

It is definitely known why Mr. Brown is petitioning, but he says that good and sufficient reasons will be given the committee when he is heard on the matter. Mr. Brown has consulted an attorney on the question, the latter being a member of the committee, who suggested that he submit a petition for a hearing, and he is the thing settled by the town giving the committee an opportunity to hear the affair thoroughly.

Mr. Brown contends that if others are allowed to leave their children leave one school and attend another, there is no adequate reason why he cannot do likewise. His reasons, which he claims are just, will be given the committee the hearing when one is granted him.

MANAGER OF Y. M. C. A. TEAM Explains Willimantic's Case in Reply to Danielson.

In reply to the statements issued by the Danielson Y. M. C. A. in Tuesday's Norwich Bulletin, the manager of the local team says:

The three letters that Mr. Marland wrote in some way failed to reach the first of the year the general secretary received a postal card from Danielson which he failed to give to the manager until after the date that Danielson asked for the game, not, "Charm," Thursday morning, after which the manager wrote to them for dates for a series, but as yet any reply has failed to reach us. We don't wish to doubt Mr. Marland's statements, but the local fans will always remember the "dear little chappie" who played in Willimantic last year and stopped the game to go out and coach his boys.

It is true that Stoughton defeated us, but we wish to state that it was a team composed of second string men that we sent down each time, owing to our own making of games for the season, and we wish to leave Willimantic early in the afternoon and some of our regular men were unable to leave their business.

We do not wish to make any excuses for the loss of the game for the season's bubbles, but to confirm the letter that we wrote Wednesday morning we hope to see Danielson in Willimantic on a date to be decided for the first game of the series.

Harlow Holmes of South Windham. During the past week she left Willimantic early in the afternoon and some of our regular men were unable to leave their business.

We do not wish to make any excuses for the loss of the game for the season's bubbles, but to confirm the letter that we wrote Wednesday morning we hope to see Danielson in Willimantic on a date to be decided for the first game of the series.

"The Dollars of the Daddies"

You know how hard they were earned, how carefully they were husbanded, how judiciously they were invested.

The dollars grew into hundreds, the hundreds into houses, into farms, into wise and profitable business investments. These "dollars of the daddies" are the basis of our present prosperity. They were not lured into speculation, or into risky investments. The "daddies" demanded security and accepted the returns absolute safety gave.

What about your dollars? Are they absolutely safe? Make them so by starting an account with this institution at once and allow your mind to be relieved from all attendant worries occasioned by questionable financial deals.
