

AFTER DOCTORS FAILED

Lydia E. Pinkham's Vegetable Compound Cured Her.

Willimantic, Conn.—"For five years I suffered untold agony from female troubles, causing backache, irregularities, dizziness, and nervous prostration. It was impossible for me to walk upstairs without stopping on the way. I tried three different doctors and each told me something different. I received no benefit from any of them, but seemed to suffer more. The last doctor said nothing would restore my health. I began taking Lydia E. Pinkham's Vegetable Compound to see what it would do and I am restored to my natural health."

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

WESTERLY AND WICINIT

Why Boxing Matches Have Proved Unpopular—Appeal from Decision in Landon-Collins Case—Electric Lighting Service for Mystic—First Lieut. Arthur N. Nash Promoted.

The bill introduced in the senate by Senator Louis W. Arnold of Westerly providing that all oyster grounds in the Pawcatuck river shall be rented for such periods and prices as the shellfish commission shall determine, has the support of the commission. The grounds in the river below Pawcatuck Rock are already exempted from the provisions of the act, which establishes a fee of \$10 an acre for grounds covered by less than twenty feet of water and \$5 an acre for grounds covered by a greater depth. The grounds above Pawcatuck Rock are no more valuable than those below the rock, but not having been excepted by the provisions of the oyster bill, their rental is higher than the grounds below the rock.

The civil suit of Charles F. Landers against John J. Collins, New London contractor, was brought before Justice James E. Kennedy in Pawcatuck Saturday afternoon. The jury seeks to recover \$99 for wages alleged to be due him by the defendant. Judge Herbert W. Rathbun represented Landers, and Edward W. Hewitt appeared for Collins. The parties submitted to judgment for \$99 and costs and took appeal to the court of common pleas for New London county.

While there does not seem to be serious objection to the wrestling matches which have taken place on the West Side, opposition has developed against the boxing bouts that have been held here. It is understood that the West Side clergyman has taken up the matter with the authorities of the town of Stonington, and that no more boxing will be held there. The West Side clergyman has even in Pawcatuck. So far as can be learned an objection has been filed against wrestling, and probably will be if those events are orderly conducted.

What caused this objection was the killing on the stage and boys, who were permitted to pummel each other until spectators interfered and demanded that such an exhibit be stopped. This was done on the ground of the tendency to degrade the youth of the town, of almost infantile brutality, and had no place in the calendar of real sports.

Representing himself as a prospective buyer who was to open a gambling establishment, a newspaper reporter got into the good graces of a manufacturer of gambling apparatus, located in Edgewood, near Providence, and he is the most noted manufacturer of the kind in the country, and much of the patronage comes from Rhode Island.

This concern has supplied over twenty roulette wheels and a large number of faro layouts to customers in the state within the past two years. The greater part of the apparatus is now in use in the town of Cranston, but according to the manufacturer, none has yet been sold in the town of Westerly. It is present in an elaborate gambling outfit is being manufactured for a new place to be operated at Narragansett Pier by New York gamblers.

The manufacturers informed the bogus Westerly buyer that if he decided to buy roulette wheels, one of them could be easily made "crooked" for a consideration of an extra \$100, by inserting a fake cleaning brush under one side of the wheel frame.

The Mystic Power company, in appreciation of the ten years' contract recently entered into with the Mystic power plant, has installed modern street fixtures in the village, giving more and better light than formerly and at no increase in cost. This same company is under like contract with the Pawcatuck fire district, and soon improvement will be made in the village just across the bridge from Westerly.

The Mystic and the Westerly Light and Power company are under the same management, and have ten years' contract with Westerly. The service in Westerly has been improved and in compliance with the contract all the latest approved methods of street lighting will be installed without additional cost.

First Lieut. Arthur N. Nash, battalion adjutant, has been promoted to be ordnance officer, with rank of captain, of the First Artillery district, Rhode Island National Guard. First Lieut. Henry R. Congdon has been ordered to report to Major C. H. Ledward at Westerly, as acting adjutant. The promotion of Lieut. Nash is deserved, for he is no more competent and enthusiastic citizen-soldier in the state, and he is receiving the congratulations of his friends in his home town—Westerly.

Captain Nash enlisted March 14, 1894, in Company B, Westerly, 14th regiment, R. I. N. G., and was appointed corporal a year later, and sergeant a year afterwards. He was promoted to be first sergeant April 19, 1898, and was mustered into the United States service in the Spanish-American war as first sergeant of K company, First Rhode Island United States Infantry, May, 1898. He was appointed first lieutenant and adjutant of the First battalion, First Infantry, R. I. N. G., May 2, 1904, and was transferred to the Artillery corps Dec. 12, 1905.

Sponges and Wash Cloths. Sponges have almost been discarded from the modern bathroom on account of the difficulty of keeping them in a sanitary condition. When they are used one should not be satisfied with giving them an occasional washing even in warm water, but they should be boiled once a week in water to which has been added a teaspoonful of Gold Dust washing powder and rinsed through several clear warm waters. Wash cloths should also be boiled in Gold Dust suds and thoroughly rinsed, sunned and ironed. Those of thin linen crash are more desirable than heavy ones.

Comparisons Are Odious! And yet it seems necessary for us to make them. How can we induce you to try P. & G. Naphtha Soap unless we can make you realize that it is better than the soap you are now using? And how can we do that unless we make comparisons? And so, whether we like it or not, we must say and we must keep on saying: P. & G. Naphtha Soap is better than any other naphtha soap. It is better than ANY laundry soap. It saves time, trouble, fuel and money. It makes clothes cleaner, sweeter, brighter, whiter than any other soap, no matter "where its name" or what its name.
